SUNTHIN ST-2P-IND Hanging String Light

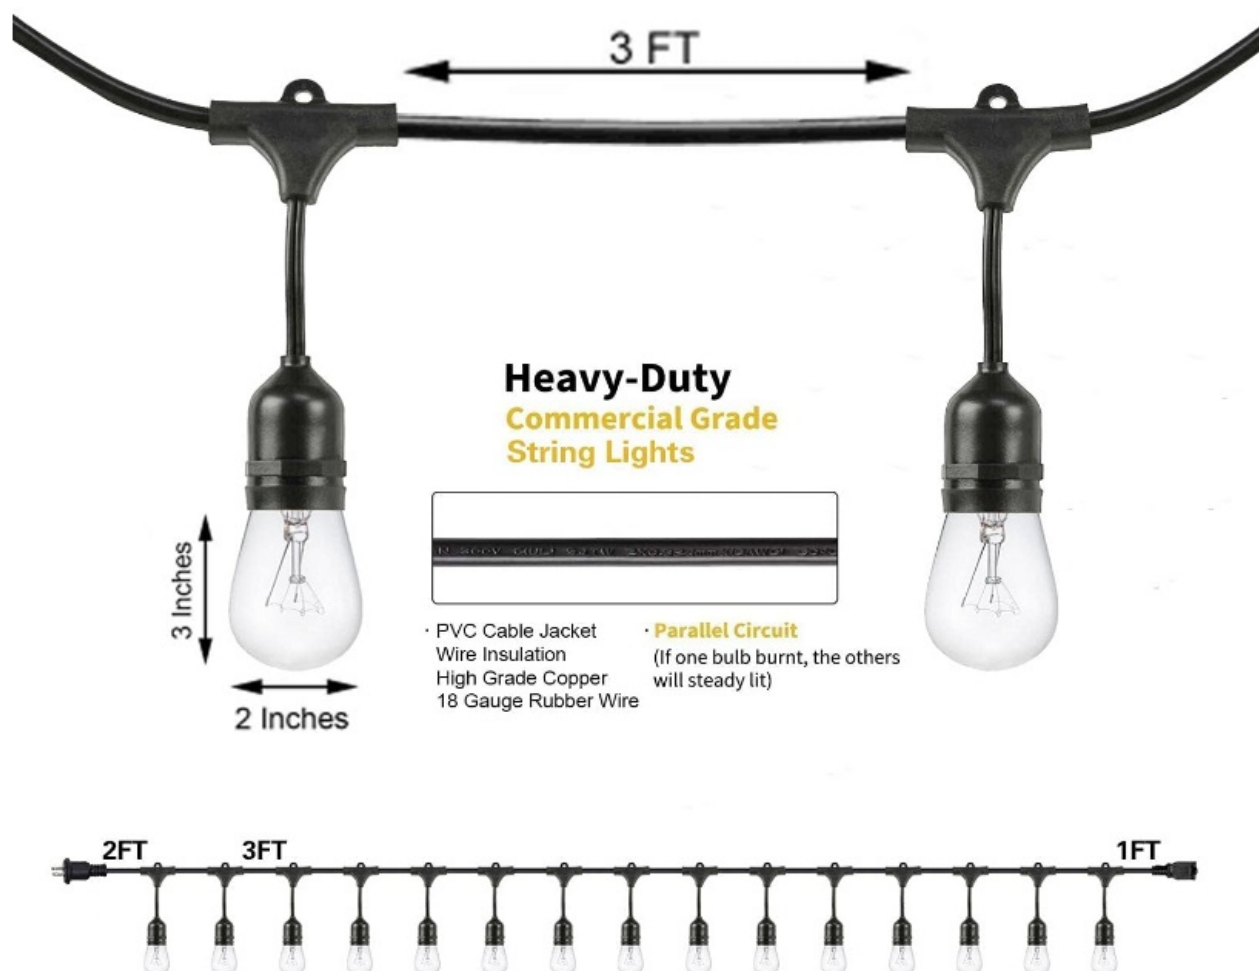

INTRODUCTION

A chic and long-lasting lighting option, the SUNTHIN ST-2P-IND Hanging String Light is made to improve both indoor and outdoor areas. These string lights' 2700K soft white glow creates a cozy and welcoming atmosphere whether you're decorating a patio, lawn, or event venue. These lights, which have an E26 base and 36 LED bulbs in the format of S14 bulbs, provide 330W of brightness, making them ideal for weddings, parties, and informal get-togethers. Because they are app-controlled, the lights may be conveniently operated remotely to change settings as needed. SUNTHIN is the manufacturer of this premium lighting system, which is intended for AC power with a 120V voltage. This set, which has been reasonably priced at \$59.39 since December 7, 2016, comes with a one-year warranty that guarantees dependability and durable performance. For a warm and enchanting ambiance, add SUNTHIN ST-2P-IND Hanging String Lights to your indoor or outdoor décor.

