What's in the box

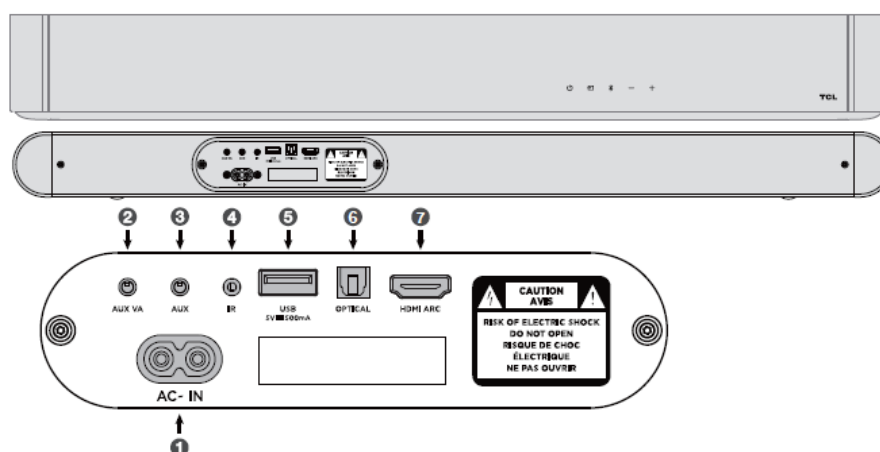

Make sure you read all the safety information before you use this product. User Manual can be found at www.tcl.com/us on the specific product page in the “**Download**” section.

Warning:

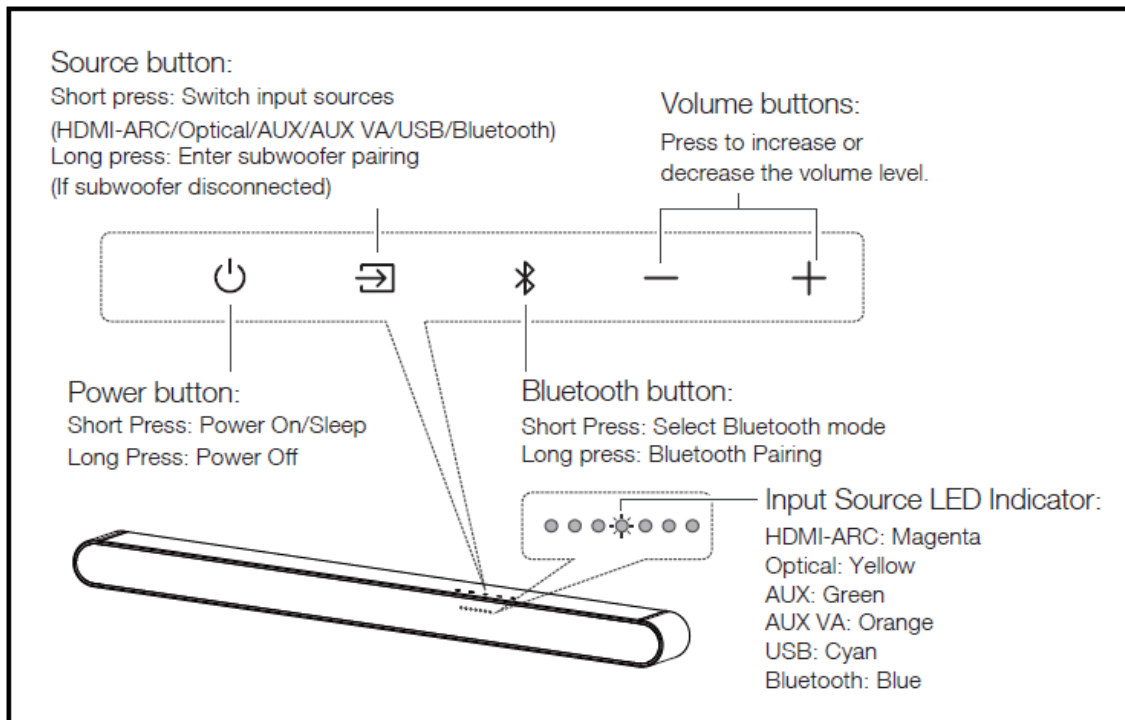

To avoid the danger of suffocation, keep plastic packaging away from pets, babies, and children. Do not use packaging bags in cribs, beds, carriages, or playpens.

