- **Buttons:** Power, Sleep, Tuner/Band, Auto/Mono, CD Play, Recharge, Pre Ch, Guide, Yellow Play, Pause, Stop, Program Cancel, Deck 1/2, Rec Pause, Flat EQ, Space Balance, R Balance L, Exit, Blue, Right, Left, Ok, Options, Dual, Ch +, Ch -, Vol +, Vol Mute

Product Usage Instructions

• Power and Sleep Functions

To turn on the device, press the Power button. To put the device into sleep mode, press the Sleep button.

• Tuner and Band Selection

Use the Tuner/Band button to switch between different radio bands and modes such as Auto and Mono.

• CD Playback

Use the numbered buttons (1-0) to enter the desired track number. Press the +10 button followed by the

desired single-digit track number for tracks above 9. Press the CD Play button to start playback.

- **Recharging**

If your device supports recharging, use the Recharge button to initiate the recharging process.

- **Program Playback**

Press the Program Cancel button to clear any previously programmed tracks. Use the Deck 1/2 buttons to select the desired deck. Press the > or < buttons to navigate through tracks. Press the Stop button to stop playback.

- **Recording**

Press the Rec button to start recording. Use the Pause button to pause recording temporarily.

- **Equalizer and Balance**

Use the Flat EQ button to reset the equalizer settings. The Space Balance, R Balance L buttons can be used to adjust the sound balance.

- **Additional Functions**

Explore additional functions such as Shift, Exit, Blue, Right, Left, Ok, Options, Dual, Ch +, Ch -, Vol +, and Vol Mute for more control over your Technics audio device.
