Teendow D20S Max+ Robot Vacuum and Mop

PRODUCT DESCRIPTION

- [360° LiDAR Navigation]: Teendow robot vacuum with mapping technology. LiDAR navigation creates accurate maps, and L9000 can save up to 5 maps. You can customize the cleaning schedule for different floors according to your own needs, avoiding repeating the mapping process every time you change floors.
- [2 in 1 Sweeping & Mopping]: L9000 robot vacuum and mop combo adopts the newest mopping technology, equipped with an electronically controlled water pump and adjustable 3-level water output, you can get to enjoy a completely clean home.(Dust bin:300ML, water tank:250ML)
- [6000Pa Strong Suction]: Compared with other robotics, its powerful 4000Pa suction makes clean-up easier for this robot vacuum. Vacuum up crumbs, from carpet fibers all in a single pass. Suitable for hard floors, tiles, wooden floors, and low-pile carpets.

- [150Min Runtime & Self-Charging]: Larger battery capability can support 150 minutes when in quiet mode, it sets multiple protections for the battery to ensure that the product is safe and durable, and It will auto return to the charging station once the battery is Low.
- [Convenient APP/Voice Control]: Customize your cleaning via the Tuya Smart App by selecting cleaning modes, switching the suction/ water outlet level, cleaning certain rooms, setting a virtual wall, and placing a no-go zone. It also can connect to Alexa (Only support 2.4Ghz wifi).
- [14 No-go Zones & Sensor Technology]: The robotic vacuum cleaner can set 14 no-go zones for carpet/pet area, and give you the smart cleaning you really want. The Improved sensors help the robot avoid obstacles andfor steep drops.

OVERVIEW

More Than a Robot Vacuum

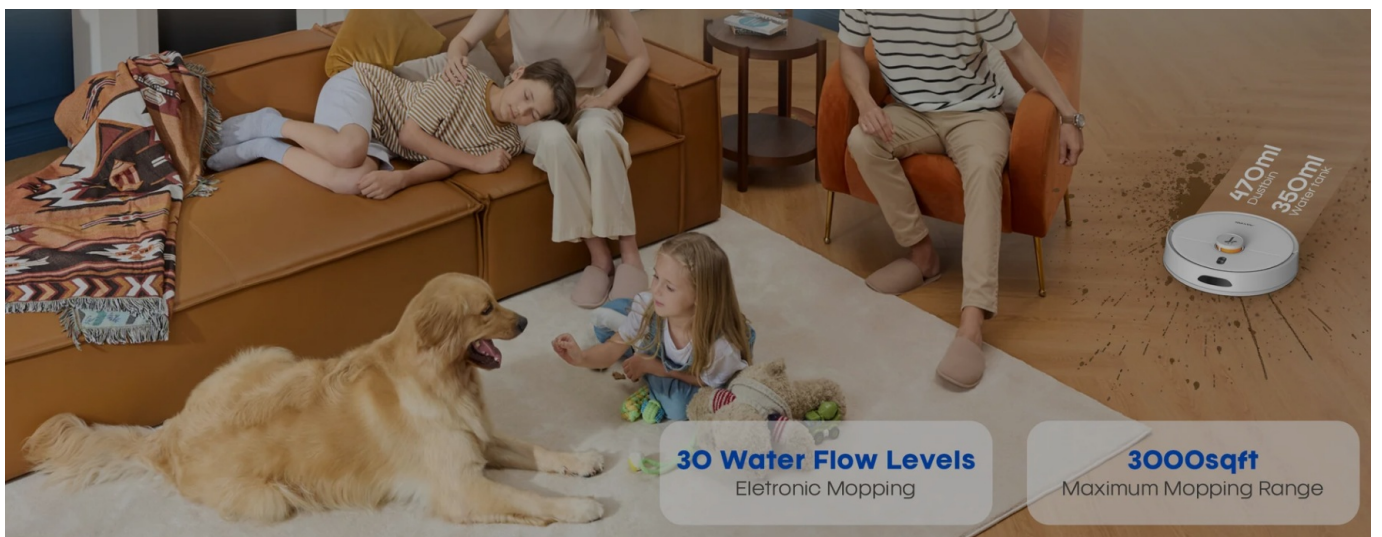

Up to 70 Days Without Empty

HANDS-FREE CLEANING 3.0L DUST BAG STORES UP TO 70 DAYS OF DIRT AND DEBRIS

Sweep and Mop. All IN ONE

Precisense Precision LiDAR

Reactive 3D Obstacle Avoidance

Recognize and navigate around typical obstacles like scales, shoes, cables, and pet waste on floors in both well-lit and dimly-lit environments.

