Z100-SW

Wireless Subwoofer Quick Start Guide

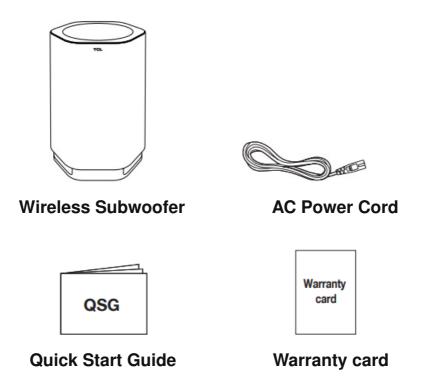

Make sure you read all the safety information before you use this product.

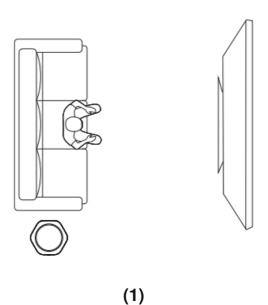

User Manual can be found at www.tcl.com on the specific product page in the "Download" section.

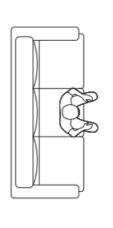

⚠Warning:

To avoid the danger of suffocation, keep plastic packaging away from pets, babies, and children. Do not use packaging bags in cribs, beds, carriages, or playpens.

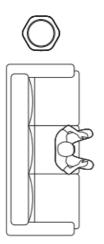

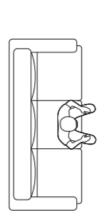

(2)

(3)

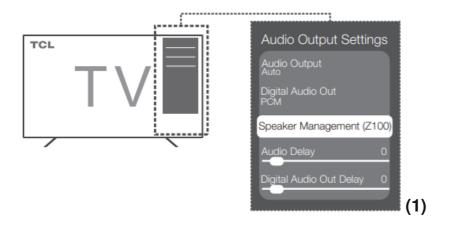

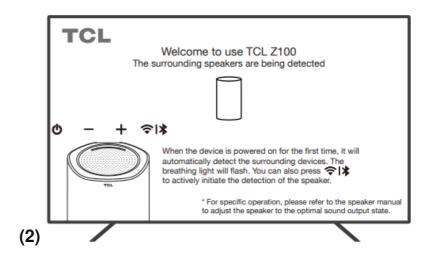

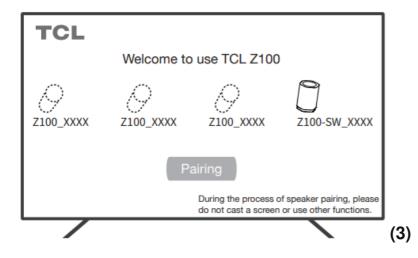

(4)

Method 1: When the product is started for the first time, it will automatically enter the pairing mode. The TV terminal needs to open the specified page to discover the list of speakers.

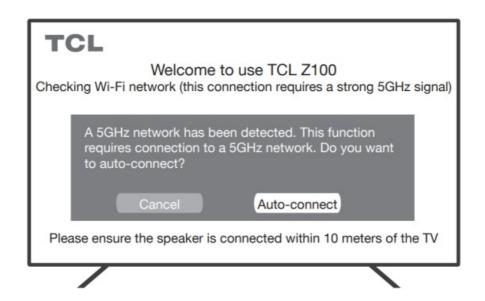

The path of the specified page: All Settings > Display and Sound > Audio Output Settings > Speaker Management (Z100) (> Pair and Manage > Add New Device) (The path may vary depending on the specific model of the television.)

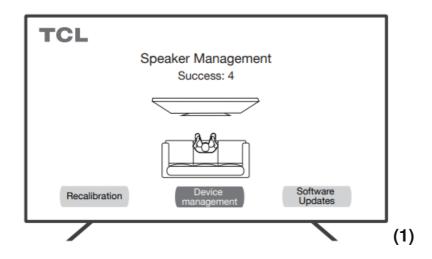

Method 2: Press and hold for 3 seconds to enter pairing mode with the TV.

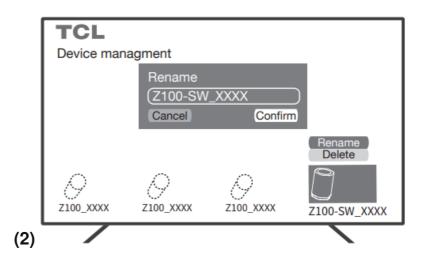

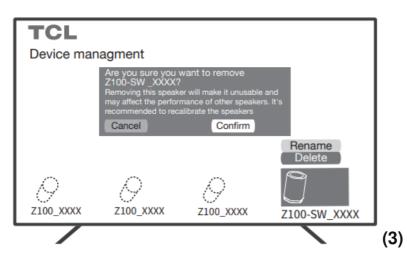

Click "Sound" -> "Speaker Management".

