- **Input Device Type:** Mouse

Product Information

Congratulations on purchasing the SVEN mouse! The RX-550SW is an input device designed for entering information into the computer and operating it. It offers the flexibility to switch between 2.4GHz and Bluetooth connectivity modes.
For technical support, visit **www.sven.fi**.

Product Usage Instructions

Switching Between Modes:
To switch between 2.4GHz and Bluetooth modes:

1. Ensure the mouse is disconnected from your PC.

2. Toggle the switch to select the desired mode (2.4GHz or Bluetooth).

3. Reconnect the mouse to your PC.

Troubleshooting

If you encounter issues with the mouse not working:

- Disconnect the mouse from your PC and check the connector pins for damage.
- If no external damage is found, reconnect the mouse to your PC.
- If the problem persists, contact your nearest authorized service center.

Congratulations on purchasing the SVEN mouse!

Please read this User Manual before using the unit and retain this User Manual in a safe place for future reference.

SAFETY PRECAUSIONS

Protect your mouse from high humidity, dust or high temperatures.

SWITCH BETWEEN MODES 2.4GHZ AND BLUETOOTH
The mouse has 3 connection modes: 2,4 GHz and 2 Bluetooth channels. For using 2,4 GHz mode make the following:

- Move the switch to |"ON" position.
- Press mode button on the mouse bottom until green light will blink slowly.
- Insert the dongle into a PC USB port. The mouse will connect to your PC in several seconds. For using Bluetooth mode, make the following:
- Press mode button on the mouse bottom until blue light will blink slowly.
- Press and hold mode button until blue light will blink fast. It mean Bluetooth pairing mode was activated.
- Choose on your PC "Bluetooth devices".
- Click "Add or delete Bluetooth devices".
- As soon as PC will detect new device, click "Pairing (add new device)", mouse is ready to work.
- For switching to another Bluetooth channel repeat above actions.

TROUBLESHOOTING

Problem	Solution
The mouse is not working.	1. Disconnect the mouse from your PC and check the connector pins for possible damage. If there is no external damage found and the connector pins are OK, connect the mouse to your PC again. 2. Address your nearest authorized service center.

If none of the above mentioned solutions removes the problem, please consult the nearest authorized service center. Never try to repair the device on your own.