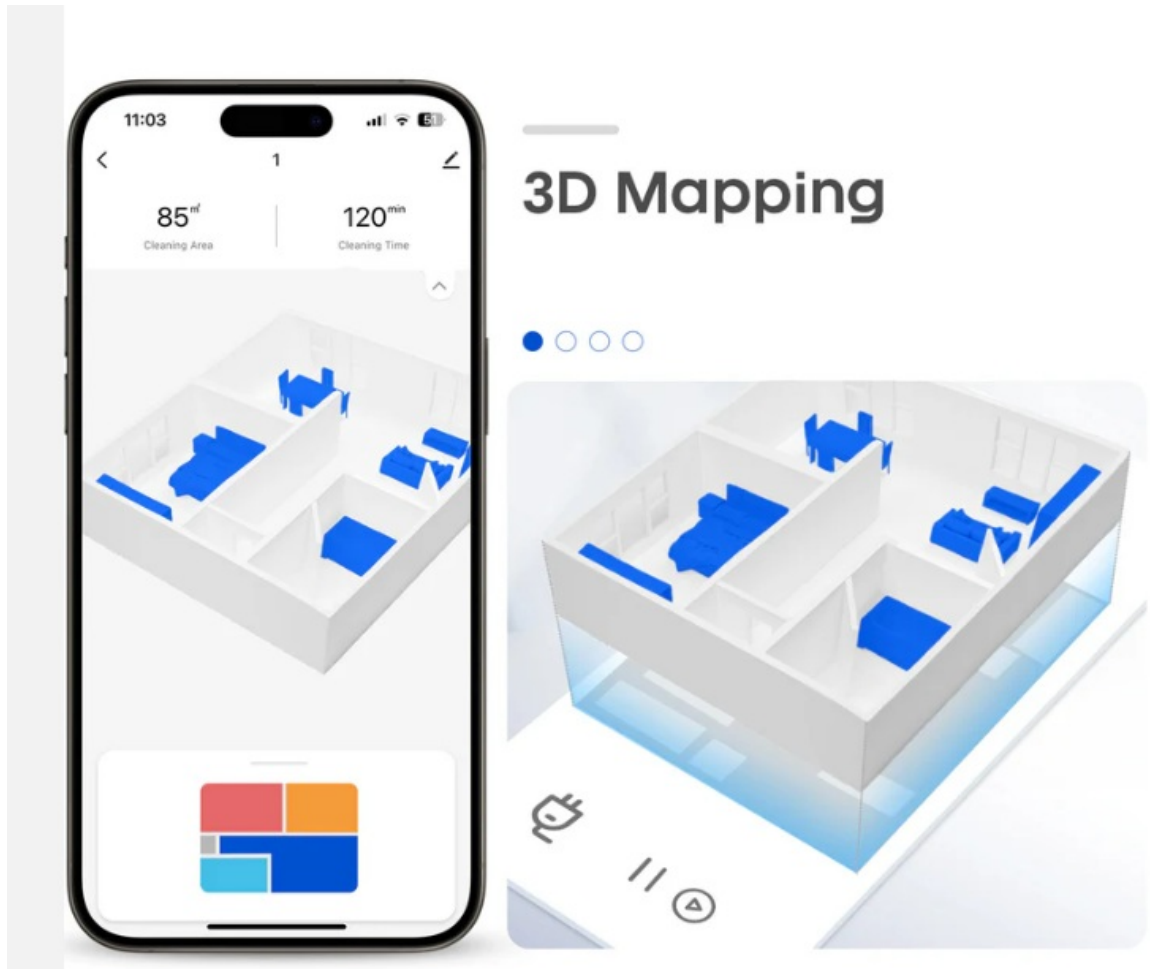

Smarter Than You Think

- **3D Mapping**

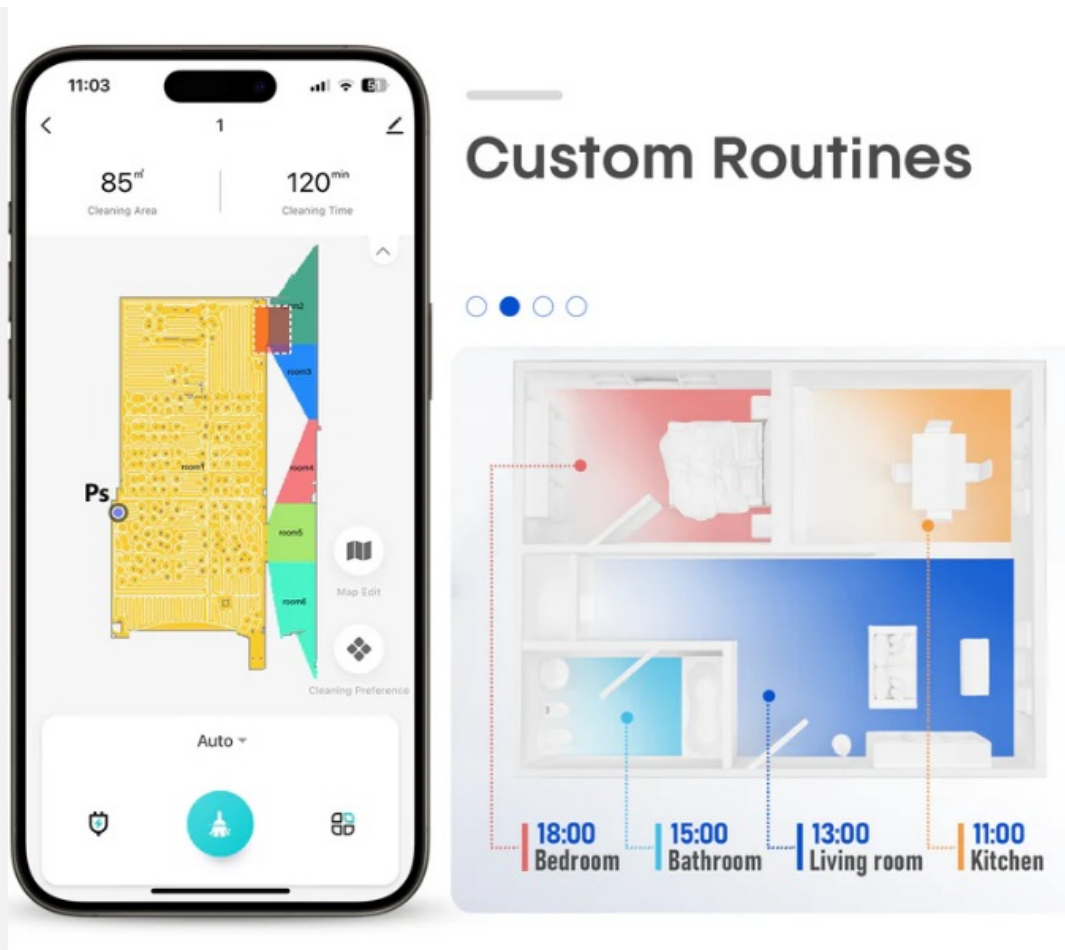

- Gain a new perspective on your home and understand your layout better with 3D

Mapping. You can also include furniture and flooring to create a virtual replica of your space.

