Targus THZ967 VersaVu Bluetooth Keyboard Case

Specifications

- **Product Name:** Wireless Keyboard
- **Model:** THZ967
- **SKU:** THZ967US
- **Operation Frequency (MHz):** 2400 – 2483.5 MHz
- **Maximum EIRP Power (dBm):** 2.2dBm (EU)
- **Working Distance:** 10 Meters

Product Usage Instructions

- Switch on the Bluetooth keyboard by sliding the On/Off Switch to the right. The White, Blue, and Red LED will remain lit for 3 seconds.
- Manually press fn + C to make the keyboard enter Bluetooth pairing mode. The Blue LED will flash for 3 minutes. Go to your device's Bluetooth settings and select "Targus THZ967".
- The Bluetooth keyboard is now connected to your device.
- If the pairing process takes longer than 3 minutes and the Blue LED turns off, reset the power switch (OFF and back ON) and follow step 2.
- Please configure your device to the preferred language.
- If another Bluetooth device has recently been connected to your device, follow steps 1 and 2 to reconnect. The Blue LED will flash while the keyboard is reconnecting.
- The Bluetooth Keyboard requires charging when the Power indicator lights up Red.
- Connect the keyboard to a USB power source with the USB charging cable.
- The charging Red LED will remain lit until the keyboard is fully charged. The keyboard input rating is DC 5V, 500mA.
- Under standby mode, the fully charged keyboard provides 120 days of battery life.

FAQ

- **Q:** What should I do if my Bluetooth keyboard does not connect?
- **A:** Make sure to follow the pairing instructions carefully, reset the power switch if needed, and ensure your device is compatible with the keyboard's OS version.
- **Q:** How long does a fully charged keyboard last?
- **A:** A fully charged keyboard provides 120 days of battery life under standby mode.

Features

Introduction

- Thank you for purchasing the VersaVu® Bluetooth Keyboard Case for iPad Air® 11-inch (M2), iPad® 10.9-inch (10th gen), iPad Air® 10.9-inch (5th and 4th gen.) and iPad Pro® 11-inch (4th, 3rd, 2nd and 1st gen.).
- The keyboard uses Bluetooth technology which can detect different OS automatically and provides a seamless connection.

Contents

1. VersaVu® Bluetooth Keyboard Case
2. USB-C Charging Cable (for keyboard charging)
3. User Guide

System Requirements

- iOS

Product Name	Operation Frequency (MHz)	Maximum EIRP Power (dBm)	Working Distance
Bluetooth Keyboard: THZ 967	2400 -2483.5 MHz	2.2dBm(EU)	10 Meters

Establishing a Connection with the device

1. Switch on the Bluetooth keyboard. (Turn on the power by sliding the On/Off Switch to the right).
The White & Blue & Red LED will remain lit for 3 seconds.
2. Manually press “fn” + “C” to make the keyboard enter Bluetooth pairing mode at first connection, the Blue LED will flash for 3 minutes, go to your device’s Bluetooth setting and select “Targus THZ967” .
3. The Bluetooth keyboard is now connected to your device.
4. If the pairing process takes longer than 3 minutes and the Blue LED turns off, reset the power switch (“OFF” and back “ON”) and follow step 2.
5. Please ensure to configure your device to your preferred language.

Reconnecting the device

- If another Bluetooth device has recently been connected to your device, follow steps 1 and 2 to reconnect.
- The Blue LED will flash while the keyboard is reconnecting.

Trouble Shooting (Bluetooth connection)

- Make sure the bluetooth keyboard is fully charged.
- If the power indicator lights are red, it indicates that the battery is low and needs to be charged.
- On your device, click on the Bluetooth icon within the system preferences panel. Refer to the OS Bluetooth help file to ensure Bluetooth is working properly.
- Make sure there are no other Bluetooth devices close.
- If your device is connected to other Bluetooth devices, you may need to disconnect some devices before you can connect to the keyboard.
- If the keyboard is still not recognized, make sure the correct version of the software is installed. Verify the OS version for compatibility.

