**Swiitech TR-01 Bluetooth Transmitter Receiver**

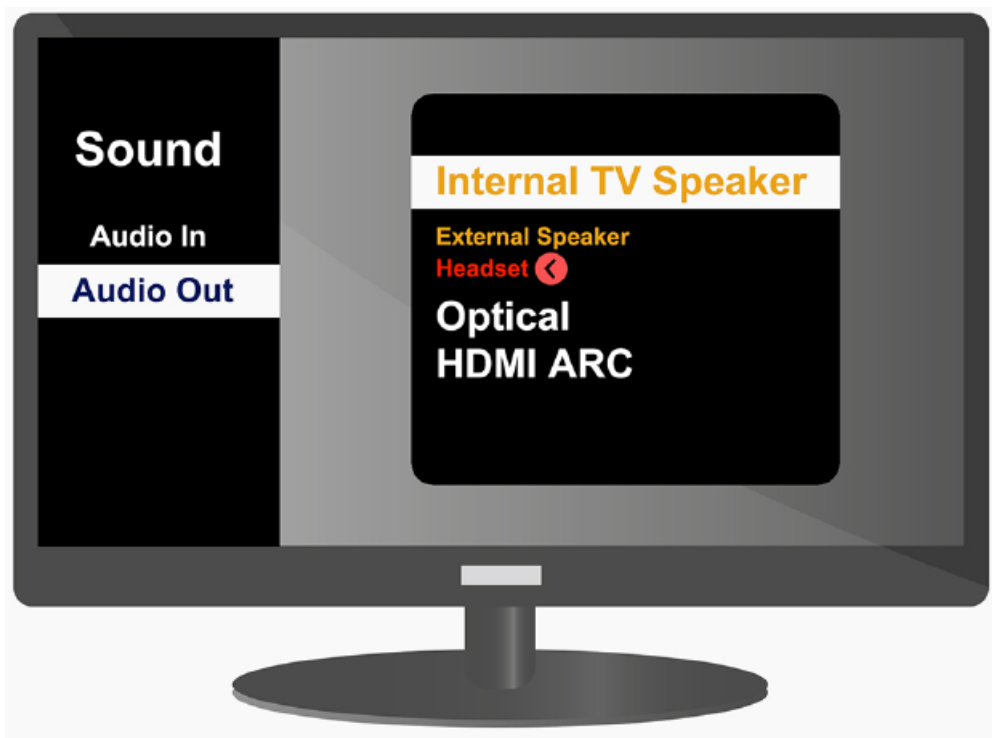

### Types 1—3.5mm Audio cable

**Step 1:** Using the 3.5mm audio cable we provided to connect your TV to the adapter(In TX mode). Long press the power button of the adapter(In TX mode), then turn on the Bluetooth headset and put it together. After the pairing is successful, you should be able to hear your TV through the headset.

