Synology BDS70-1T BeeDrive Personal Backup Hub

Your personal data keeper

BeeDrive is a data backup hub that simplifies backup of your important files and photos from your computer and smartphone. It also provides easy file sync when plugged in and enables easy wireless transfer of files from mobile devices to computers

PC & mobile backup
Set it up once and forget it

File sync
Syncs files when plugged in

Fast transfer speeds
USB 3.2 Gen 2 (Type C) with SSD inside

BeeDrop
Transfer files from mobile device to PC over Wi-Fi

Drop resistance
Up to 2-meter drop protection[1]

3-year warranty
Backed by a 3-year limited warranty

BeeDrive for Desktop

Computer backup

Take advantage of the ultra-fast transfer speeds of BeeDrive and avoid the privacy concerns of storing files on public clouds. Computer backup can automate the backup of selected folders — after initial setup, BeeDrive will automatically perform file backup when plugged in.

- Folders can be backed up automatically in real-time
- Retain up to 5 versions of each file. Roll back to a previous version if an accident happens
- Deleted files from your computer are stored in BeeDrive's "Archived files" folder for easy recovery

File sync

Ideal for hybrid workers, the file syncing features automatically sync the latest changes between computers, so you can maintain a consistent workflow no matter where you are.

- Folders can automatically be kept in sync whenever BeeDrive is plugged into your computer
- Retain up to 5 versions of each file. Roll back to a previous version if an accident happens
- Customize your syncing preferences, including the option for one-way or two-way syncing

BeeDrive for Mobile

Photo backup

Store all of your photos and free up phone storage without the worry of escalating cloud storage fees. After initial setup, whenever BeeDrive is connected to your computer, BeeDrive will back up your photos over Wi-Fi.

- Back up photos from up to 5 mobile devices easily using the BeeDrive mobile app

- For best results, use Focused Backup to keep the app in the foreground
- Option to back up HEIF or HEVC media in JPEG to ensure compatibility on non-Apple devices

BeeDrop

BeeDrop is perfect for users who need a seamless way to transfer files and photos from their smartphones to their computers. With BeeDrop, there's no need to connect a cable – simply send your files from your mobile phone, and they'll be instantly available on your computer for use.

- Easily transfer your photos, videos, and files from your phone to BeeDrive without any cables
- Quickly share pictures of physical work-related materials on hand with coworkers via email or messaging apps using the "Camera" feature
- As soon as you transfer your photos and files to BeeDrive, they'll be instantly accessible from the File Explorer on your computer

Hardware Overview

| 1 | USB 3.2 Gen 2 (Type C) | 2 | LED indicator | 3 | USB-C to C cable | 4 | USB-C to A adapter |

Technical Specifications

General Specifications

Hardware

- Capacity
    - 1 TB
    - 2 TB
- Dimensions (H x W x D) 65mm x 65mm x 15mm
- Weight 43g
- Interface USB 3.2 Gen 2 (10Gbps)
- Performance
- Speed Up to 1050MB/s2
- Temperature

- Operating temperature 0°C to 45°C
- Storage Temperature -40°C to 85°C

Software requirements

- BeeDrive for desktop
    - Windows 10 (1809 or later)
    - Windows 11
    - macOS (coming soon)
- BeeDrive mobile app
    - iOS 15 or later
    - Android 10 or later

Environment and Packaging

- Certification FCC, CE, BSMI, VCCI, RCM, KC, UKCA, BIS
- Environmental safety RoHS
- Package contents
    - BeeDrive main unit x1
    - USB-C to C cable x1
    - USB-C to A adapter x1
    - Quick start guide x1
- Warranty 3 years
