For questions about compatible G7 sensors, visit [tandemdiabetes.com/G7support](https://tandemdiabetes.com/G7support).

To request a replacement for incompatible G7 sensors, visit [dexcom.custhelp.com/app/tandem\\_order](https://dexcom.custhelp.com/app/tandem_order).

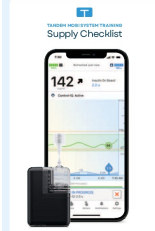

The mobile app requires a compatible iPhone model and operating system (sold separately). Only available to pump users who reside in the United States. Visit [tandemdiabetes.com/compatibility](https://tandemdiabetes.com/compatibility) for a complete list of compatible smartphone models and operating systems. † Adhesive sleeves sold separately. ‡ Glucose monitoring supplies sold separately.

**Important Safety Information:** RX ONLY. Indications for Use: Tandem Mobi system: The Tandem Mobi insulin pump with interoperable technology (the pump) is intended for the subcutaneous delivery of insulin, at set and variable rates, for the management of diabetes mellitus in persons requiring insulin. The pump is able to reliably and securely communicate with compatible, digitally connected devices, including automated insulin dosing software, to receive, execute, and confirm commands from these devices. The pump is intended for single patient, home use and requires a prescription. The pump is indicated for use in individuals 6 years of age and greater.
