Sunrise Connect Pod 1 Smart Wi-Fi Extend

## Product Information

### Specifications:

- **Product Name:** Sunrise Connect Pod 1
- **Model Number:** 21743
- **Version:** Sunrise 1.0

### Description:

The Sunrise Connect Pod 1 is a Smart WiFi extender designed to improve Wi-Fi coverage in your home or office environment. It works seamlessly with the Sunrise Smart Wi-Fi app to provide easy setup and management of your network.

### Features:

- Easy installation with the Sunrise Smart Wi-Fi app
- Enhances Wi-Fi coverage and eliminates dead zones
- Supports multiple devices simultaneously
- Compact and sleek design

## Product Usage Instructions

### Installation:

1. Download and install the Sunrise Smart Wi-Fi app on your mobile device.
2. Plug in the Sunrise Connect Pod 1 in an area where you want to improve Wi-Fi coverage.

3. Follow the app instructions to connect the Pod to your existing Wi-Fi network.

#### Placement Tips:

If you do not notice an improvement in the Wi-Fi coverage within 24 hours, try relocating the Pod to a different location in your home or office. Ensure that it is placed away from obstructions and interference sources for optimal performance.

#### Management:

Use the Sunrise Smart Wi-Fi app to monitor and manage your network settings, connected devices, and performance of the Sunrise Connect Pod 1. You can also troubleshoot any connectivity issues through the app.

#### FAQ:

• **Q: What should I do if I experience connectivity issues with the Sunrise Connect Pod 1?**

A: If you encounter connectivity issues, try restarting the Pod and ensure that it is within range of your main Wi-Fi router. You can also reset the Pod to factory settings through the app and reconfigure it for optimal performance.

• **Q: How many devices can the Sunrise Connect Pod 1 support simultaneously?**

A: The Sunrise Connect Pod 1 is designed to support multiple devices simultaneously, providing extended Wi-Fi coverage for all connected devices in your network.

#### SET-UP

- Open the Sunrise Smart Wi-Fi app. Tap the button  at the top left of the start screen.
- Select the  «Adapt» menu item. Tap the button  «Set Up New Pods».
- Plug the Connect Pod into a wall socket. After connecting the Pod, confirm the installation with «All done».

#### Tip

If you do not notice an improvement in the Wi-Fi coverage within 24 hours, position Pod at a different location.
