- Please check your state and local regulations prior to purchasing. Some jurisdictions may require permits for installation and use. Some special procedures may be valid in your area.
- Install the gazebo on level ground . Stakes are provided to secure the gazebo to the ground.

- Keep children and pets away while setting up the gazebo.
- Check all nuts and bolts periodically to ensure they are tightened.
- Do not light any fires under or near the product!
- Snow must be cleared off regularly during snowy days. Remove the snow at the roof top when it is thicker than 2 inches. In order to avoid damage, use a plastic snow rake to remove excessive snow and ice buildup from roof and removal of fallen debris.
- This gazebo is intended for decorative and sunshade purposes only and is not designed to withstand harsh weather, including high winds, rain, and snow.

- It is recommended that the canopy be removed in the winter and during high winds

## Maintenance

- Steel components for this gazebo are treated with rust inhibiting paint. However, due to the nature of steel, surface oxidation (rusting) will occur if these protective coatings

are scratched. This is not a defect and thus not covered by the warranty.

- To minimize this condition, it is recommended to use care when assembling and handling the product to prevent scratching the paint. Should any scratching or damage occur, it is recommended to cover the scratch immediately with rust inhibiting paint (not included).
- Surface rust can also be easily removed with a very light application of regular cooking oil or WD-40. If surface oxidation (rusting) occurs and if no measure is taken to prevent this, the oxidation may start dripping onto deck or patio and caused damaging stains, which may be difficult to remove. This can be prevented if the above-mentioned measures are taken to keep the product from oxidizing.
- After a period of use, rinse the ash on top of the gazebo using water. Avoid using acid or alkali wash lotion.
- Do not use bleach, acid, or other abrasive cleaners on the roof or frame parts.
- Do not use a pressure washer.
- Keep instruction manual for future reference.
- Keep the original packaging to store the gazebo.
- Periodically check and ensure that all bolts are well-tighten during use.
- If the product will not be used for a long period of time (e.g. winter time), it should be disassembled and stored in a clean, dry environment.