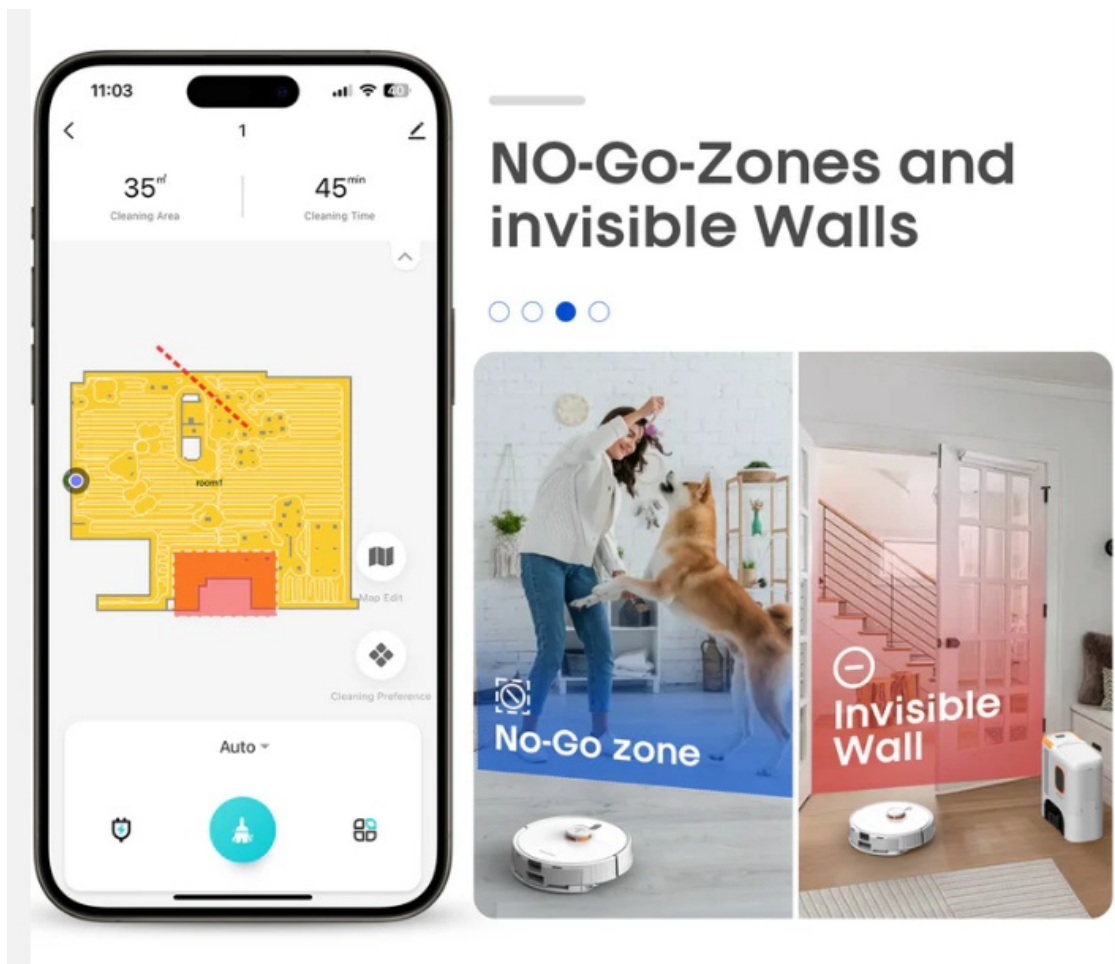

- **Custom Routines**

- Do you cook often, have messy kids or pets, or frequently need to do one-time cleanups? Now you can set up a Routine for these