SPECIFICATIONS

Price	\$59.39
Power Source	AC
Color Temperature	2700 Kelvin
Number of Light Sources	36
Voltage	120 Volts
Bulb Shape Size	S14
Wattage	330 watts
Bulb Base	E26
Control Method	App
Manufacturer	SUNTHIN
Item Weight	10.03 pounds
Item Model Number	ST-2P-IND
Warranty	1 Year
Date First Available	December 7, 2016

WHAT'S IN THE BOX

- Hanging String Light
- Manual

FEATURES

- Using S14 incandescent bulbs, this vintage Edison bulb design creates a cozy, nostalgic glow that is ideal for patios, bistros, and outdoor areas.
- **Dimmable functionality:** Allows you to change the brightness with SUNTHIN dimmers, which are offered separately.

- **48FT String Lights:** Each set has 36 bulbs (30 in use, 6 spare) and 30 hanging sockets.
- **Long-lasting outdoor use:** This is Made possible by its IP65 weatherproof and durable design, which can tolerate rain, snow, sun, and extremely high or low temperatures.

- **E26 Base Compatibility:** Any E26 base bulb can be used with this socket, enabling do-it-yourself bulb modification if preferred.
- **Commercial-Grade Construction:** Sturdiness in all weather is guaranteed by heavy-duty rubber-coated wire.
- **Connectable Design:** Connect up to five strands (a maximum of 240 feet) for larger areas.
- **Soft Warm White Glow:** A warm, inviting atmosphere is created by the 2700K color temperature.
- **High Power Efficiency:** A bright but energy-efficient configuration is guaranteed by the 330W total wattage of all the lamps.
- **App-Controlled Dimmer:** An optional 350W smart dimmer that allows for app-based brightness control.
- **Pre-installed Hanging Loops:** For a simple and safe installation, every socket comes with a hanging loop.
- **Drain Hole Design:** A unique tail plug drain hole improves safety by preventing water buildup.
- **Both Indoor and Outdoor Use:** Perfect for patios, bistros, gardens, weddings, cafés, and event décor.
- **Reliable Power Source:** Works with ordinary household outlets at 120V AC.

SETUP GUIDE

- **Unpack and Examine:** Verify all parts, such as power cords, sockets, and lightbulbs.
- **Select the Installation Area:** Choose a spot, such as a garden, patio, pergola, or fence.
- **Measure and Plan:** Calculate the number of strands you will require and mark out the locations where they will hang.
- **Ensure Proper Power Source:** Make sure there is a 120V AC outlet close by.
- **Secure Mounting Points:** Attach wire guides, hooks, or nails along the intended path.

- **First Strand Attachment:** Fasten the first hanging loop to the mounting location.
- **Connect Extra Strands:** For greater coverage, plug in up to five strands.
- **Ensure Waterproof Protection:** To keep water out, place the tail plug downward.
- **Screw in the Bulbs:** Make sure to hand-tighten the E26 S14 bulbs as you carefully insert them.
- **Test the Lights:** Plug them in and check for any loose parts or broken bulbs.
- **Use a Dimmer:** Connect and check the dimming features if you're using a 240W or 350W dimmer.
- **Modify Hanging Heights:** Make sure the bulbs are at the appropriate height and uniformly spaced.
- **Secure Loose Cables:** To keep cables tidy and avoid tangling, use cable clips or zip ties.
- **Final Check:** Verify that all of the bulbs are operational and that no plugs are left exposed to rain.
- **Enjoy the Ambiance:** Sit back and enjoy your beautifully lit outdoor space!

