## Controls

1. USB – Connects to your computer or mobile device for use with the TonePrint App and for firmware updates.
2. VERB LED – This LED illuminates when the reverb is active.
3. DECAY – controls the fade-out rate of the sustain effect layer.
4. FADE IN – Controls the fade-in rate of the sustain effect layer.
5. Output
6. SEND – The FX loop sends a sustained signal to external effects.
7. Footswitch – Activates/deactivates the sustain layer. The functionality varies, depending on the LATCH/MOMEN switch setting:
  - MOMEN – Press and hold to activate sustain layer. Release to deactivate sustain layer.
  - LATCH – Press and release to activate sustain layer. Double-tap to clear memory.
8. Power Input – Connect a standard 9 V / >100 mA power supply. Power adapter not included.
9. LEVEL – Controls the output volume of the effect.
10. DRY/VERB – Activates the built-in reverb engine.
11. FX Type – Select the number of sustain layers or TonePrint slot.
12. Main LED – Illuminates when the sustain effect is active (red = Latching; green = Momentary).
13. Input
14. RETURN – The FX Loop returns sustained signal from external effects.
15. LATCH/MOMEN – Selects between latching or momentary footswitch control.

## FEDERAL COMMUNICATIONS COMMISSION COMPLIANCE INFORMATION

**8th Floor NY, NY 10168, United States**  
Email Address: [legal@musictribe.com](mailto:legal@musictribe.com)

### INFINITE SAMPLE SUSTAINER

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC

Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,

there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

### Important information:

Changes or modifications to the equipment not expressly approved by Music Tribe can void the user's authority to use the equipment. Hereby, Music Tribe declares that this product is in compliance with Directive 2014/30/EU, Directive 2011/65/EU and Amendment 2015/863/EU, Directive 2012/19/EU, Regulation 519/2012 REACH

SVHC and Directive 1907/2006/EC. The full text of the EU DoC is available at <https://community.musictribe.com/>
