Tutorials

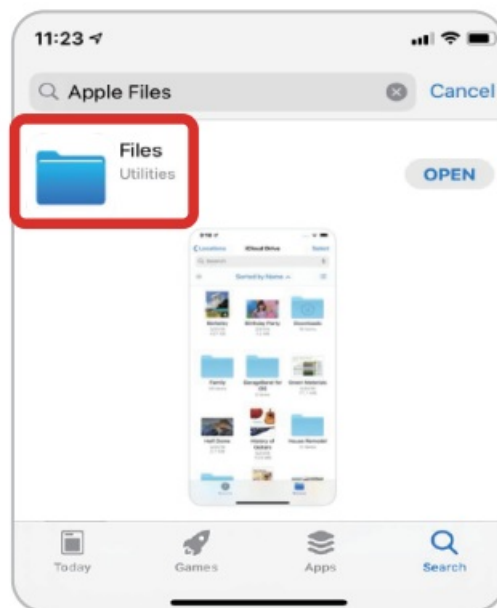

Find the “Files” app on your iPhone/iPad, the icon of it looks like below.

step 1

If not, please go the "App Store" to find and download the correct "Files" app. Please make sure you got the correct "Files" app by Apple.

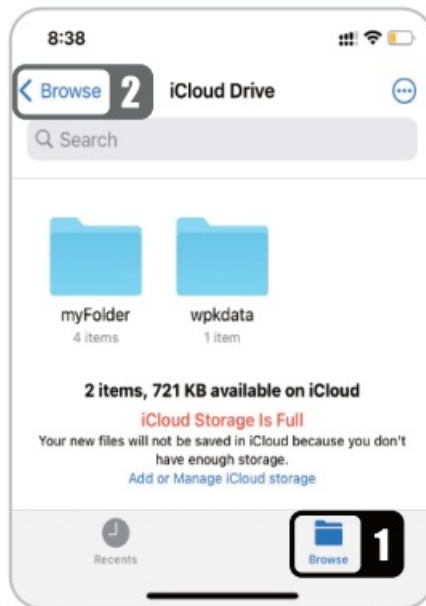

step 2

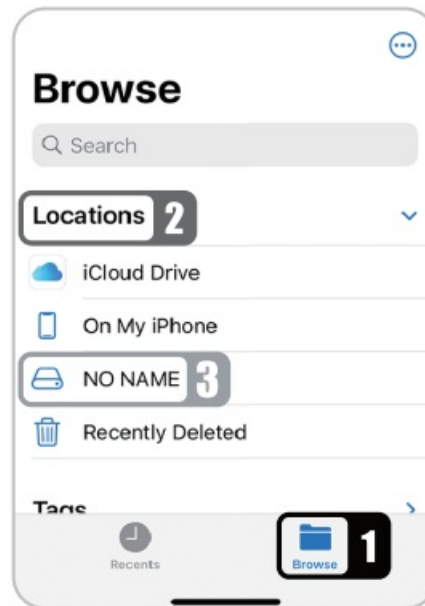

Transfer Photos from SD card to iPhone/iPad

1. Go to "Browse Locations", and then find the section of the SD card folder.

step 3

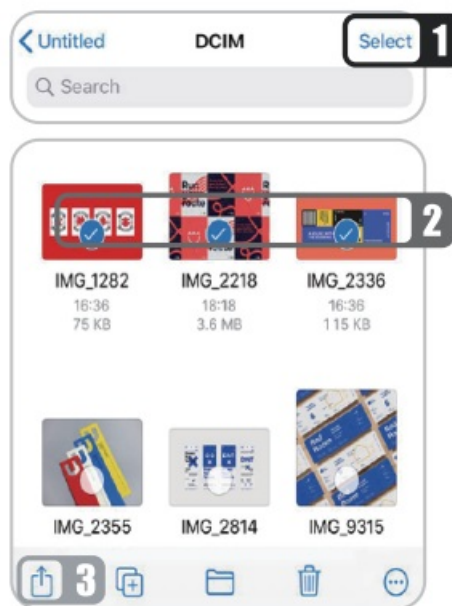

step 4

