3. When the charging box is charging the earphone, the earphone is red and the white light of the charging box is steady on.

4. When the headset is in low battery state (beep), the headset is in low battery state.

Product parameter

Frequency response range	20Hz-20KHz
impedance	32Ω±10%
sensitivity	105±3db
Bluetooth receiving distance	≥10 m (standard environment)
Bluetooth version	BLUETOOTH V5.4
Support protocol	HSP/HFP/ADP/SBC/ ACC/ AVROP
Transmission frequency	2402MHz-2480MHz
Earphone charging time	25 minutes (headphones) about 1.5 hours (charging case)
Play time	5 hours (60% volume)
Talk time	4 hours (60% volume)
Endurance time	Call duration when Bluetooth headset and mobile phone are connected; About 3 -4 hours (binaural call); Call duration in connected state; Standby time: about 10 0 hours.
Charging voltage/current	Headset rated input : 5V ▬▬▬40mA x 3	Charging box rated input: 5V ▬▬▬300m A
Product operating temperatur e	-10-50°c	
Product storage temperature	-20-65°c	

Product safety information

Please read all instructions and warnings before using this product. Improper use will damage the product or personal safety.

1. The product contains batteries, do not expose the product to strong sunshine or overheating environment such as heaters.
   Do not store this product in high temperature, strong light and strong magnetic field environment.
2. Do not place the product in harsh environment such as near the fire source, do not knock, throw, trample, squeeze or put into the fire, if bulging, do not use.
3. **Ambient temperature :**0~45°C.
4. Do not violate the product instructions and use improperly, causing product damage or endangering personal and property safety, and bear the consequences.
5. Non-professional personnel are strictly prohibited from decomposing this product, otherwise it may lead to fire and even complete damage to this product.
6. Do not use the load that exceeds the output current of this product (electrical appliances), which will automatically stop working.
7. Please regularly clean the charging contact of the earphone with a clean cotton cloth to avoid the situation that

the earphone cannot be charged or started due to long-term uncleaning.

8. Do not place the product in water (or washing machine). If the product is in water, please wait for it to dry naturally before use

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and usedinaccordance with the instructions, may cause harmful interference to radiocommunications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
