TECH FC-S1p Wired Temperature Sensor

Product Information

Specifications:

- **Product Name:** FC-S1p
- **Temperature Measurement Range:** 60 mm
- **Measurement Error:** 60 mm

Product Usage Instructions

Installation:

The FC-S1p sensor is an NTC 10K temperature sensor designed to work with Sinum system devices. It is installed in an electrical cabinet with a diameter of 60 mm.

Temperature Measurement:

The sensor measures temperature within the specified range with the provided accuracy.

Disposal:

The product should not be disposed of in household waste containers. Users are required to take their used equipment to a collection point for proper recycling of electric and electronic components.

FAQ

- **Q: What is the temperature measurement range of the FC-S1p sensor?**

A: The temperature measurement range of the FC-S1p sensor is 60 mm.

- **Q: How should I dispose of the product?**

A: The product should not be thrown into household waste containers. Please take it to a collection point for recycling of electric and electronic components.

Introduction

The FC-S1p sensor is an NTC 10K Ω temperature sensor designed to work with Sinum system devices. It is flush mounted in a $\varnothing 60$ mm electrical box.

Technical Data

- **Temperature measurement range** $-30 \div 50^{\circ}\text{C}$
- **Measurement error** $\pm 0,5^{\circ}\text{C}$

Dimension

Wiring

Important Notes

- TECH Controllers is not responsible for any damages resulting from improper use of the system. The manufacturer reserves the right to improve devices and update software and related documentation. The graphics are provided for illustration purposes only and may differ slightly from the actual look. The diagrams

serve as examples. All changes are updated on an ongoing basis on the manufacturer's website.

- Before using the device for the first time, read the following regulations carefully. Not obeying these instructions may lead to personal injuries or controller damage. The device should be installed by a qualified person. It is not intended to be operated by children. Make sure the device is disconnected from the mains before performing any activities involving the power supply (plugging cables, installing the device, etc.). The device is not water resistant.
- The product may not be disposed of in household waste containers. The user is obliged to transfer their used equipment to a collection point where all electric and electronic components will be recycled.