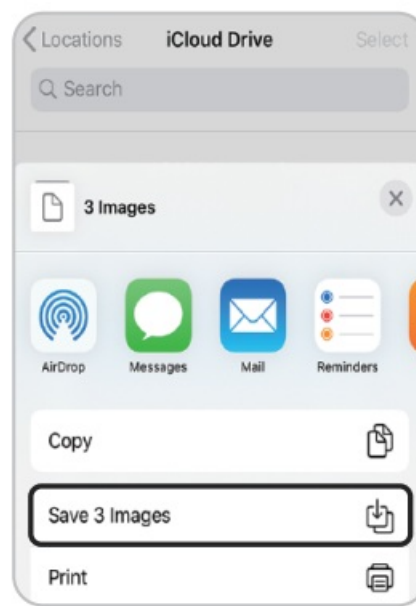

2. Start to view or transfer data between SD card and your iPhone/iPad.

step 5

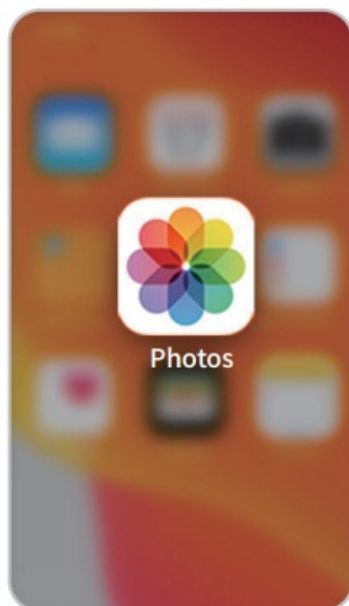

step 6

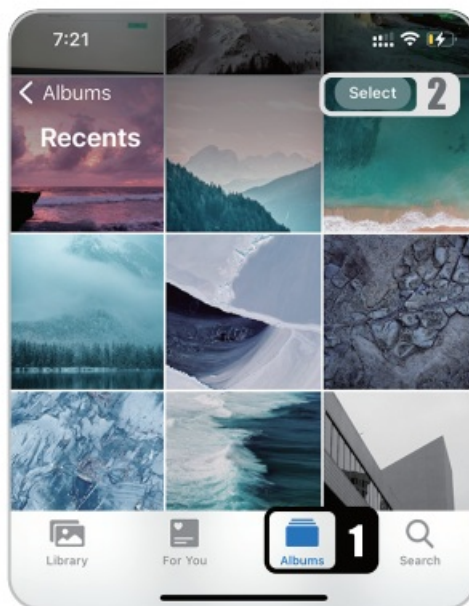

Transfer Photos from iPhone/iPad to SD card

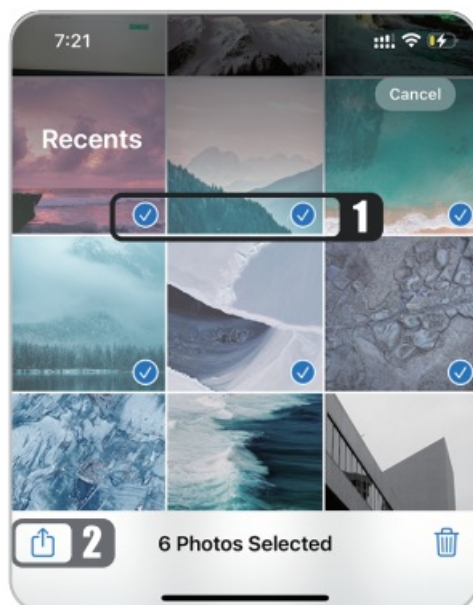

step 1

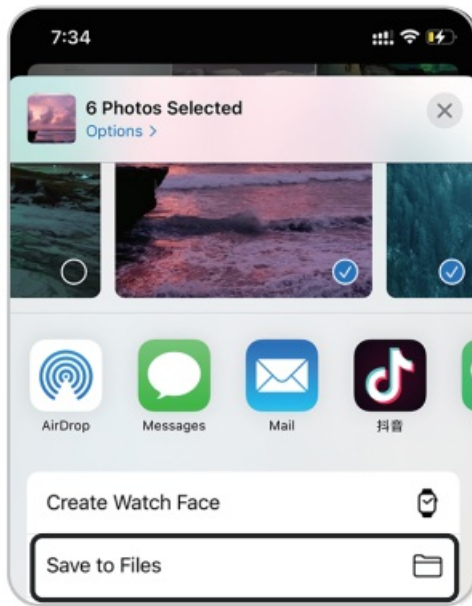

step 2

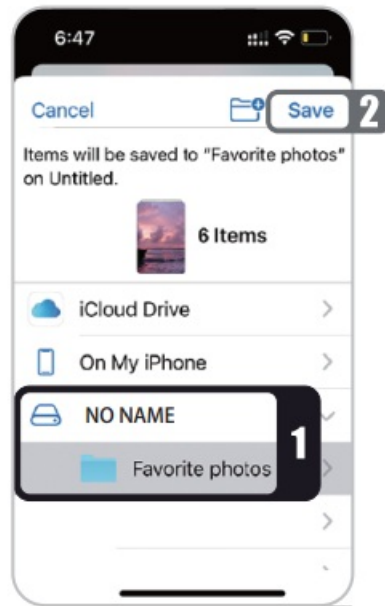

step 3

step 4

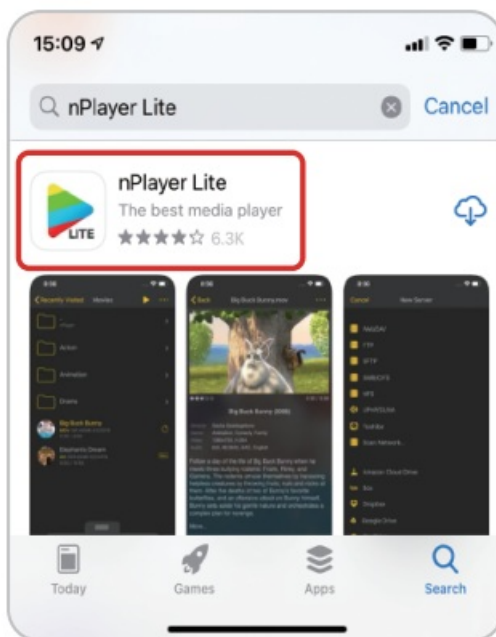

step 5

Once the video won't play, please download nPlayer Lite media player on your iPhone/iPad. And reopen the "Files" app, share the video to the nPlayer Lite app for playback.

