Frequently Asked Questions

Q: Why does the screen flicker?

A: The flickering is a normal part of the screen refresh process in E Ink technology to maintain display clarity and prevent ghosting.

Q: Why do I still see letters from the previous page?

A: This phenomenon, called ghosting, is common in E Ink screens. The device automatically refreshes the screen to reduce this effect.

Q: How do I keep the speed optimal?

A: Ensure your device is updated and properly maintained for optimal performance.
