Establishing pairing

Battery compartment   Power button
1. Turn on the keyboard by sliding the power button to the ON position and the power indicator will be Green (if the indicator is flashing Red, please replace the batteries).
2. Switch ON the Bluetooth function of the device and turn on Bluetooth search mode.
3. Press the Bluetooth channel key "Fn + one of Q(B1) W(B2) E(B3), then press Fn + Z(pairing) for 1 second, the blue LED light will flash indicating the keyboard is in Bluetooth pairing mode. The keyboard will remain in pairing mode for 3 minutes.
4. Select "Targus Multi-Device Compact Bluetooth® Keyboard" in the Bluetooth menu on your device
5. Press "Fn + one of Q(B1) W(B2) E(B3) to switch between devices once multiple devices have been connected.
6. The Targus Multi-Device Compact Bluetooth® Keyboard is now connected to your device and the blue light will stop flashing.
Help with the setup: Keyboard is not working

- Check the orientation of the batteries inside the keyboard, or replace the batteries.
- Remove any metal object between the receiver and the keyboard that may interfere with reception.
- Restart the computer and Power off/on your keyboard.
- Press the Bluetooth channel keys (B1) (B2) (B3) to select your Bluetooth device.
- After pairing for the first time, your device will automatically connect to the keyboard within 3-5 seconds the next time you turn on the keyboard.
- In case of connection failure, delete the keyboard from the Bluetooth menu of your device, and try repairing the keyboard to your device.
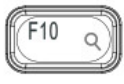

Power saving mode

When paired, the keyboard will enter into sleep mode after being idle for 30 minutes. To activate the keyboard, press any key and wait 3 seconds. If unpaired, the keyboard will enter sleep mode after 3 minutes.

Regulatory compliance (applicable to products with electronic circuitry/parts only)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC statement

Tested to Comply
This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part

15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna;
- Increase the separation between the equipment and receiver;
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected;
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not authorized by the party responsible for compliance could void the user's authority to operate this product.

FCC ID: OXM000123
IC: 3760B-00108
