Switchmate Snap-On Instant Smart Light Switch Manual
Installation

1
Install two AA batteries into back
of Switchmate.
2
Snap Switchmate onto your existing
light switch with the light switch and the
Switchmate in the "up/TOP " position.
It attaches instantly with the imbedded
magnets, no tools or wiring required.

3

Download the Switchmate App
from the Google Play or Apple App
Store onto your phone.

4

Launch the App and follow the few
simple steps to connect and activate
your Switchmate in seconds.
(a) Tap the "Start" button.
(b) Tap the "Walk me through
the install" icon and simply
follow the simple steps to
activate your Switchmate.

5

Test Switchmate both manually at
the light switch and using the App.

*Due to variations in the effective range of
Bluetooth technology, there may be a 2-4
seconds response time from the wall switch.
*note that a small percentage of rocker
switches require the utilization of an adaptor
to activate correctly. Simply attach the

adaptor included as shown in this graphic
below and snap Switchmate back onto the
switch. If that is still not working properly,
be sure that the screws that hold your light
switch plate to the wall are fully tightened.
Hello
Thank you fir purchasing Switchmate.
We are excited to bring of mind into your home.

Timer
Schedule when you want your lights to
turn on or off and have this on repeat.
