stryker

stryker LP35 Monitor Defibrillator

PURPOSE

This document provides the list of service parts for the LP35 product, and cross references reference designators used in the service manual and in the service bill of materials (BOM) in the PLM system, with part and catalog numbers.

SCOPE

Scope is limited to parts and repair kits which are available for service purposes for the LP35 device.

SERVICE BOM PART

Item Number	Description
3342155-000	Service Bill of Materials, LP35

See 3342155-000 EBOM for parts list, or reference the table in section 4 of this document.

SERVICE PARTS LIST

Note: Reference designators are unique identifiers for parts, used to cross reference between the service manual or service process work instruction and the service BOM. The reference designators have been assigned based on the following prefix system:

- A prefix – PCBAs
- F prefix – Fasteners
- M prefix – Plastic parts and mechanical components
- C prefix – Cables and wires
- E prefix – Electrical components

- L prefix – Labels and adhesives
- K prefix – Kit—parts assembled into a kit for a specific repair

Reference Designator (From Service Manual)	Part Number	Catalog Number	Description	Notes (or picture)

Frequently Asked Questions

- Q: Are all parts available individually for purchase?**

A: Some parts may only be available as part of repair kits. Refer to the catalog numbers for more details.

- Q: How do I identify the correct part for replacement?**

A: Use the reference designators in the service manual to cross-reference with the parts list provided.
