OUR THANKS

Congratulations on your purchase and thank you for your trust and confidence in T'nB. Our products comply with the regulations and standards in force. Before using this device, we recommend that you read the instructions and safety guidelines carefully and keep this manual for future reference.

IMPORTANT SAFETY GUIDELINES

- The power supply of your device must match the initially designed original specifications.
- Never use your device under water or in places that are too damp.
- Do not place flammable objects, explosive substances or dangerous objects near your device.
- Use and store your device in an environment where the temperature is between -10 °C and 60 °C.

- Keep your device out of the reach of children.
- Do not disassemble your device or try to repair it yourself.
- Do not use your device if it has been subjected to impact or is damaged.
- To avoid the risk of electrocution, unplug your device from the main power supply and from any device before cleaning it or if you are not using it.
- T'nB declines any liability in case of misuse of the product or use with a device with incompatible electrical characteristics.
- It is recommended to protect the battery when not in use to avoid damage from a fall.
- Keep the safety cover securely closed to prevent water from entering the system and the internal parts of the product.
- Do not use abrasives to clean the device.
- Do not leave the device near sharp objects that could scratch or damage it.

DESCRIPTION

- 1- Indicator light
- 2- Multi-functional button
- 3- Micro USB port
- 4- 3.5mm audio plug
- 5- Vol(+)/Next
- 6- Vol(-)/Previous
- 7- Mic

PACKAGE CONTENTS

- 1 x CARBTKIT5 Audio receiver
- 1x Instruction manual
- 1x micro USB/USB cable

CHARGING

The transmitter is equipped with a rechargeable battery. It is recommended that the battery is fully charged before first use.

- A. Use the micro USB cable supplied. Plug it into a standard USB port and it will automatically charge itself.
- B. The full charge takes about 2 hours
- C. The red light (1) lights up continuously during charging; the blue light (1) lights up when charging is complete.
- D. You can charge and use the receiver simultaneously

USE

ON/OFF: Press and hold the multifunction button (2) to turn the unit on and off.

Auto Power Off: The unit automatically switches to standby mode if it is not connected after 3 minutes. After 12 minutes it switches off automatically.

Steps:

- A. Insert the jack plug (4) into an AUX port on your audio system
- B. Switch on the device, a red and blue light (1) flashes alternately
- C. Activate the Bluetooth function on the device you want to connect to and select «CARBTKIT5».
- D. Once the connection is established, the blue light (1) flashes more slowly
- E. Press the multi-function button (2) once to start playback or pause. Press and hold the button to adjust the volume, press and hold it briefly to change songs (5) / (6).
- F. When you receive a call, press the multi-function button (2) to answer, press it again to hang up.
- G. Press the multi-function button (2) twice to reject a call
- H. Press the multi-function button (2) twice to redial the last call.

'Advice:

- 1- Bluetooth devices use different chips and protocols, so the search and connection time may be different.
- 2- If the connection fails or fails to connect for a while, turn off the device and try again.

FEATURES

Bluetooth Version	V4.2 with A2DP, AVRCP, HFP
Connector	3.5mm male plug
Charging the battery	USB/micro USB 95cm cable
Charge time	2 hours
Range	10 metres

TROUBLESHOOTING

If you have any of the following problems, try to use one of the solutions below.

Please contact us if the problem persists. Do not attempt to disassemble or repair the unit yourself. If the Bluetooth audio receiver does not work normally :

Check that the power is on.

Please connect the charger to check if the battery is low

Check that the device mode is the correct one and that the 3.5mm audio cable is connected to the AUX socket.

Check the operating mode according to the indicator light.

If it is not possible to pair with a Bluetooth device, such as a Bluetooth headset, bring it closer to the receiver or restart the receiver.

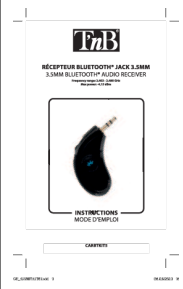

NEED HELP ?
