Characteristics

The PRE-FP is an active self-powered preamplifier. TAP PRE-FP (battery-free) preamplifier employs a unique technology that provides benefits to performer.

You can enjoy the benefits of an active system without worrying about batteries. Easy personalized for your specific sound. This preamp is working perfectly free of battery and free of power supply.

TAP has launched the PRE-FP performance preamplifier that combines the analog audio quality and a next generation (battery-free) technology.

It also features:

Four unique adjustable bands. Bass, L-Midd, H-Midd, High.

Fully symmetrical (reciprocal) filter response (24 dB boost/cut).

Smooth-action , adjustable Level and gain control.

Designed with 1/4 jack (in – out) and Micro-usb connection.

Portable in minimal-size and all in metal box. With its compact and convenient Preamp, users can take to live performances and studio recording or use them with any console or amplifier.

“PRE-FP” preamplifier choice has a complete sound reproduction control.

Charging

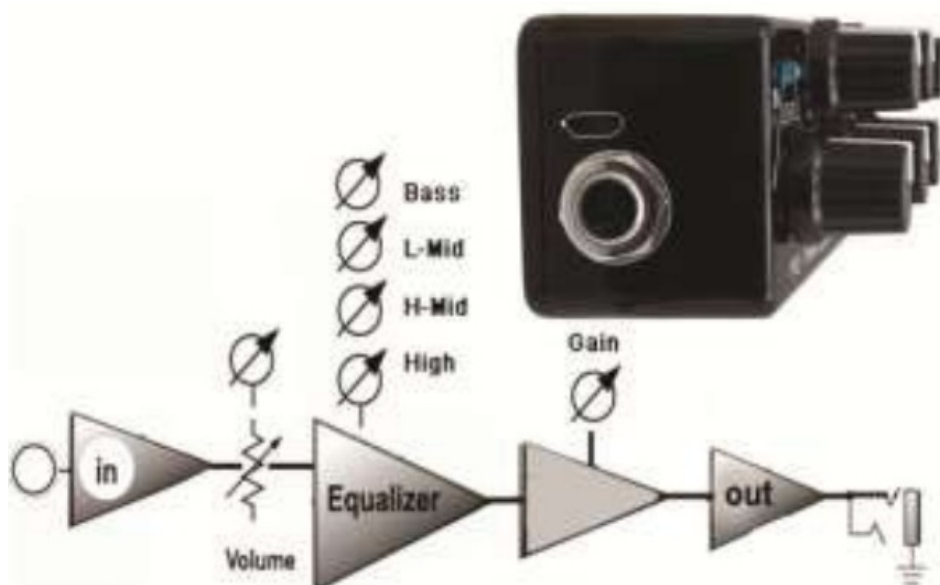

Power bank system serves as an integrated battery. To charge the system, plug the power charger into a 120/220 V AC outlet and then plug in the micro -usb connector into the preamplifier socket and wait 90 seconds. The LED light will turn to blue color during charging and the LED light will be off when the power bank is fully charged. Now you're ready for 12 hours of performance time.

Pre be charged and discharged an unlimited number of times. Not subject to overcharge. No chance to explode. Charging with the charger that comes with your preamp. • If you forgot or lost your Power Charger? Don't worry! Can charge your power bank via the charger of your mobile (5 Volt Micro-usb charger) or using the computer usb port. Before connecting the pickup to an console or amplifier, make sure that is charged.

TIP: No unplug the charger until the LED has fully turned off. You can plug your instrument into any console or amplifier.

Maintenance

Before using, read the instructions. Do not attempt to modify or repair the unit. Hafer to the authorised service. Before connecting this unit, turn off the power to all devices. Clean and wipe the unit with a Soft, dry cloth. Do not expose the unit to direct sunlight.
