TCL NXPAPER11 Display Tablet

Specifications

- Model: 9466X
- Manufactured: China
- Battery: USB-C rechargeable
- Memory Expansion: microSD slot
- Network: Wi-Fi only

Product Usage Instructions:

Charging the Battery
Your new tablet comes partially charged. To charge the battery:

1. Connect the provided USB-C cable to the charger.
2. Plug the charger into a power source.
3. Connect the USB-C cable to your tablet to start charging.

Memory Expansion
To expand memory using a microSD card:

1. Use the provided ejector tool to open the memory expansion tray.
2. Insert your microSD card into the tray slot labeled microSD.
3. Note: microSD cards are sold separately. Do not use SIM cards in the memory expansion tray.

Home Screen Navigation:
To navigate the Home screen:

- Tap the Home icon to return to the main screen.
- Tap on icons to open applications, folders, etc.

Contacts Management:
To manage contacts

- Use the Contacts app to add, edit, delete, and synchronize contacts.
- You can import or export contacts from various sources like external storage or email accounts.

Gmail Usage
To use Gmail on your tablet:

- Open the Gmail app from the Home screen to send and receive emails.
- You can add multiple email accounts and switch between them easily.
- Create and send emails by following the steps provided in the manual.

Frequently Asked Questions (FAQ)

- **Q: Can I use a SIM card with this tablet?**
  A: No, this device is Wi-Fi only and does not support SIM cards. Only microSD cards for memory expansion are compatible.
- **Q: How do I access the Notification and Quick Settings panels?**
  A: Swipe downward from the Status bar to access the Notification panel or Quick Settings panel. To close the panel, touch and drag upward.

Getting Started

1. Your new tablet is partially charged. Charge the battery by using the USB-C cable and charger provided.

2. Use the provided ejector tool to open the memory expansion tray.

3. Place your microSDTM card into the tray slot where labeled "microSD".

Note: microSDTM cards are sold separately. Do not attempt to place SIM cards in the memory expansion tray. The device is Wi-Fi only, and cannot be used with a SIM card.

Home screen

You can bring all of the items (applications, shortcuts, folders) that you use most frequently to your Home screen for quick access.

Tapping Home always takes you back to the main

Home screen.

- Status/Notification indicators
- Drag down to open the notification panel

Tap an icon to open an application, folder, etc.

Favorite applications tray
- Tap to enter the application
- Long press to move or change applications

The Home screen is provided in an extended format to allow more space for adding application icons, shortcuts etc. Swipe left and right on the Home screen to view the extended screens.

Status bar
In the status bar, you can see the notifications on the left side and the connection service status on the right side. Swipe downward from the Status bar to access the Notification panel or the Quick Settings panel. To close the panel, touch and drag upward.
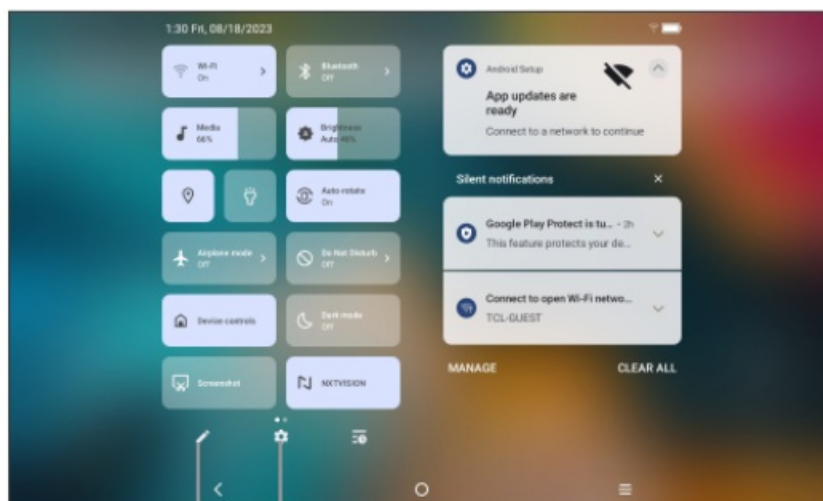

Notification panel
Tap on the notification to view it in the app.

Tap to clear all event-based notifications. On-going notifications will remain on the panel.

Quick settings panel
From the Quick Settings panel you can enable or disable functions or change modes by tapping the icons.

Tap to access the full Settings menu, where you can manage other items.

Tap to edit Quick Settings panel.

Contacts

Contacts are stored in your tablet with the Contacts app.
Add, edit, or delete contacts on your tablet and synchronize them with the contacts in other accounts that support contact syncing.
You can also import or export your contacts from different locations such as an external storage, email, or other account.

Adding a contact

Open Contacts from applications list, then tap to add a new contact.

Synchronizing contacts in multiple accounts
Contacts, data or other information can be synchronized from multiple accounts, depending on the applications installed on your tablet.

Gmail

When you first set up your tablet, it is automatically synchronized with your Google account. Use Gmail to create, send, and receive emails directly on your tablet.
The Gmail app will allow you to add several email accounts.

To open Gmail

From the Home screen, tap Gmail in the Google folder.

Gmail displays messages and conversations from one single Gmail account at a time. If you own additional email

accounts, you can add an account by tapping Menu > Settings > Add account.

Switch to another account by tapping the icon in the top right corner, then select the name of the account you want to view.

To create and send emails

1. Tap from the Inbox screen.

2. Enter the recipient(s)'s email address in "To" field.

3. If necessary, tap to copy (CC) or blind copy (BCC) a recipient to the message.

4. Enter the subject and the content of the message.

5. Tap icon and select Attach file to add an attachment.

6. Tap to send.

If you do not want to send the email right away, tap ⋮ >Save draft. To view the draft later, tap Menu ☰ and select the Drafts folder.

NOTE: Software is constantly evolving, the screen images and icons you see here are for reference only.

Getting connected

To connect to the Internet with this tablet, you will need to have an internet connection via Wi-Fi.

Wi-Fi
To turn Wi-Fi on and connect to a Wi-Fi network:

1. Go to Settings > Wi-Fi.

2. Tap the switch to turn on Wi-Fi.

3. Tap a Wi-Fi network to connect. If the network you selected is a secured network, you will need to enter a password or other credentials. When finished, tap CONNECT.

4. For hidden network, slide up the screen and select Add network. Enter the SSID of the network, password and its secured credentials. Then, tap SAVE.