Overview

1. AC input power connector
2. AUX VA input connector
3. AUX input connector
4. IR input connector
5. USB Type A connector
6. Optical input connector

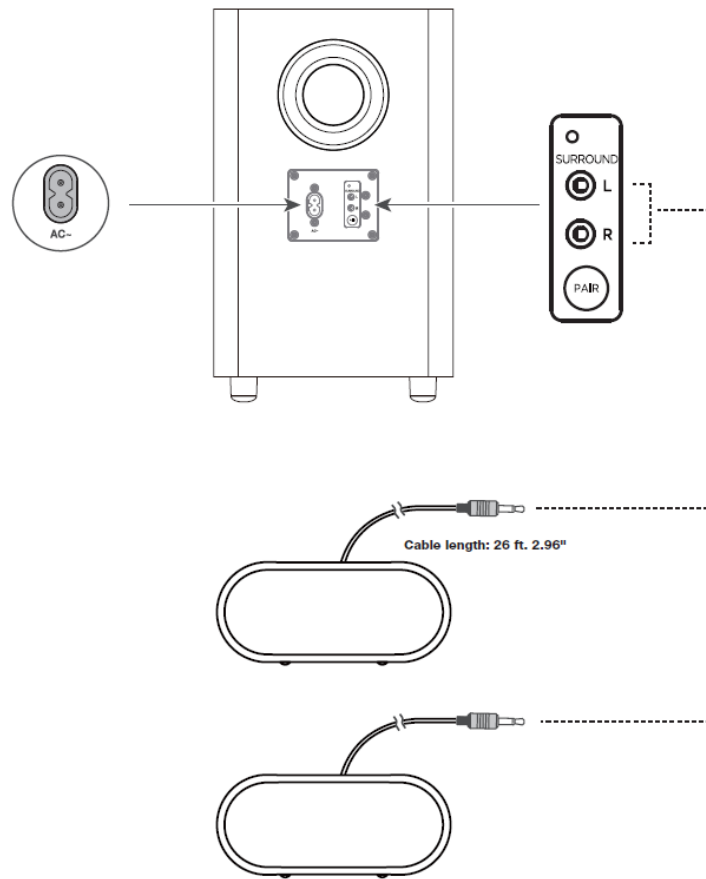

7. HDMI ARC connector

Wireless Subwoofer

The subwoofer will pair automatically with the sound bar upon first use. In case of a problem, take the following steps to manually pair:

1. Press and hold the **Pair** button on the subwoofer for 3 seconds until an amber light begins flashing above the pair button.
2. Press and hold the button on the soundbar until a yellow LED indicator flashes on the soundbar. After a short while, the sound bar LED will turn green and the subwoofer LED will turn solid.
3. The subwoofer is now connected to the soundbar.

