Safety information

Note: Please read the following important safety information carefully before use.

1. Only authorized technicians can disassemble the product. It is not recommended that the user disassemble the product by himself.

2. Do not put this product near cigarette butts, lighters and other open flames.
3. This product is designed to prevent the splashing of liquid (water, etc.). In case of accidental splashing, it can protect the keyboard timely. However, it is not designed to be waterproof and cannot be placed in the place where there is water or any liquid.
4. If any liquid accidentally enters the product, please disconnect the computer immediately and remove the product. Continued use may cause fire or electric shock.

Instructions for Use

Computer System Requirements
Support Win 7/Win 8/Win 10/or higher.

Packing list

1. Wired keyboard ×1
2. Instruction Manual × 1

Product name and content of harmful substances

In order to meet the relevant provisions and requirements of the “Administrative Measures for the Restricted Use of Hazardous Substances in Electrical and Electronic Products” (Decree No. 32 of the ministry of Industry and Information Technology of the People’s).The statement is as follows:

Product name and content of harmful substances

Part Name	Harmful Substance					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
Circuit board assembly	X	0	0	0	0	0
Housing and Board Assembly	0	0	0	0	0	0

This form is compiled in accordance with the provisions of SJ/T11364.

O: Indicates that the content of the hazardous substance in all homogeneous materials of the part is below the limit requirement specified in GB/T 26572.

X: Indicates that the content of the hazardous substance in at least one average material of the part exceeds the limit requirement specified in GB/T 26572.

The hazardous substances contained in this product are due to technical limitations at the current stage and no alternatives can be found. It meets the requirements of China’s “Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products” and falls within the scope of EU RoHS exemption. Special consideration has been made when designing products to ensure that the appearance of parts. Made of non-toxic and harmless environmentally friendly materials, consumers will not be exposed to harmful substances under normal use quality and will not cause harm to the human body.

The “Environmentally Friendly Use Period” (EPuP) symbol will be printed on electrical and electronic products sold within the territory of the People’s Republic of China, and the numbers in the circle represent the normal environmental protection use period of the product.

Basic parameters

Product Name	Wired mechanical keyboard
Product number	KB968
Current and voltage	5V 260mA
Key life	About 60 million times
Weight	880±10gp
Size	Approx. 438x138x36mm
Adaptive system	Win7/Win8/Win 10/or higher

Product Description

Combination key function

Function Description

1. Can be composed of 68/69 and other different word key arrangements, the keyboard can run on Win ME, Win2000, Win XP, Vista, Win7, Win8, and other operating systems. It can be configured into different kinds of language versions according to customers' needs.
2. Support boot-up running light effect and other combinations of light effect animation.
3. Support a variety of super dazzling LED lighting effects Standard version: support 19 kinds, boot animation, with the wave, ripple diffusion, rainbow wheel, sine light wave, stream, star, RGB diffusion, rotating storm, running horse, flower blossom, snake running horse, interspersed with the running, diagonal change, always bright, breathing, neon, stepping snow without a trace, a touch
4. Host into hibernation or standby state, the backlight function off, wake up and resume the previous mode.