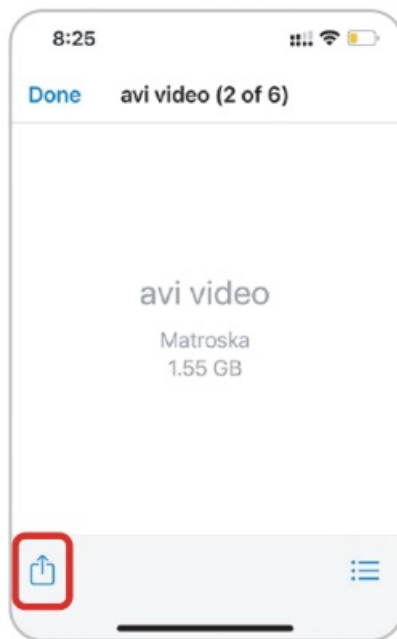

step 1

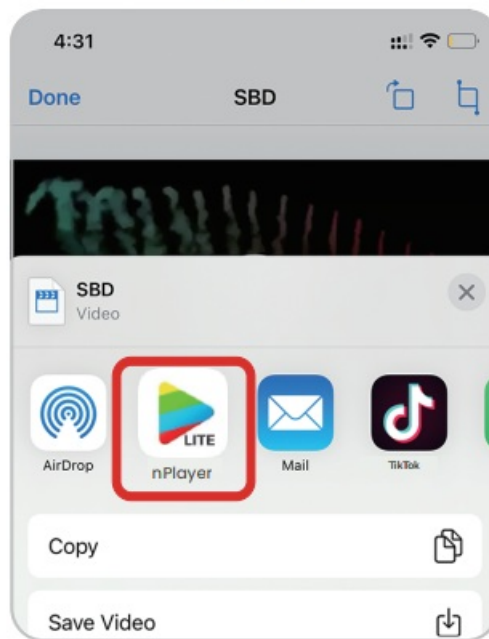

step 2

step 3

step 4

Warm Tips:

1. If there is no response when connecting to iPhone/iPad for the first time, it is recommended to restart iPhone/iPad and try.
2. If your iPhone/iPad does not respond or cannot recognize data after inserting the SD card, please try to format this SD card into ExFat, Fat32.
Please make sure to back up SD card data in advance for sake of data loss during formatting process.