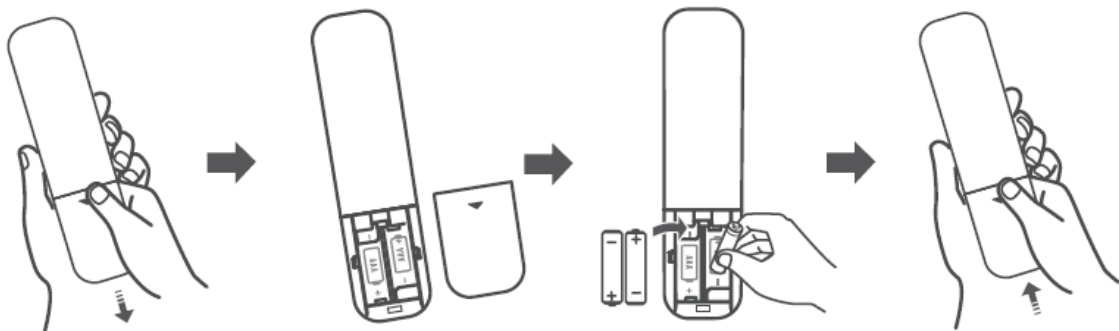

Surround Sound Speakers

1. Connect each surround sound speaker to one of the surround ports on the back of the subwoofer.

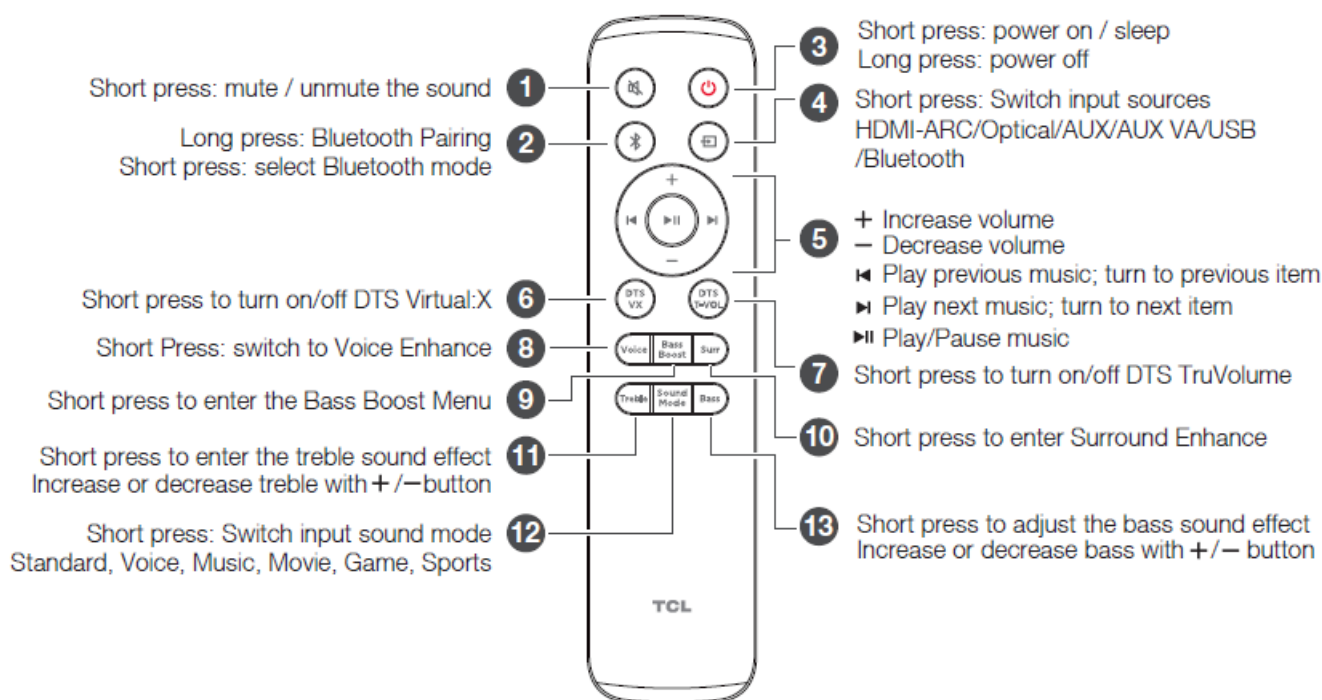

Battery Information

Install or replace the remote batteries

Battery type: 1.5V AAA battery x 2

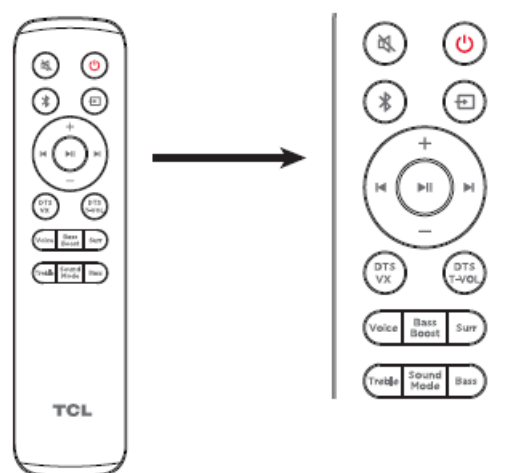

Use the Remote

Warning: Do not expose batteries to excessive heat such as sunshine, fire, or the like. Keep new and used batteries away from children. For disposal or recycling information, please contact your local authorities.

CAUTION: Danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type.

Wall mount your Sound Bar

Required tools:

