Styletech MK520 Mini Wireless Keyboard and Mouse

Product Specifications:

- · Wireless Keyboard & Mouse Set
- DPI Settings: 800/1200/1600
- · Class 1 Laser Product

Product Usage Instructions

1. Battery Installation:

Insert AAA batteries into the keyboard and mouse. The battery compartments are located on the base.

2. USB Dongle Connection:

Insert the USB dongle stored in the mouse cavity next to the battery compartment into a spare USB port on your PC or laptop.

3. Power On:

Switch the Power button ON on both the mouse and keyboard. They will connect instantly. Your PC/Laptop may prompt for a keyboard setup; follow the on-screen instructions. Adjust your preferred settings within the keyboard settings.

4. DPI Sensitivity Adjustment:

To adjust the DPI sensitivity on your mouse, press the circular button until you reach your desired setting (800/1200/1600).

5. Power Off:

Switch off the power for both the keyboard and mouse when not in use

6. Low Battery Alert:

Both the keyboard and mouse will flash red when the batteries are running low.

FAQ:

1. What do I do if my batteries are running low?

If the batteries are low, both the keyboard and mouse will flash red. Replace the batteries with new ones to continue usage.

2. How can I claim warranty service?

If you encounter any defects covered under warranty, contact the helpline or visit styletech.net with your proof of purchase for a replacement within the warranty period.

3. Are the batteries replaceable?

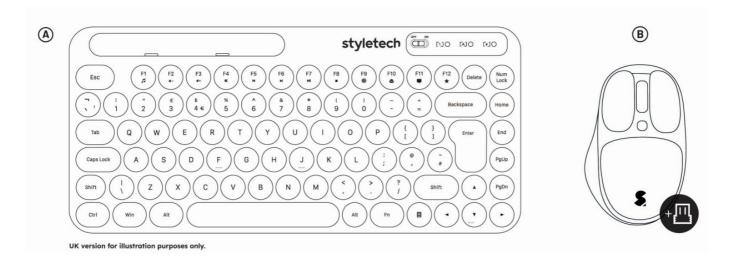

Yes, ensure to follow the provided instructions for battery replacement to avoid any risk of leakage or explosion.

FEDERAL COMMUNICATION COMMISSION CLASS B INTERFERENCE STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential Installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the Instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular Installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the fallowing measures:

- Reorient or relocate the receiving antenna,
- Increase the separation between the equipment and receiver
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RADIATION EXPOSURE STATEMENT

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

CANADIAN ICES STATEMENTS CANADIAN DEPARTMENT OF COMMUNICATIONS RADIO INTERFERENCE REGULATIONS

This digital apparatus does not exceed the Class B limits for radio-noise emissions from a digital apparatus as set out in the Radio Interference Regulations of the Canadian Department of Communications. This Class B digital apparatus complies with Canadian ICES-003.
