## FAQ

### Does this Sound Bar work with any TV?

Yes, the Sound Bar is compatible with any IV that has one of the ports below:

1. HDMI supporting ARC/eARC (preferred)
2. Optical audio output (fOSLink)

### When the Sound Bar and TV are both on, there is an echo effect.

If you use HDMI-ARC connection, please check if the HDMI-CEC feature of your IV is turned on. This feature may be called CEC, Anynet+, Simplink, BRAVIA Link, Easylink or VIERA Link\*. If using optical connection, simply mute the IV speaker.

### How many sound modes are available?

Four sound modes – Movie, Music, IV and Night.

### What are the subwoofer LED indicator status during pairing?

- Standby mode: flashes slowly.
- Pairing: flashes quickly.
- Paired: on solidly.

### What's PASS THROUGH?

Pass through function equals to the extending of HDMI IN, which switches on/off singular source of sound passing through from the Audio / Vision device to the IV.