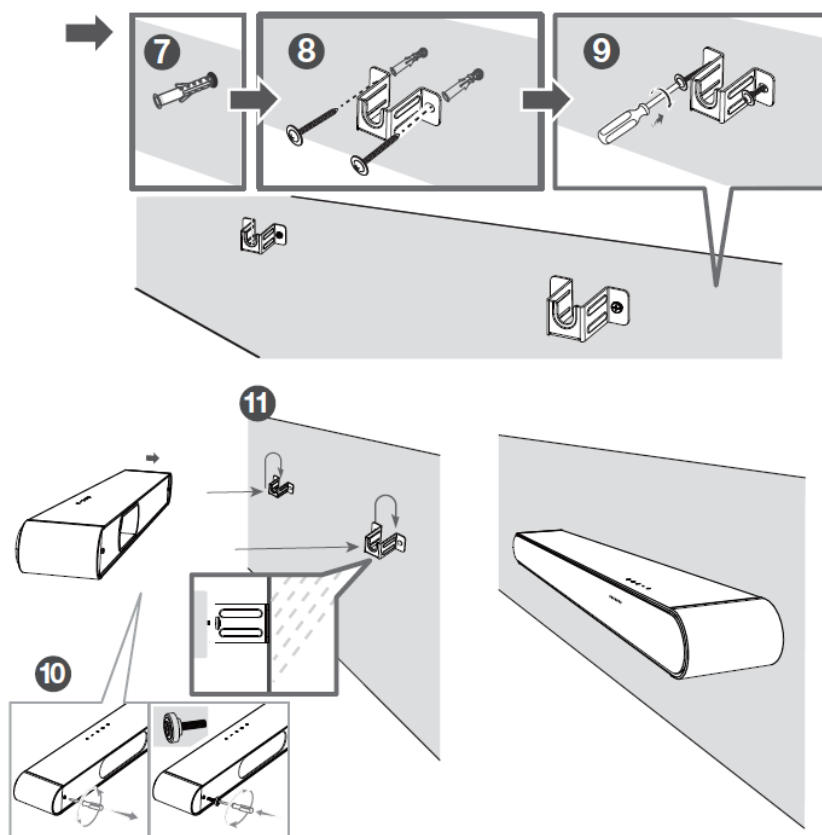

1. Place the included wall mount template on the wall. Make sure the wall mount template is at least 2 inches below the center of the TV.
2. Use a level to make sure the wall mount template is positioned accurately
3. Use the tape to stick the wall mount template firmly on the wall.
4. Mark on the wall using each marking on the template through the mounting holes.
5. Take away the wall mount template.
6. Drill screw holes at each marking on the wall.

7. Insert the wall anchors in the holes in the wall.

8. Insert the included screws with the brackets into the hole of the wall anchors.
9. Fix and tighten the wall brackets and screws on the soundbar.
10. Replace the screws with the included long wall mount screws.
11. Pick up the sound bar and attach it to the brackets, similar to how you would hang a picture. Make sure everything is tight.

Note:

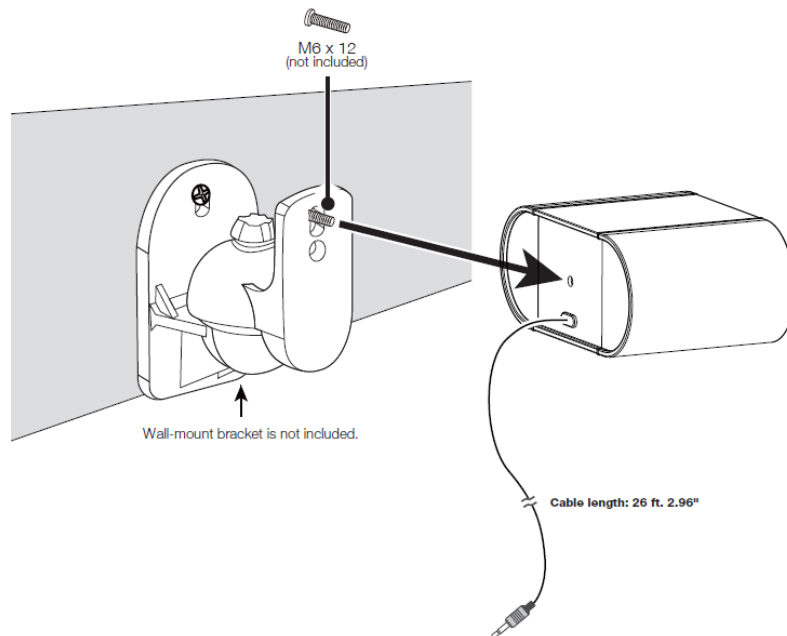

Do not place your sound bar in a location exposed to direct sunlight, heat, fire, or moisture. Only suitable for mounting at heights: < 6 ft. 6.7"

Required tools:

Wall Mount Your Surround Sound Speaker

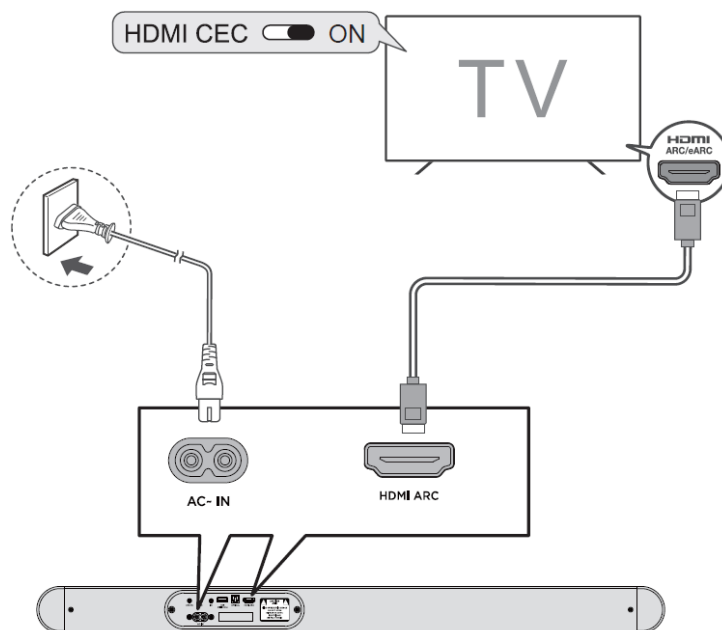

Notes: Only suitable for mounting at **heights:** < 6 ft. 6.7". A wall-mount bracket is not included.

Connect to your TV

There are 2 ways to connect your sound bar to the TV (listed in the order that we recommend): HDMI ARC (refer to 7a), and Optical (refer to 7b).

If you have a Roku TV™, simply plug in the HDMI cable to the ARC ports and follow the Roku TV Ready™ on-screen instructions.

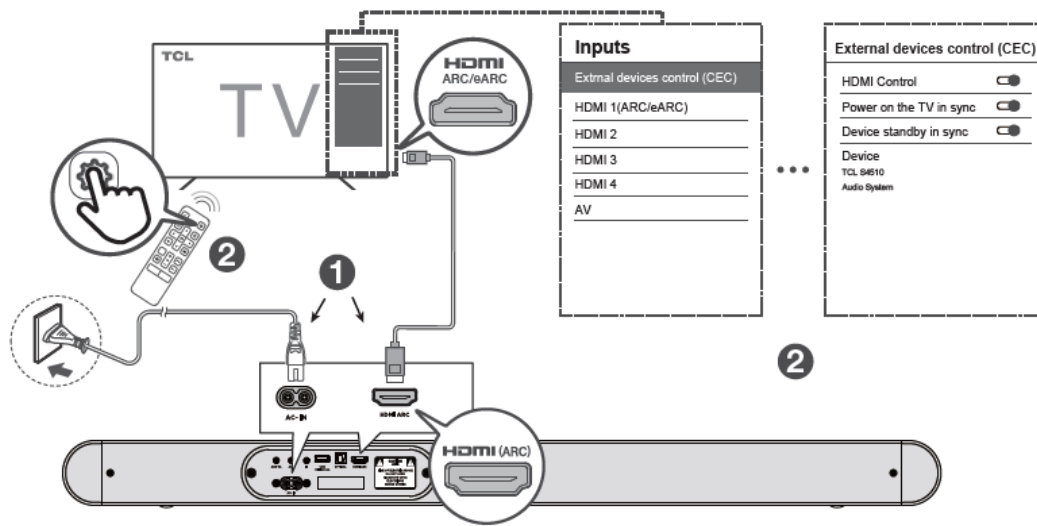

HDMI-ARC

Connect the Sound Bar to your TV with the included HDMI cable.
Connect the Sound Bar to the power outlet with the included power cord.

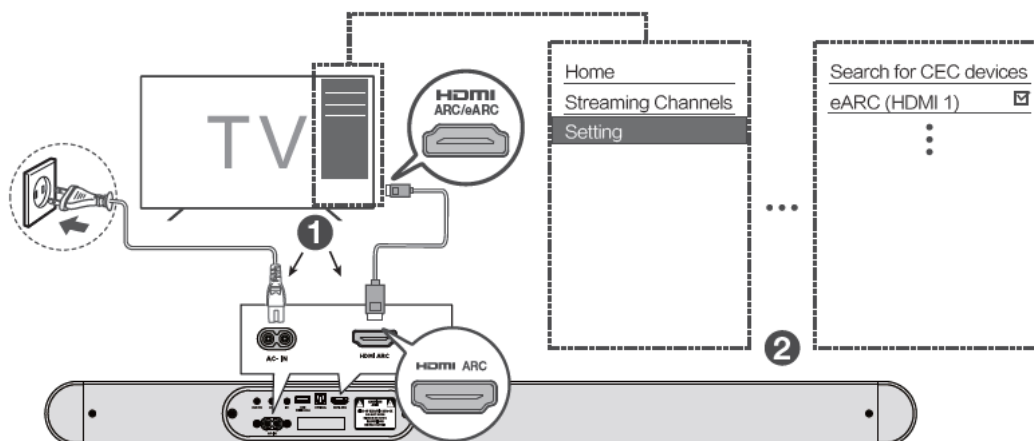

Enable the CEC function on TCL TV

1. Connect the HDMI cable from the HDMI (ARC) interface on the sound bar to the HDMI (ARC/eARC) interface on the TV.
2. Enable the CEC function in the settings of the TCL TV. (See TV User Manual for instructions)