Charging the Keyboard

The Bluetooth Keyboard requires charging when the Power indicator lights up Red.

1. Connect the keyboard to a USB power source with the USB charging cable.
2. The charging Red LED will remain lit until the keyboard is fully charged. The keyboard input rating is DC 5V, 500mA.
3. Under standby mode, the fully charged keyboard provides 120 days of battery life.

Bluetooth and Battery Charging Indicators	
 Pairing	Flashes Blue until the keyboard is paired.
 Charging	Lights are Red when the keyboard battery is being charged.

The power delivered by the charger must be between min 0.0 Watts required by the radio equipment, and max 2.5 Watts to achieve the maximum charging speed.

WARRANTY

TWO YEARS WARRANTY

PORTUGAL AND SPAIN CUSTOMERS: 3 YEARS LIMITED WARRANTY OR AS REQUIRED BY LOCAL LAWS
We pride ourselves on the quality of our products. For complete warranty details and a list of our worldwide offices, please visit www.targus.com. Targus product warranty does not cover any device or product that is not manufactured by Targus (including, but not limited to, laptops, smartphones, devices, or any other product that may be used in connection with the Targus product). Australian and New Zealand Customers: For complete warranty details see the warranty statement enclosed.

Targus and VersaVu are trademarks or registered trademarks of Targus International LLC in the U.S. and in certain other countries. All logos and registered trademarks are the property of their respective owners. iPad, iPad Air, iPad Pro, and Apple Pencil are trademarks of Apple Inc., registered in the U.S. and other countries. USB-C is a registered trademark of USB Implementers Forum. Bluetooth is a registered trademark of Bluetooth SIG, Inc.
©2024 Targus, 1211 North Miller Street, Anaheim, CA 92806. All rights reserved.

AUSTRALIAN AND NEW ZEALAND CONSUMERS ONLY

Thank you for your purchase. Targus warrants to the original purchaser that its products are free from defects in materials and workmanship, during the specified warranty period, and lasts as long as the original purchaser owns the product. The warranty period is stated on the packaging or in the documentation provided with this Targus product.

Targus' Limited Product Warranty excludes damage caused by accident, neglect, abuse, misuse, improper care, normal wear and tear, ownership transfer, or alteration. The limited warranty also excludes any product that is not manufactured by Targus (including, without limitation, laptops, smartphones, devices, tablets, or any other non-Targus item) that is used in connection with the Targus product.

If the Targus product has a defect in materials or workmanship Targus will, after receiving a warranty claim and inspecting the product, at its discretion, do one of the following: repair, replace, or refund with the same or a similar product (or part) of no lesser quality and ship it to the original purchaser at Targus' expense. As part of this

inspection, proof of purchase will be required. There is no charge for inspection. To make a warranty claim, please contact Targus Australia or New Zealand (see details below), or return the product to the place of purchase. The original purchaser must bear the cost of the delivery to Targus.

Under Australian and/or New Zealand Consumer Laws, in addition to any warranty Targus gives, our products come with guarantees that cannot be excluded. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are entitled to have the products repaired or replaced if they fail to be of acceptable quality and the failure does not amount to a major failure. For any warranty questions, contact Targus Australia Pty. Ltd. (i) by mail at Suite 2, Level 8, 5 Rider Boulevard, Rhodes NSW 2138, by phone at AUS 1800 641 645 or NZ 0800 633 222 or by Email: infoaust@targus.com. For additional information, check out our website at targus.com/au/warranty.

RF warning statement

- The device has been evaluated to meet general RF exposure requirements.
- The device can be used in portable exposure conditions without restriction.

FCC STATEMENT

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B digital device, according to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used under the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. Suppose this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. In that case, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna;
- Increase the separation between the equipment and receiver;
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected;
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Battery Warning

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

CAUTION: AVOID PROLONGED USE OF THE KEYBOARD WITHOUT BREAKS

Take regular breaks and keep a good posture. Consult your physician promptly if you notice any loss of motion or pain in your wrist when using the keyboard.
