Specifications summary

Keyboard

Keyboard Partition	Three areas
Keys spec	104 keys, 8 media keys
Interface	2.4GHz Wireless
Weight	460g
Dimensions	434 X 143 X 23.4mm
System Requirements	Windows98/SE/ME/2000/XP/VISTA/WIN7/WIN8/WIN10/WI N11
Power Consumption	3V  20MA

Mouse

Button	3 Keys
Resolution	Wireless 1200DPI/1200DPI
Interface	2.4 GHz Wireless
Weight	57.15 ± 5g
Dimensions	103 X 60 X 34.45mm
System Requirements	Windows98/SE/ME/2000/XP/VISTA/WIN7/WIN8/WIN10/WI N11
Power Consumption	1.5V  30MA

Installing the batteries

1. Insert three batteries (two AAA batteries for the keyboard and one AA battery for the mouse) into the battery slots of your keyboard and mouse.

2. Insert the bundled USB dongle into your computer's USB port. It takes about ten seconds for the system to automatically connect to your wireless keyboard and mouse.

Your keyboard and mouse is set at the factory to automatically connect to the system. There's no dedicated pairing button, so no manual pairing is required.

Keyboard hotkeys

	Play/Pause
	Stop
	Previous
	Next
	Volume down
	Volume Up
	Mute
	Calculator

The third stage is 1600 DPI, the top red LED flashes 3 times, on for 100ms/off for 100ms.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference

2. this device must accept any interference received, including interference that may cause undesired operation.

FCC STATEMENT

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirements.

The device can be used in portable exposure conditions without restriction.