Enable CEC function on other brand TV

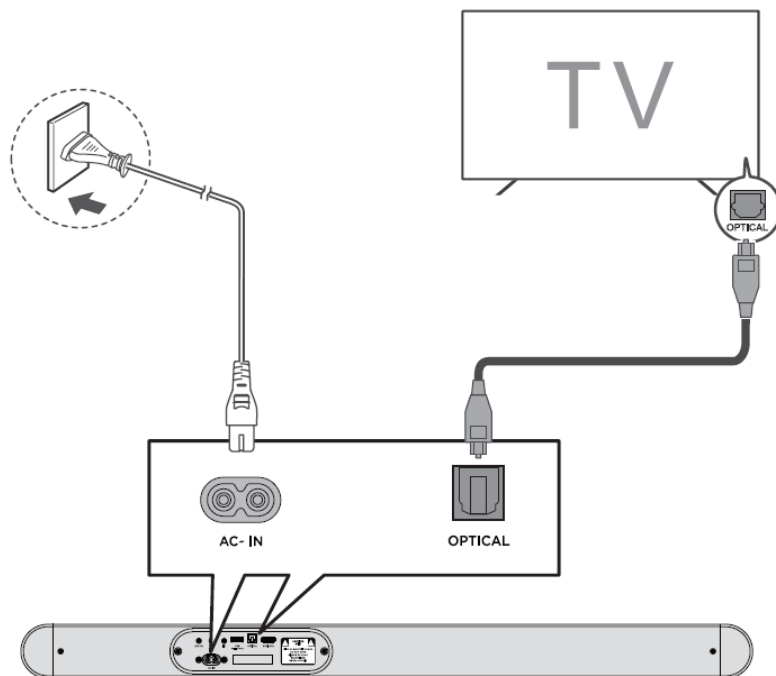

1. Connect the HDMI cable from the HDMI (ARC) interface on the sound bar to the HDMI (ARC/eARC) interface on the TV.
2. Enable the CEC function in the settings of the TV.

Note:

CEC (Consumer Electronic Control) function naming may differ by the TV manufacturer. This feature may be called CEC, Anynet+, SimLink, BRAVIA Link, EasyLink, or VIERA Link. Please see your TV's user manual for more information.

Optical

- Connect the Sound Bar to the TV with an Optical cable.
- Connect the Sound Bar to the power outlet with the included power cord.

Warning:

Do not bend or kink the optical cable (SPDIF) as it is fragile and can easily get damaged and broken.

Pair with your Bluetooth device

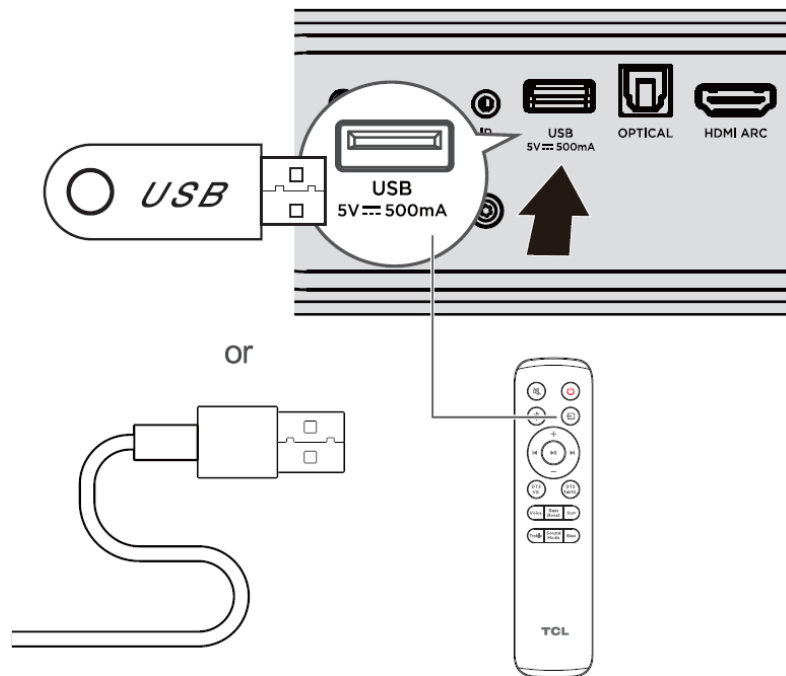

You can stream music from your mobile device via Bluetooth.

