Sunricher DMX512 Dual Color Controller

Product Information

Specifications:

• Product Name: Dual Color DMX512 Controller

Model Number: 09.28BDU.04186
Dimensions: 75x120x29.1mm

• Total Zones: 4

Power Supply: 12-24VDCOutput Signal: DMX512

Product Usage Instructions

Function Introduction:

Dual color & brightness slider, click to switch between 100% WW+0% CW and 0% WW+100% CW. Click to turn on/off at 100% brightness. Press and hold down to save color; click to recall the saved setting. Click to switch between dual color control or brightness control.

Total of 4 zones are available. Click to choose a zone; press and hold down to turn on/off the corresponding zone at 0% brightness.

Wiring Diagram:

Refer to the wiring diagram provided in the manual for proper installation.

Installation:

- 1. Connect the DC Input and DMX Output as per the wiring diagram.
- 2. Set the DMX address for controlling different zones as mentioned in the user manual.

Connecting with Dual Color LED Strip:

Follow the wiring instructions to connect the controller with a dual-color LED strip.

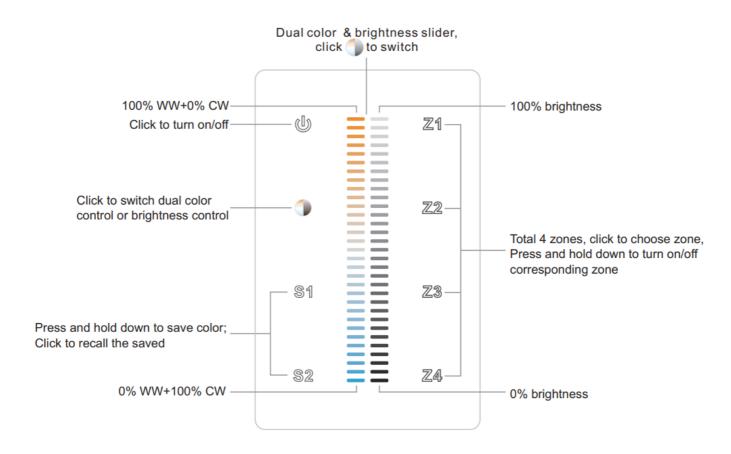

FAQs

• How do I set the DMX address for controlling different zones?

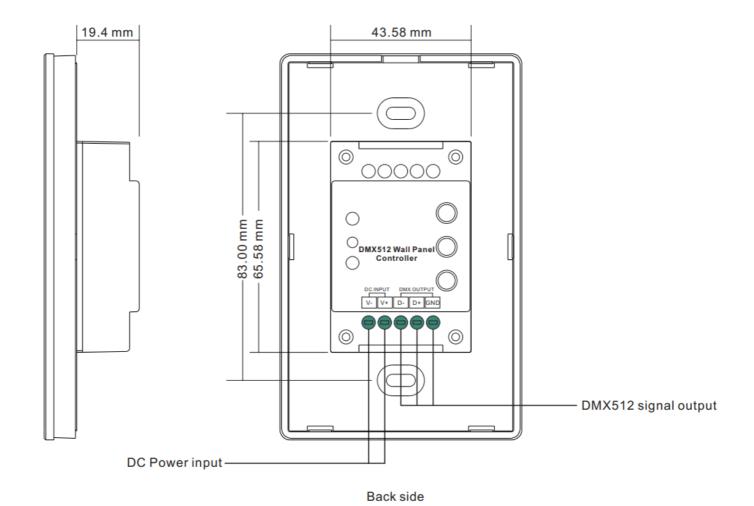

To set the DMX address, follow the instructions provided in the user manual. Assign specific addresses to DMX decoders for each zone – 001 for zone 1, 005 for zone 2, 009 for zone 3, and 013 for zone 4.

Important: Read All Instructions Before Installation.

Function introduction

DIMENSION

Product Data

• Output Signal: DMX512 signal

• Power Supply: 12-24VDC

Power consumption: < 20 mA
Operating temperature: 0-40°C

- Relative humidity: 8% to 80%

• **Dimensions:** 75x120x29.1mm

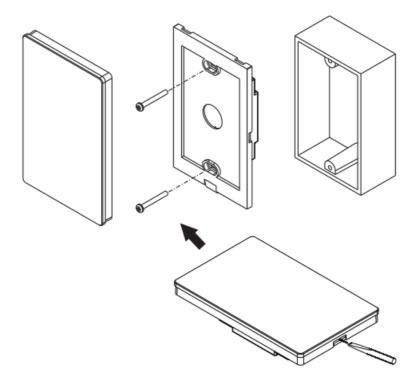

FEATURES

- Touch-sensitive
- Glass interface(white & black)
- Standard DMX512 Signal output
- · Control CCT color
- · Control 4 zones synchronously and separately
- Waterproof grade: IP20

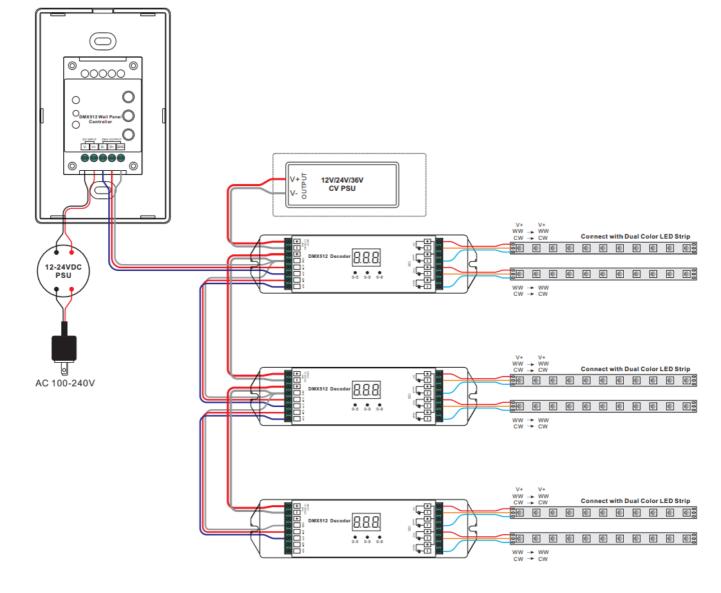

Safety & Warnings

- DO NOT install with power applied to the device.
- DO NOT expose the device to moisture.

Installation

Wiring diagram

Set DMX Address

- This DMX master controller controls 4 zones of DMX decoders by setting DMX decoders' address as follows:
 - DMX decoders with address 001 will be controlled by zone 1,
 - DMX decoders with address 005 will be controlled by zone 2,
 - DMX decoders with address 009 will be controlled by zone 3,
 - DMX decoders with address 013 will be controlled by zone 4.
