Navi installation / update via USB / SD card

Here we will demonstrated how to install Navigation map from apk file and we will use igo in this example. For an update please delete the complete IGO folder in the file manager on the device !!!

1. Downloaded igo.rar file and extract the file (for example with WinRar)
2. Save unpacked folder without changing anything on a USB stick or SD Card and insert it to the device

On File Manager, select the USB memory on the right.

- Now select the igo folder and click Copy and click on the left side of the Homepage Button , select the device memory on the right and click on paste
- Remove the USB stick/SD Card from the device, Open the IGO folder and locate the apk file with the IGO icon, install the app

Open the navigation app, you may see an error message, ignore it.

Bluetooth call:

1. Click "Bluetooth" in main menu then Setting to connect with phone
   - Default Device name: GocAndroid
   - Password 0000

2. click dial to call

3. Call records : click phone list

4. Address book : Click "Phone List" Then can view the address book.

5. BT music : click "BT Music" Then can play mobile phone music.