1. Press .
2. Press .
3. Press and hold  on the remote control or press and  hold on your sound bar.
 - > You will see blue LEDs flashing rapidly.
 - > The Sound Bar is ready to pair.
4. Power on your Bluetooth device and activate its Bluetooth function.
5. Select **TCL S4510**.
 - > You will see the blue light on for 3 seconds.
 - > Pairing is successful.
6. If you want to pair another device, please repeat step 3.

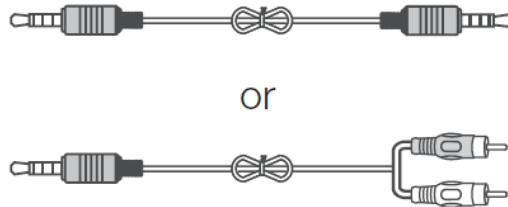

Other connections

Other connections- USB

Supported audio files: MP3, WMA, FLAC, WAV.

Other connections- AUX

Cables are not included

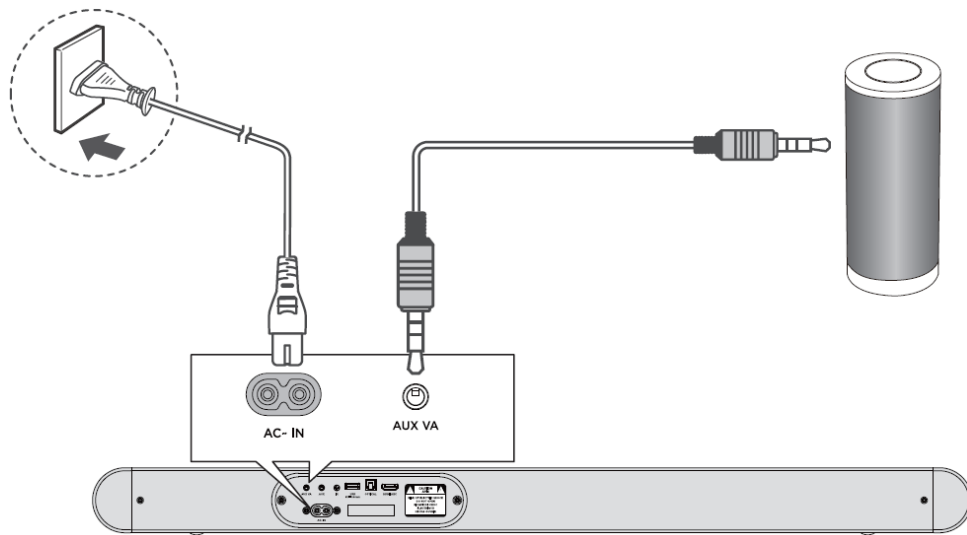

Other connections – AUX VA

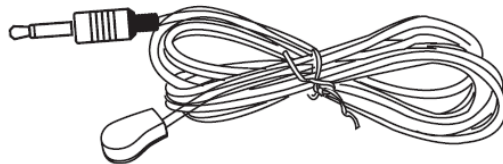

Your sound bar can connect to a **Voice Assistant (VA)** device through an AUX VA connection. Once connected, your sound bar will now act as the VA speaker.

