TECHly IUSB31C-DOCK12DPHD USB-C 12-In-1 Docking Station

The number of interfaces combined with the actual products will be different, but the functions are the same

Note:

- For charging function, your device must support Power Delivery (PD) or Thunderbolt-3/4.
- For video output, the laptop must support DP ALT mode on the USB-C™ port
- MST technology supports for simultaneous use up to three monitors, for connecting it must be used only passive VGA/HDMI cables (without chipset / signal converter).
- The MST function depends on the graphics card, operating system and monitor used

SPECIFICATION

Features may vary base on the hardware and operating system specifications of the computer connected to the docking station

OPERATION

- Switch on the computer
- Connect the docking station to USB-C™ port, the computer will automatically recognise the product
- The product is Plug-and-Play, no need to install drivers and setting
- Plug the devices you need to the ports of the docking station one after the other
- When using the product, please connect the charger. During the use if the device connected to the product will be disconnected the data will be lost. The connection will be restored after few seconds

- USB ports are recommended for data transmission and should not be used as an output current unless the computer or hub is connected to the power supply
- SD card and TF card cannot use at the same time
- When reading large capacity portable hard disk, please connect PD charging
- When using the same screen function, HDMI interface supports 4K and VGA interface supports 1080P. When connecting two video output interfaces at the same time the resolution is 1080P for both

INTENDED USE

We do not permit using the device in other ways like described in this user's manual. Use the product only in dry interior rooms. Not attending to these regulations and safety instruction might cause fatal accidents, injuries, and damages to persons and property. The manufacturer/ supplier assumes no liability for damages caused by failure to comply with the intended use

SAFETY INDICATIONS

- Your product is not a toy and is not meant for children, because it contains small parts which can be swallowed and can injure when used inappropriately!
- Please install the system and devices attached to it in a way that persons cannot be injured, or objects not be damaged for example by dropping or stumbling.
- Please remove the packing materials, because children may cut themselves on them while playing.
- Avoid places with high temperatures, or humidity, or places which might come into contact with water. Do not install the product close to openings of air conditioners, or at places with an excessive amount of dust or smoke.
- Do not install the product at places subject to vibration or oscillation
- Do not modify and alter the product and any accessories! Do not use any damaged parts.
- Keep enough space around all devices for a good ventilation and free motion and to avoid damages

In compliance with EU Directive WEEE this product is marked with this symbol. It means that used electrical and electronic products should not be mixed with general household waste. There is a separate collections system for these products in compliance with WEEE directive, otherwise contaminative and hazardous substances can pollute the environment.

With the CE sign, Techly® ensures that the product is conformed to the basic European standards and directives.
