ASSEMBLY STEPS

STEP 1

Carefully remove the Desk (A) from the packaging.

Place the Desk (A) upside down on a protective surface and use a scissors to cut the shipping ties.

STEP 2

Flip the Desk (A) upright.

Pull up on the Lever to raise the Desk (A) to its highest position.

STEP 3

3.1 Attach the Keyboard Stop (G) to the bottom of Keyboard Tray (D) using M5x12mm Flathead Screws (S-A) and a Phillips screwdriver.

3.2 Attach the Left Bracket (B) and the Right Bracket (C) to the bottom of Keyboard Tray (D) using M5x12mm Flathead Screws (S-A) ensuring the Brackets are extending outwards. Tighten using a Phillips screwdriver.

3.3 Remove the adhesive backing from Pads (F) and apply to the underside corners of Keyboard Tray (D) as shown.

STEP 4

Attach the Keyboard Tray Assembly to the Desk (A) using M5x12mm Roundhead Screws (S-B) and a Phillips screwdriver.

STEP 5

Place devices onto the Desk (A).

STEP 6

Organize cables using the Cable Ties (E).

Tension Adjustment

Why Is My Riser So Hard/Easy To Raise?

If your desk riser lifts up or down too easily, or is too difficult, the gas spring cable can be adjusted to your desired tension.

The adjustment is located at the base of your riser.

Start by loosening the Upper (1) and Lower (2) Nuts using an adjustable wrench. Loosen Nuts until they are both on the opposite ends of the Gas Spring Cable.

1. Desk Is Difficult to Raise/Lower [How to Increase Tension]

If the desk feels difficult to raise and lower, you will need to increase the Gas Spring Cable tension. Gently pull the cable upwards until the Lower Nut (2) is firmly pressed against the middle divider.

Tighten Upper Nut (1) until it firmly holds the cable in its position, as shown below.

2. Desk Raises/Lowers Too Easily [How to Decrease Tension]

If the desk is raising or lowering without the handle being pressed, the tension will need loosened. Gently push the cable downwards until the Upper Nut (1) is firmly pressed against the middle divider.

Tighten Lower Nut (2) until it firmly holds the cable in its position, as shown below.