Features and Benefits

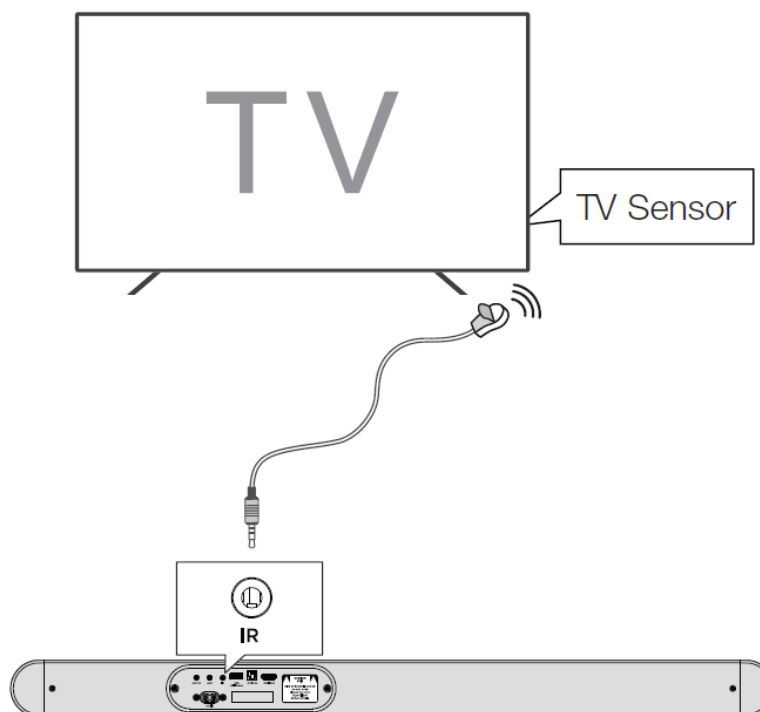

1. **Voice Assistant Dedicated Input:** VA is active on the sound bar even if the sound bar is set to a different input with audio playing.
2. **Auto Muting:** If playing audio from the sound bar, the VA will play over the original source audio for 10 seconds. If continued after 10 seconds, the VA audio will mute the original source audio. Once the VA audio is stopped the original source audio will resume.
3. If you wish to disable Aux VA features, you can long press the  button. Now you can use the Aux VA port as a standard Aux port for additional connections.

IR Pass-through

If the sound bar blocks the IR receiver of the TV when placed directly in front of it. You can use the included IR pass-through cable to send IR commands to your TV using the soundbar. First, connect one end of the IR pass-through cable to the IR connector on your sound bar. Next, place the other end with the IR blaster close to the TV's IR receiver.

FAQ's

What is the TCL S4510 5.1 Channel Sound Bar with Wireless Subwoofer?

The TCL S4510 is a 5.1 channel sound bar system with a wireless subwoofer. It is designed to enhance the audio experience of your TV or home entertainment setup by providing immersive sound and powerful bass.

How many channels does the TCL S4510 sound bar have?

The TCL S4510 sound bar has a total of 5.1 channels. This means it consists of a central sound bar and a wireless subwoofer, along with two front speakers, two surround speakers, and a center channel speaker.

Is the subwoofer wireless?

Yes, the TCL S4510 sound bar comes with a wireless subwoofer. This allows for flexible placement options without the need for physical connections between the sound bar and the subwoofer.

What is the power output of the TCL S4510 sound bar?

The power output of the TCL S4510 sound bar is typically mentioned in terms of RMS (Root Mean Square). While specific power output details may vary, it generally delivers sufficient power to provide a rich and immersive audio experience.

Does the TCL S4510 sound bar support Bluetooth connectivity?

Yes, the TCL S4510 sound bar supports Bluetooth connectivity. This enables wireless streaming of audio from compatible devices, such as smartphones, tablets, or computers, allowing you to enjoy your favorite music or podcasts without physical connections.

Can the TCL S4510 sound bar be wall-mounted?

Yes, the TCL S4510 sound bar can be wall-mounted if desired. It typically comes with the necessary hardware and brackets for easy and secure installation on the wall.

What audio formats does the TCL S4510 sound bar support?

The TCL S4510 sound bar supports various audio formats, including Dolby Digital and DTS. These formats help to deliver immersive surround sound and ensure compatibility with a wide range of media sources.

Does the TCL S4510 sound bar have HDMI ports?

Yes, the TCL S4510 sound bar is equipped with HDMI ports. This allows for convenient connectivity with your TV or other HDMI-enabled devices, providing a seamless audio experience.

Is a remote control included with the TCL S4510 sound bar?

Yes, a remote control is usually included with the TCL S4510 sound bar. It provides convenient control over the sound bar's settings, volume, audio modes, and other features without the need to manually adjust the settings on the sound bar itself.

Can the TCL S4510 sound bar be used with a universal remote control?

Yes, the TCL S4510 sound bar can be programmed to work with a universal remote control. This allows you to consolidate control of your sound bar, TV, and other devices into a single remote for added convenience.

Does the TCL S4510 sound bar support voice control?

The TCL S4510 sound bar may or may not support voice control, depending on the specific model and features. Some models may be compatible with popular voice assistants like Google Assistant or Amazon Alexa, allowing you to control the sound bar using voice commands.

Can the TCL S4510 sound bar be used with TVs from other brands?

Yes, the TCL S4510 sound bar can be used with TVs from other brands. It is designed to be compatible with various TV models and can enhance the audio experience regardless of the TV brand you own.
