tedee PRO

Weight	213g	196 g
Dimension	Ø 57mm x 63mm	Ø 45mm x 55mm
Installation method	Mount on an existing European cylinder and key. No extra hardware needed.	Compatible European cylinder or adapter for European or Scandinavian locks.
Power supply	Replaceable three CR123A/R batteries	Built-in rechargeable 3000mAh LiPo accumulator
Battery life with up to 8 uses per day	Up to 9 months	Up to 14 months

* Tedee GO can always be installed on the inward-opening doors. It is not compatible with outward-opening doors if their width is less than 90 cm and the mortise lock backset (the distance between the cylinder axis and the lock front) is less than 50 mm. The cylinder must have an emergency feature (it can rotate with keys inserted on both sides).

No more replacing cylinders

Smart start in three steps

	
Insert your key into the cylinder	Slide Tedee GO on your key, fitting the lock's base
