Specifications

Wireless Protocol: AVRCP, A2DP, HFP

Output: 3.5mm AudioCharging Port: USB-C

. Support TF card capacity: ≤32G

Support TF card format: MP3, FLAC, WMA, WAV, APE

• Frequency Range: 2.402GHz-2.480GHz

• Frequency Response: 10Hz-20kHz

SNR: >90dBCodes: SBC

· Battery: Lithium Polymer Battery

Battery Capacity: 200mAh 3.7V(0.74Wh)

Charging Limited Voltage: 5.25VCharging Time: About 1 Hours

• Runtime: TX Mode: About 6 Hours

RX Mode: About 7 Hours

• Transmission Distance: 10m/32ft (No Blocking)

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF exposure statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Warnings

- 1. If the battery level of the product is low before storing it, please charge it in time
- 2. When using the product after storing it for a long time, please charge it for 30 mins first, then turn it on to

activate the indicator.

- 3. The product contains Li-po battery, please do not dismantle, crush, or expose it to fire.
- 4. Stop using when it is swollen.
- 5. Do not expose it to extreme temperatures.
- 6. Stop using when the battery is submerged.

Information to User

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.
