t c electronic TC2290 NATIVE /TC2290-DT

Software Download and Installation

The combined TC2290 plug-in installer for both the NATIVE and DT Desktop Controller products can be downloaded from the following page:
www.tcelectronic.com/TC2290-dt/support/

The TC2290 plug-in requires either an active PACE iLok license (when buying the NATIVE version) or a connected Desktop Controller (when you have purchased the
DT version). All parameters are available in the plug-in.
Save the installer file (.pkg or .msi file) in a convenient location on your hard drive. Double click the installer and follow the instructions to install the plug-in.

Activate your TC2290 iLok license

(when you have purchased the NATIVE version)

Step 1: Install iLok
The first step is to create an iLok user account at **www.iLok.com** and install the PACE iLok License Manager on your computer if it's your first time using iLok.

Step 2: Activation
In the received mail (when buying the NATIVE version) you will find your personal Activation Code. To activate your software, please use the Redeem an Activation Code feature in the PACE iLok License Manager.

Get a Free Demo License
Make use of this hassle-free offer to try out our plug-ins before you buy.

- 14-Day Trial Period
- Fully Functional
- No Feature Limitations
- No Physical iLok Key Needed

Step 1: Install iLok
The first step is to create a free iLok user account at **www.iLok.com** and install the PACE iLok License Manager on your computer if it's your first time using iLok.

Step 2: Get your free license
Go to **http://www.tcelectronic.com/brand/tcelectronic/free-trial-TC2290-native** and enter your iLok User ID.
Step 3: Activation
Activate your software in the PACE iLok License Manager.

Connecting the TC2290-DT Desktop Controller

(when you have purchased the DT Desktop Controller version)

Getting the Desktop Controller up and running couldn't get any easier. Plug the included USB cable into the unit's rear micro-USB port, and connect the other end to a free USB port on your computer. The Desktop Controller is

bus powered so no other power cables are necessary, and no additional drivers need to be manually installed.

TC2290-DT

Laptop

The Desktop Controller will light up upon successful connection. You can now apply the plug-in to a channel in your DAW to begin using the effect. This process may vary slightly depending on your software, but generally should require these steps:

- Select a channel or bus in your DAW to which you would like to add the effect Access the mixer page where you should see a section dedicated to effect slots
- Open the menu where you can select from a list of effect types, which probably includes many stock plugins that are included with the DAW. There should be sub-menu to view general VST/AU/AAX options.
- The plug-in will likely be found in a dedicated TC Electronic folder. Select the TC2290 and it will now be added to the signal chain.
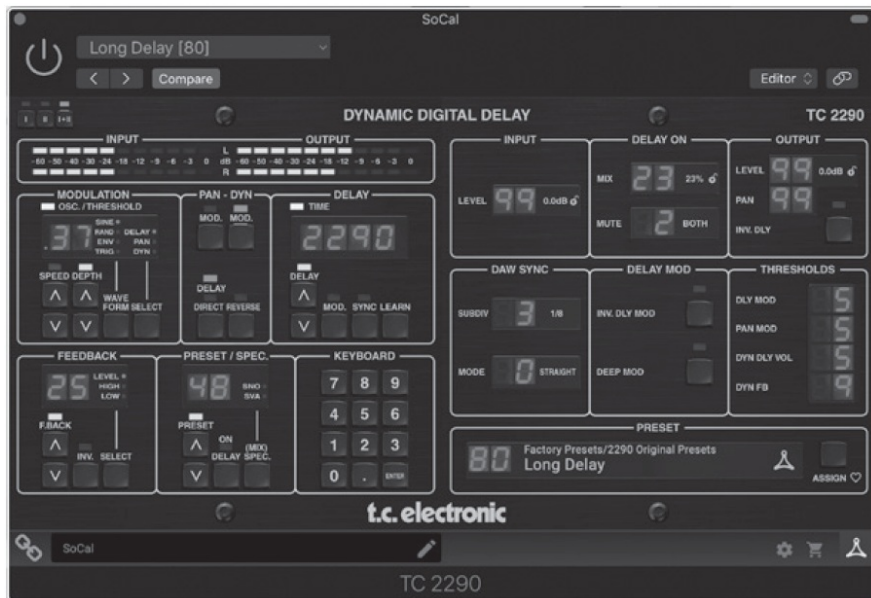

Double click on the effect slot that contains the TC2290 to view the plug-in UI. There should be a green link icon at the bottom, and text that indicates successful connection between the plug-in and the Desktop Controller.

Note: The iLok License Manager needs to be installed on your computer also if you have purchased the DT Desktop Controller version. In this case you don't need to create an iLok account or activate any license.

Operating the TC2290

After you have installed the plug-in, and either activated the iLok license or connected the TC2290-DT Desktop Controller via USB, you can begin inserting the plug-in to
your tracks.
Adjustments to the effect are done in two ways. Either by using the plug-in user interface or via the physical Desktop Controller.

Other Important Information

1. **Register online. Please register your new**

   Music Tribe equipment right after you purchase it by visiting **tcelectronic.com**. Registering your purchase using our simple online form helps us to process your repair claims more quickly and efficiently. Also, read the terms and conditions of our warranty, if applicable.

2. **Malfunction**

   Should your Music Tribe Authorized Reseller not be located in your vicinity, you may contact the Music Tribe Authorized Fulfiller for your country listed under "Support" at **tcelectronic.com**. Should your country not be listed, please check if your problem can be dealt with by our "Online Support" which may also be found under "Support" at **tcelectronic.com**. Alternatively, please submit an online warranty claim at **tcelectronic.com** BEFORE returning the product.

3. **Power Connections**

   Before plugging the unit into a power socket, please make sure you are using the correct mains voltage for your particular model. Faulty fuses must be replaced with fuses of the same type and rating without exception.

Responsible Party Name: Music Tribe Commercial NV Inc.
Address: 901 Grier Drive Las Vegas, NV 89118, USA
Phone Number: +1 702 800 8290

TC2290-DT
complies with the FCC rules as mentioned in the following paragraph:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
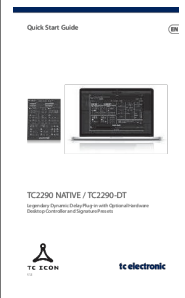

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Important Information:
Changes or modifications to the equipment not expressly approved by Music Tribe can void the user's authority to use the equipment.
