SUPERBCCO

Superbcco MK610 Typewriter Style Wireless Keyboard and Mouse

Thank you for purchasing Superbcco Typewriter Style Keyboard and Mouse. Each unit has been manufactured to ensure safety and reliability with life-time warranty. Before using for the first time, please read the instructions carefully and keep them for further reference.

PACKAGE CONTENTS

- 1 * Wireless Keyboard and Mouse
- 1 * USB Receiver (stored inside the mouse; withdraw the black unit inserted under the on/off button)
- 1 * User Manual
- 1 * AAA-Type Battery for the Mouse (included)
- 1 * AA-Type Battery for the Keyboard (included)

Note: MacBook, iPad, iPhone, Android Phone, Tablet, etc. Please use a USB dongle/OTG to make it work.

SETTING UP YOUR WIRELESS KEYBOARD AND MOUSE

1. Install one AA battery in your keyboard and one AAA battery in your mouse (Note: batteries+/-ends should follow those indicated on the battery compartment label).

2. Connect the 2.4 GHz USB receiver to the computer (Please note that this combo only needs one USB receiver for both keyboard and mouse; and the USB receiver is inserted in the back of the mouse below the on/off power icon and please pull it out of the mouse). Warning: plug the USB receiver into USB 2.0 port (usually the black one) not USB 3.0 the blue one; this is due to USB 3.0 radio frequency interfere with 2.4GHz wireless device, and not properly plug-in may lead to mouse lagging or freezing problems. Sometimes the black one can also be USB 3.0.

3. Turn on your keyboard and mouse. Power on/off placed on the back of the mouse; the Battery icon indicator on keyboard doesn't turn on when connecting to computer, and the keyboard and mouse have already been successfully paired before delivery; the light on keyboard "A" turns on when you press CAPS LOCK).

FUNCTION KEYS

- When  is locked, press to activate F1~F12 functions keys;
- Hold down FN+  to unlock FN key and press the desired function key.

Key Icon	Windows	Key Icon	Windows
Esc	Home		Decrease Brightness
	Mute		Increase Brightness

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