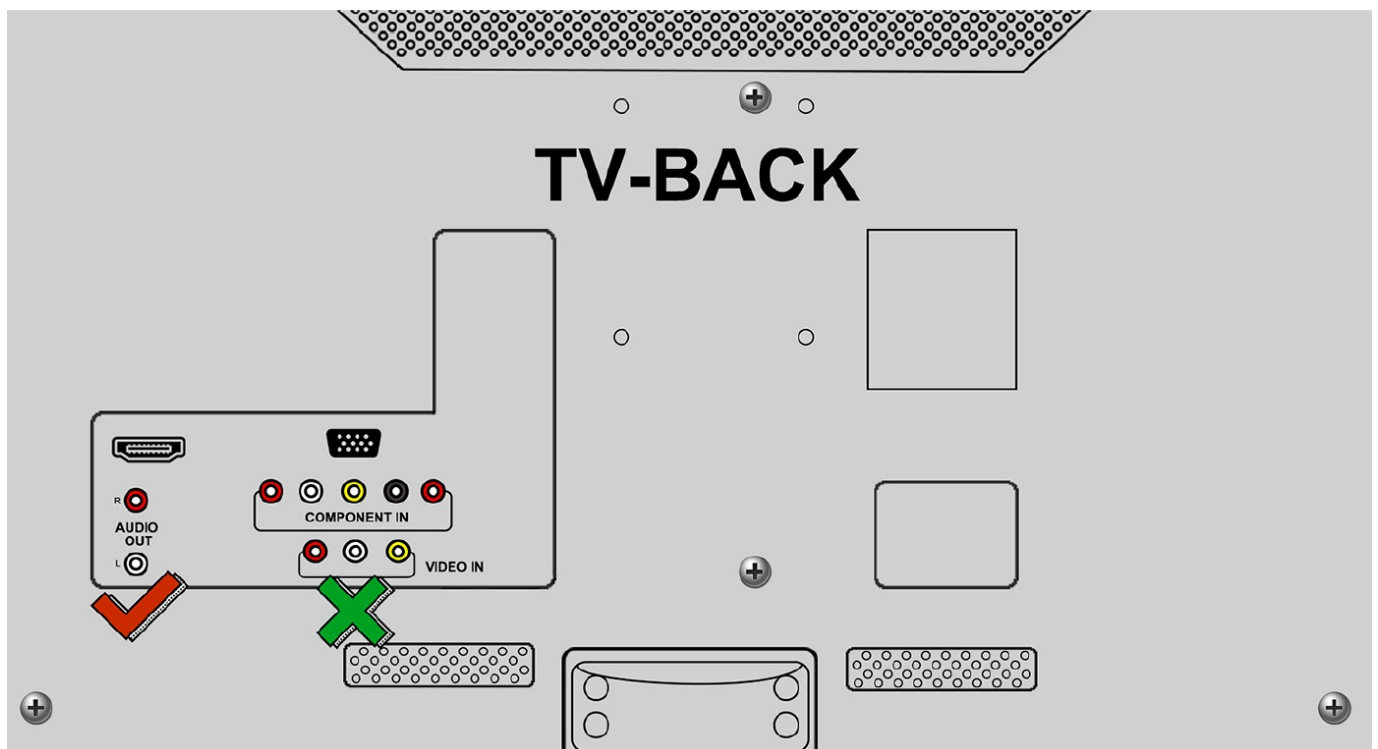

**Step 2:** If not, check your TV settings to make sure that the TV speaker has been set to headset.

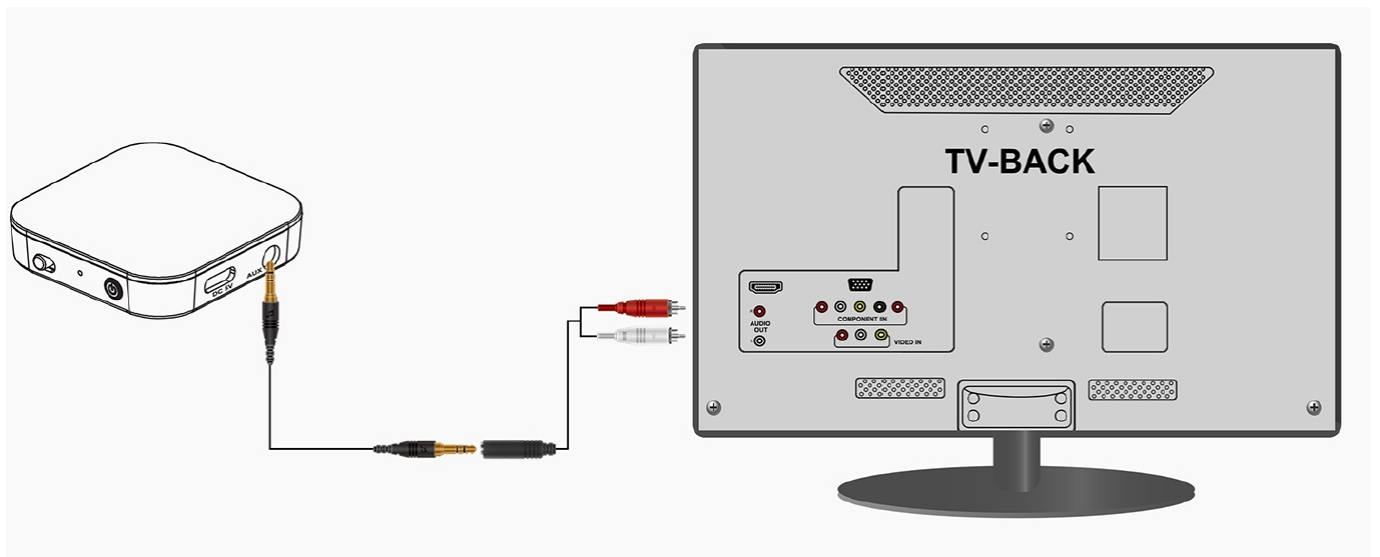

## Types 2—RCA cable

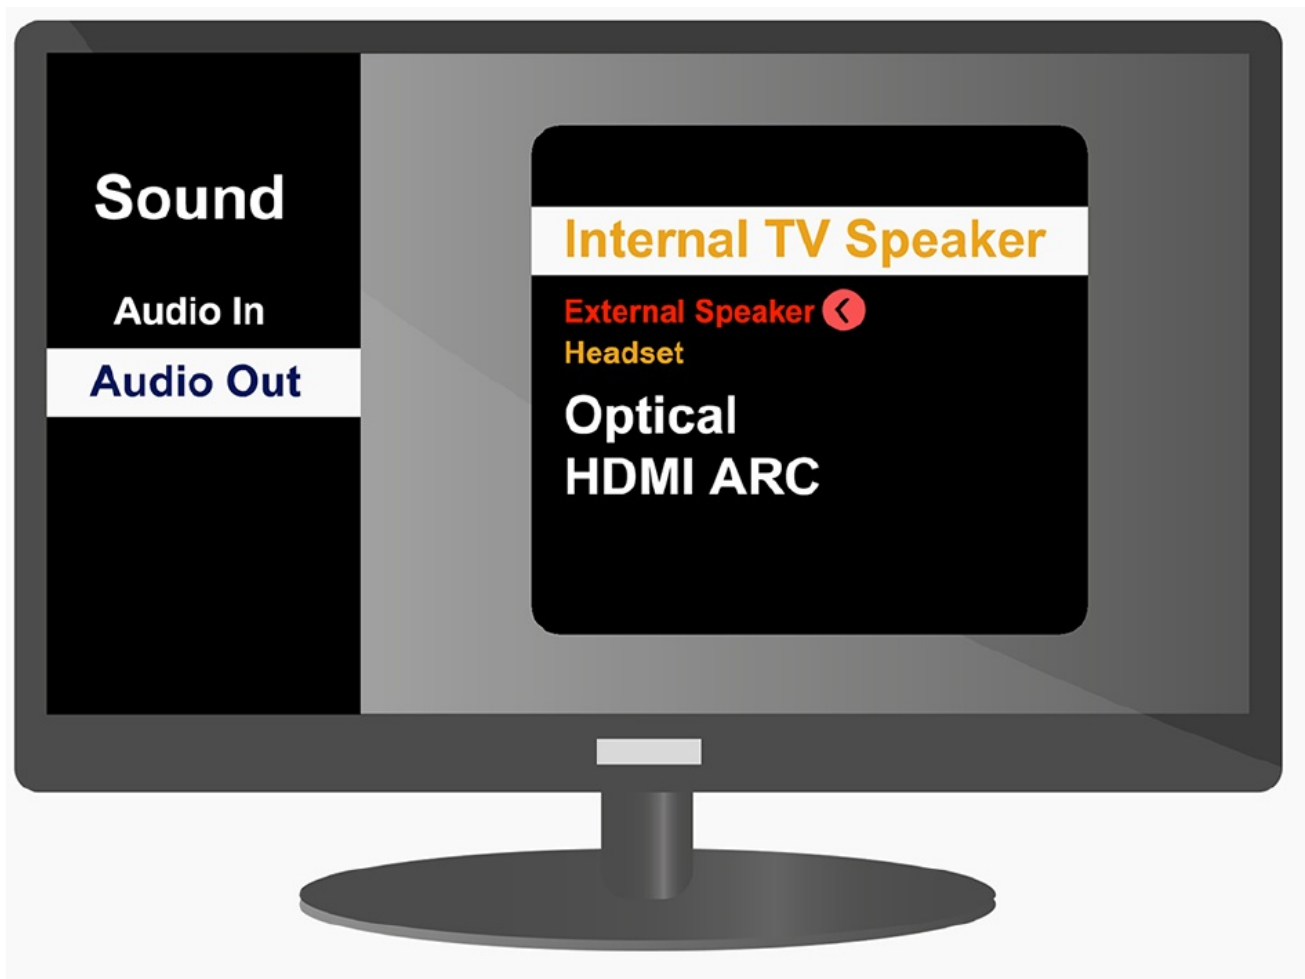

**Step 1:** For RCA this option, Please Only Use the ports labeled audio out. The other ones will not work to get going.

**Step 2:** Use the 3.5 mm audio cable connect the RCA aux converter cable that we provided, and then connect your TV to the adapter (In TX mode), then turn on the Bluetooth headset and put it together. After the pairing is successful, you should be able to hear your TV through the headset.

**Step 3:** If not, check your TV settings to make sure your TV speaker is set to external speaker.
