Description: Wireless mouse

We, Techmade s.r.l. We declare under our sole responsibility that our wireless mouse to which this document refers, complies with the following standards and / or other regulatory documents.

Health EMC
EN 62479:2010
EN 301 489-1 V2.2.3
EN 301489-17V3.2.3
EN 55032:2015
EN 55035:2017
EN61000-3-2:2014
EN61000-3-3:2013

ETSI Security
EN 300 328 V2.2.2

We hereby declare that all essential test series have been carried out, and that the aforementioned product complies with all the essential requirements of the RED 2014/53/EU, EMC 2014/30/EU, LVD 2014/35/EU, RoHS 2011/65/EU plus RoHS amendment (EU) 2015/863

Warnings

Manufacturer/ Importer: TECHMADE SRL

Product Code: TM-MUSWN4B

Description: Wireless Mouse

Rif: TM-XJ28 F.C:XJ28

Temperature: -10 ° C to 60 ° C

Trademark: Techmade

Read carefully and keep. All series of essential tests have been carried out and the aforementioned product complies with all the requirements established by law.

This device complies with the essential requirements and other relevant provisions of the RED 2014/53/EU Directive. All essential radio test series have been performed.

DEFINITION OF LIMITS

Limits in intended use or foreseeable misuse:

1. Do not disassemble the device. If repair is needed, contact a Techmade sales center or service.
2. Keep away from heat sources such as radiators or kitchens.
3. Do not charge the device near flammable materials, which could catch fire due to the heat developed by the device.
4. Do not use the device in wet or oily environments.
5. The appliance must not be exposed to dripping or splashing and objects filled with liquids, such as vases, should not be placed on it.
6. Do not place the unit near water sources, such as sinks, bathtubs, washing machines or swimming pools.
Make sure the unit is placed on a dry and stable surface.

Identification of the characteristics of the personnel who will use the machine (physical, competence) and level of training required for users:

No special training for use. Read the user manual.

Product warranty:

24 month guarantee for final consumer and 12 months for professional operator. Opening or attempting to open the product will void the warranty and may pose a danger to the safety.

Security related:

Handle the device with delicacy.

Protect the device from bumps and falls.

Environmental (temperature, humidity):

Working temperatures: from -10 ° C (14 F) to 60 ° C (140 F).

Cleaning level:

Do not try to clean the unit with chemical solvents, you could damage the finish.
Rub with a clean, dry or slightly moistened cloth.

Drying:

Do not attempt to dry the product using a microwave oven, traditional oven or hairdryer. Use a dry cloth or a mild detergent.

Disposal:

Do not dispose of the device in fire.

WEEE INSTRUCTIONS

The European directive 2012/19/EU on waste electrical and electronic equipment (WEEE) provides that these appliances must not be disposed of in the normal municipal solid waste stream, but that they are collected separately to optimize the recovery and recycling flow of materials that compose them and prevent potential damage to health and the environment due to the presence of potentially dangerous substances.

The symbol of the crossed-out bin is shown on all products to remember it.

The waste can be sent to the appropriate collection centers, or, can be delivered free of charge to the distributor when purchasing new equivalent equipment or without the obligation to purchase for equipment smaller than 25cm.

For further information on the correct disposal of these devices, please contact the public service in charge.