* TV related schematic diagram. The actual TV interface display shall prevail.

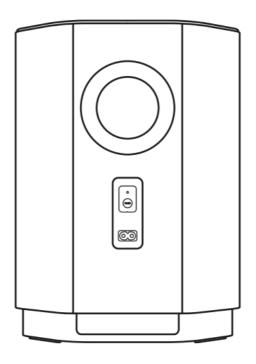

When the subwoofer is powered on for the first time and has no previous pairing record, it will automatically enter pairing mode. A pairing prompt will appear on the TV. Select "Connect" to complete the setup. Once connected and calibrated, the subwoofer is ready to use. If pairing fails or needs to be redone, follow the steps below:

- 1. Press and hold the button on the subwoofer for 3 seconds until the orange indicator starts flashing rapidly. This indicates that the subwoofer has entered pairing mode. (If no device is connected within 180 seconds, the light will turn off and pairing mode will end automatically.)
- 2. When the orange LED stays on for 2.5 seconds and then fades out for 0.5 seconds, the subwoofer is successfully connected to the TV.
- 3. When the orange LED fades in and out 5 times over 5 seconds, the subwoofer will be disconnected from the TV.

Important safety instructions

Make sure you read all the safety information before you use this product.

TCL North America bears no responsibility for accidents or damages caused by unauthorized changes, modifications or improper use of the product.

User Manual can be found at <u>www.tcl.com</u> on the specific product page in the "Download" section.

CAUTION

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COV ER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE.

REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

This symbol indicates that this product incorporates double insulation between hazardous main voltage and user accessible parts. When servicing, use only identical replacement parts.

Warnings

- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. This product should not be exposed to dripping or splashing. No objects filled with liquids, such as vases, should be placed on or near the product.
- To avoid danger of suffocation, keep this plastic bag away from babies and children.
 Do not use this bag in cribs, beds, carriages or playpens. This bag is not a toy.

Safety

- Read these instructions Read all the safety and operating instructions before operating the product.
- Retain these instructions Retain the safety and operating instructions for future reference.
- Heed all warnings Adhere to all warnings on the product and in the operating instructions.
- Follow all instructions Follow all operating and use instructions.
- Do not use this apparatus near water The appliance should not be used near
 water or moisture for example, in a wet basement or near a swimming pool and the
 like.
- Clean only with a dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- **Do not install near any heat sources** such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

- Do not defeat the safety purpose of the polarized or grounding-type plug. A
 polarized plug has two blades with one wider than the other. A grounding type plug
 has two blades and a third grounding prong. The wide blade or the third prong are
 provided for your safety. If the provided plug does not fit into your outlet, consult an
 electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where it exits from the product. If the cord set is damaged, it must be replaced by a special cord set available from the manufacturer or its service agent.
- Use only attachments/accessories specified by the manufacturer.
- **Use only with the cart**, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the
 apparatus has been damaged in any way, such as power-supply cord or plug
 damaged, liquid has been spilled or objects have fallen into the apparatus, the
 apparatus has been exposed to rain or moisture, does not operate normally, or has
 been dropped.
- The user must maintain a minimum distance of 20CM from the device at all time.
- This appliance is not intended for use by young children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.

Cautions

- To prevent electric shock, match wide blade of plug to wide slot, fully insert.
- Do not place any sources of danger on the product (for example: liquid filled objects, lighted candles).

- Disconnect the power cord to shut off when find trouble or not in use. The power cord shall be readily operable.
- Use of controls or adjustments or performance of procedures other than those described herein, may result in hazardous radiation exposure or other unsafe operation.
- The power cord/appliance coupler is used as the disconnect device, the disconnect device must remain readily operable.
- The rating label is located at the bottom or back of the product.
- The use of apparatus in tropical and moderate climates.

Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This product may contain lead and mercury. Disposal of these materials may be regulated due to environmental considerations. For disposal or recycling information, please contact your local authorities.

Compliance notice

Notice for US

FCC Information

Warning

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed

and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter

Notice for Canada

Class B Clause

This Class B digital apparatus complies with Canadian ICES-003

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.

2. This device must accept any interference, including interference that may cause

undesired operation of the device.

Radiation Exposure Statement

This equipment complies with IC radiation exposure limits set forth for an uncontrolled

environment. This equipment should be installed and operated with minimum distance

20cm between the radiator & your body.

Warning: The user is cautioned that changes or modifications not expressly approved

by the party responsible for compliance could void the user's authority to operate the

equipment.

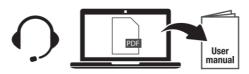

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the

potential for harmful interference to co-channel mobile satellite systems.
