- If the product is trying to operate outside of the temperature range, power of until the temperature is stabilized

- Long periods of use may result in neck, arm, shoulder, and wrist pain and stiffness. Take regular breaks and seek health advice from professionals for any discomfort

RECYCLING

- Where you see this symbol on any of our electrical products, batteries, or packaging, it indicates that the relevant electrical product or battery should not be disposed of as general household waste in the UK, EU, or Turkey.

- To ensure the correct waste treatment of the product and battery, please dispose of them by any applicable local laws or requirements for the disposal of electrical equipment/batteries.

- In so doing, you will help to conserve natural resources and improve standards of environmental protection in the treatment and disposal of electrical waste.

- The recycling and processing of Waste Electrical and Electronic Equipment will make a significant contribution towards helping protect the environment by reducing landfill waste.

FCC STATEMENT

FEDERAL COMMUNICATIONS COMMISSION CLASS B INTERFERENCE STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following

two conditions:

1. this device may not cause harmful interference,
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit diferent from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CANADIAN ICES STATEMENTS