CARE & MAINTENANCE

- **Clean the bulbs regularly:** Keep them bright by removing dust and debris.
- **Look for Loose Bulbs:** To avoid flickering, make sure all of the bulbs are put in firmly.
- **Check for Damaged Wiring:** Replace any exposed or frayed wires as necessary.
- **Protect Power Plugs:** Keep them within a weatherproof outlet box or covered.

- **Avoid Overloading Circuits:** To prevent electrical risks, keep the number of connected strands to no more than five.
- **Secure Loose Strands:** If the lights sag or move due to wind, use extra hooks or ties.

- **Use an Outdoor Dimmer:** Ensure the dimmer is wattage-appropriate and rated for outdoor use.
- **Store Properly During Off-Season:** When not in use, coil the string correctly and keep it somewhere dry.
- **Ensure Proper Drainage:** Place the tail plug downward to permit water drainage.
- **Replace Burned-Out Bulbs Promptly:** Avoid mismatched lighting by using E26-compatible light bulbs.
- **Avoid Excessive Force When Hanging:** Don't pull or stretch wires too much.
- **Verify Connections Before Events:** Before celebrations, weddings, or parties, check the lights.
- **Unplug During Severe Weather:** Although IP65 protected, unplug during hurricanes or strong storms.
- **Monitor for Overheating:** If bulbs become too hot, consider replacing them with LEDs.
- **Ensure Adequate Airflow Around Bulbs:** Prevent heat buildup by keeping bulbs out of enclosed spaces.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Lights not turning on	Power source issue	Ensure AC power is properly connected
Some bulbs not lighting up	Loose or faulty bulbs	Check and tighten bulbs or replace defective ones
Flickering lights	Voltage fluctuations	Use a voltage stabilizer or check electrical connections
App not controlling lights	Bluetooth/WiFi connectivity issue	Ensure phone is connected and within range
Lights too dim	Dirt on bulbs or wiring issue	Clean bulbs and check wiring for damage
Overheating	Overloading of circuit	Use proper voltage and avoid overloading
Short lifespan of bulbs	Using incompatible replacements	Only use recommended S14 E26 bulbs
Lights turn off unexpectedly	Auto shut-off settings enabled	Check app settings and adjust auto-off timer
String lights not hanging securely	Weak or improper installation	Secure the lights with strong hooks or clips
Buzzing noise from bulbs	Electrical interference	Ensure power supply is stable and properly grounded

PROS & CONS

Pros	Cons
Warm and inviting 2700K light	Not battery-powered (Requires AC power)
36 durable LED bulbs for long-lasting performance	Higher wattage consumption (330W)
App-controlled for easy customization	Bulbs are not dimmable
Weather-resistant for outdoor use	No color-changing feature
Easy installation with E26 base	Replacement bulbs may be hard to find

WARRANTY

The SUNTHIN ST-2P-IND Hanging String Light comes with a **1-year warranty** from the manufacturer. This warranty covers defects in materials and workmanship under normal use. If any issues arise within the warranty period, customers can contact SUNTHIN customer support for repair or replacement.

FREQUENTLY ASKED QUESTIONS

Why are some bulbs on my SUNTHIN ST-2P-IND Hanging String Light not lighting up?

Check for loose or faulty bulbs. Ensure all bulbs are securely screwed in and replace any that are burnt out.

Why is my SUNTHIN ST-2P-IND Hanging String Light flickering?

This could be due to a voltage fluctuation or a loose connection. Verify that the power supply is stable and that all connections are secure.

Why is my SUNTHIN ST-2P-IND Hanging String Light not responding to the app control?

Ensure the app is properly installed and connected. Also, check if Bluetooth or Wi-Fi connectivity is enabled on your device.

Why does my SUNTHIN ST-2P-IND Hanging String Light overheat?

Overheating may be caused by using non-compatible bulbs or an overloaded power circuit. Ensure you are using the correct wattage and voltage.

What should I do if my SUNTHIN ST-2P-IND Hanging String Light doesn't turn on?

Check the power source, ensure the plug is fully inserted, and inspect the circuit breaker for any tripped switches.

What is the price of the SUNTHIN ST-2P-IND Hanging String Light?

The SUNTHIN ST-2P-IND Hanging String Light is priced at \$59.39.

How many light sources does the SUNTHIN ST-2P-IND Hanging String Light have?

This model includes 36 light sources for bright and even illumination.

What power source does the SUNTHIN ST-2P-IND Hanging String Light use?

It operates on AC power with a voltage of 120V.
