SUB-ZERO ICBI Series Integrated Built in Freezer

INTRODUCTION

This Technical Service Manual has been compiled to provide the most recent service information for ICB Integrated Tall and Column units. This information enables the service technician to troubleshoot and diagnose malfunctions, perform necessary repairs, and return a unit to proper operational condition.

The service technician should read the complete instructions contained in this manual before initiating any repairs.

IMPORTANT SAFETY INFORMATION

Below are Product Safety Labels used in this manual. The "Signal Words" used are WARNING or CAUTION.

When reviewing this manual, please note these differ-ent Product Safety Labels placed at the beginning of certain sections of this manual. You must follow the instructions given in the boxes of the Product Safety Labels in order to avoid personal injury and/or

product damage. The sample Product Safety Labels below illustrate the precautions that should be taken when the signal word is observed.

- STATES A HAZARD THAT MAY CAUSE SERIOUS INJURY OR DEATH IF PRECAUTIONS ARE NOT FOLLOWED.
- Caution Indicates a situation where minor injury or product damage may occur if instructions are not followed.
- In addition, please pay attention to the signal word
  "NOTE", which highlights information that is espe-cially important for the topic being covered.

This manual is designed to be used by Authorized Service Personnel only. Sub-Zero Group, Inc. assumes no responsibility for any repairs made on Sub-Zero refrigeration units by anyone other than Certified Service Technicians.

WARRANTY INFORMATION

ICB Integrated Series carries no factory warranty. The Product Distributor or the Appliance Dealer may offer their own warranty. For this reason the model and serial number may be important information. See Serial Tag Layout diagram below.

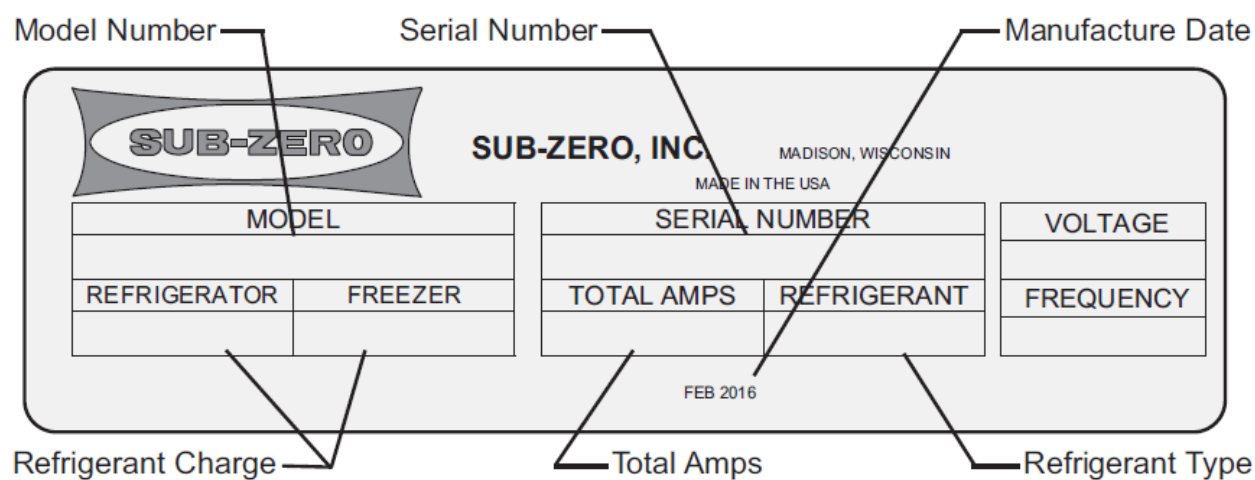

Figure 1-1. Serial Tag Layout

Interactive Control Panel

For initial start up, touch and hold 'power' on the control panel for 2 seconds. Temperature can be adjusted in one-degree increments on the home screen. Combination units have separate temper-ature controls for refrigerator and freezer. Temperatures are preset at 38°F (3°C) and 0°F (-18°C). To change temperature, touch the temperature being adjusted, then press '+' or '-' until desired temperature is displayed. Refer to the illustra-tion below.

Once temperature has been adjusted, additional features can be activated or deactivated from the options screen. Touch ▶ to view the options screen. Refer to the illustration below.

Home screen.

Options screen.

OPTIONS SCREEN

- Touch to activate or deactivate ice maker system and max ice feature.
