4. Cautions

1. Please keep it in a dry environment and don't touch the lamp with wet hands.
2. For a longer service life, please do not use the lamp in hot or corrosive surroundings.
3. Please make sure that the voltage is 100-120V, which is standard for US.

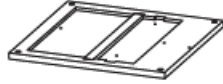

This product can only be used between 100-120V.

4. Unplug before cleaning.
5. Each shelf can take a maximum load of 10 Lb. Please make sure not to put more than 10 Lb on each shelf.
6. If you have any question, please contact us by E-mail.
7. The total power of the 2 AC output ports is 1080W, please do not use electrical appliances that exceed the power.

5. Package List

a Top panel * 1

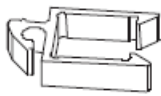

b Drawer panel * 1

c Middle panel * 1

d Bottom panel * 1

e Wire clamp * 6

f Screw 2 * 9
(1 For spare)

g Screw 1 * 9
(1 For spare)

h Lamp shade * 1

i Wooden pole * 12

j Screw 3 * 6
(2 For spare)

k lamp nut * 1 +
l Lamp holder * 1

m USB and outlet box * 1

n Screwdriver * 1

o Hex wrench * 1

p EVA cushion * 1

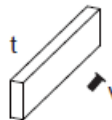

q Top iron frame * 1

r Down iron frame * 1

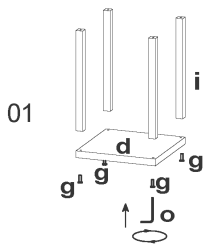

s Bulb * 1

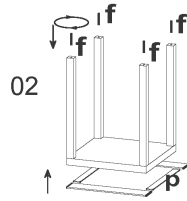

t Dam-board *1+
v Drawer stuck * 1

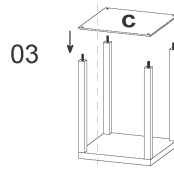

u Drawer * 1

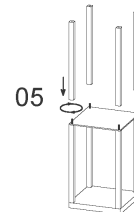

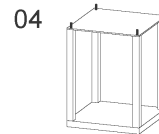

Step 1: Use the hex wrench to fix the bottom panel and the wooden poles(4PCS) firmly with screw 1(4 PCS). Note that the concave side of the bottom panel is facing down.

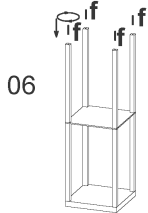

Step 2: Stick the EVA cushion to the bottom of the bottom panel. Rotate screw 2(4PCS) and fix them to the top of the wooden poles.

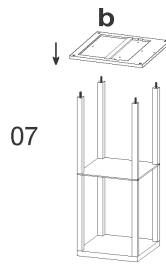

Step 3-4: Put the middle panel on the wooden poles through screws 2.

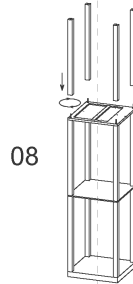

Step 5: Tighten the wooden poles and fix them on the middle panel.

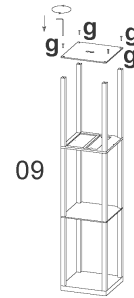

Step 6: Rotate screw 2(4PCS) and fix them to the top of the wooden poles.

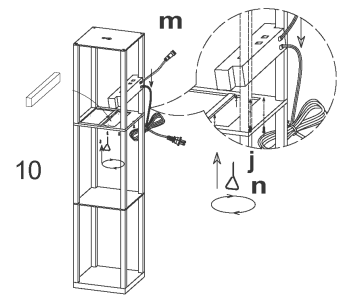

Step 7: Pass the drawer panel through screws 2 and place it on the wooden poles.

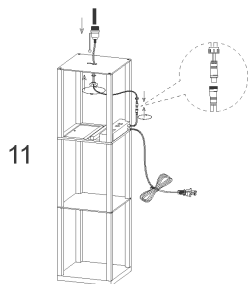

Step 8: Tighten the wooden poles and fix them on the storage panel.

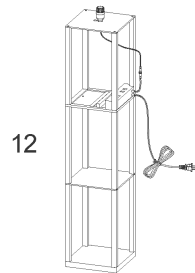

Step 9: Fix the top panel on the poles firmly with the screw 1(4PCS) via hex wrench.

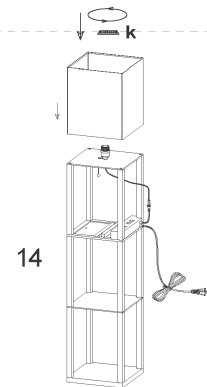

Step 10: Use the screwdriver to fix USB and outlet box and dam-board to the drawer panel with screw 3(7PCS) .

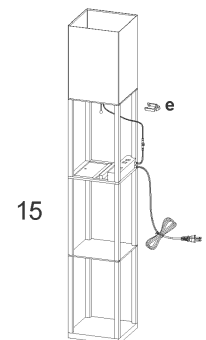

Step 11-12: As shown in the picture, make the end cable of the lamp holder, washer and wing nut pass through the top panel. Fix the lamp holder on the top panel with a wing nut, and then fix the wire with the USB and socket box with the included nut.

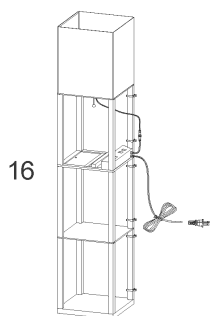

Step 13: Stick the lampshade to the iron frames. Note that the concave side of the iron frame face down.

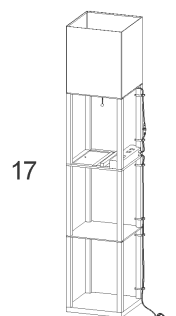

Step 14: Fix the lampshade on the lamp holder with the lamp nut.

Step 15: Clamp the wire clamps on the lamp poles.

Step 16-17: Clip the wire into the wire clamps.

Step 18: Tear off the sticky side of the lampshade and install the bulb. Then install the drawer and drawer stuck.
