**Introduction**

This guide provides you with step-by-step instructions on how to log in to Self Service as an administrator user and configure AD integration. Once you have followed the guide, you will have accomplished the following:

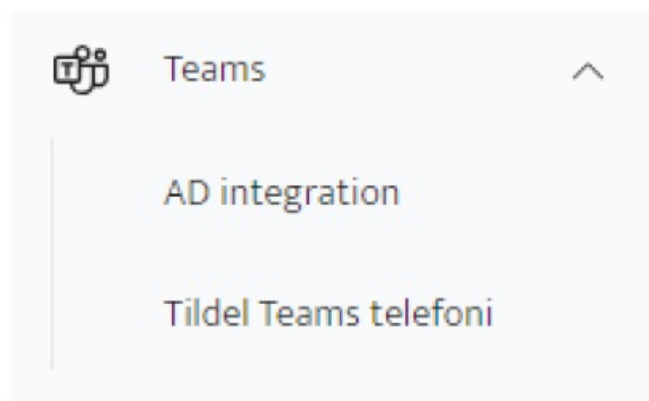

1. Logged in to Self Service as an administrator and navigated to “Phone solution” in the left menu.
2. Clicked on “AD integration”.
3. Completed the steps for Azure app configuration, including entering the domain and Tenant ID.
4. Completed the steps for Graph App, where you entered the Client ID, Client Secret, and expiration date.
5. Configured the TDC Business App by entering the App URL, App key, and an email address for app update notifications.
6. Selected an AD group, such as Selfservice end-users, and clicked “Continue”.

**Instructions**

- Once you have followed these steps correctly, you should see a confirmation on your screen indicating that the configuration has been successfully completed. Integration with Self Service Log in to Self Service with an administrator user. In the menu on the left, find and click on Phone solution.

- Click on AD integration.

### Step 1: Azure app

- The first thing you need to do is enter your [onmicrosoft.com](https://onmicrosoft.com) domain in the top field. In this example, it is: [bluetest7.onmicrosoft.com](https://bluetest7.onmicrosoft.com).
- **Note:** You only need to enter what is before “. [onmicrosoft.com](https://onmicrosoft.com) “. Next, enter the Tenant ID. In this example, it is: 6d82abbb-f82c-436d-a17e-4df27f1bda55.
- Now click on Continue at the bottom right.

### Step 2: Graph App

Now you have to fill out Client ID and Client Secret. Following is used in the example below:

- Client ID: 0ce4a48b-f264-4e22-9e92-bd8c138a28ba
- Client Secret: fhb8Q~a5BzGXBlXb5sgzOU44gG3qiRM44jgMb9L
- The expiration date is set to 10/1/2025, as it matches our Azure.
- Now click on “Continue”.