common but irregular tasks. Choose a time, cleaning mode, and the room(s) you need, and it will automatically repeat.

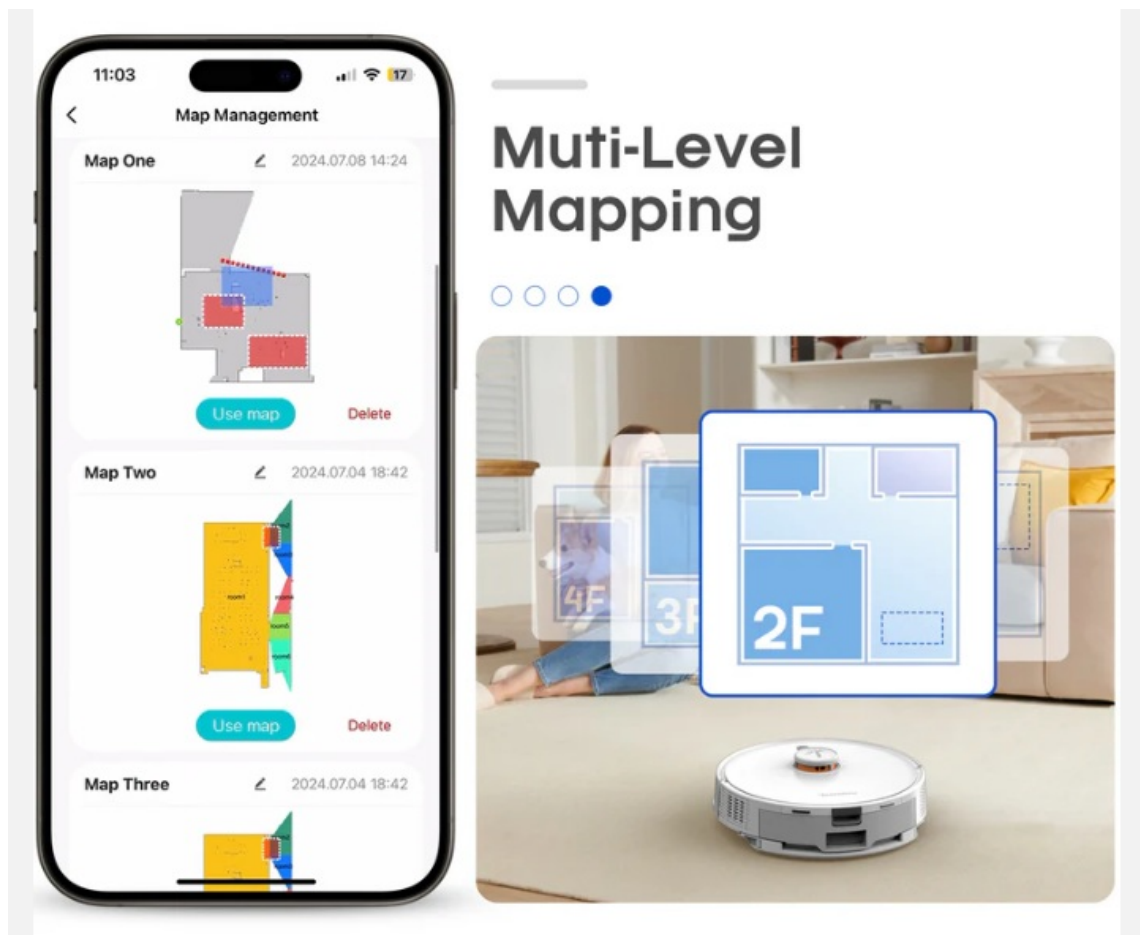

- **NO-GO-Zooms**

- No-Go Zones mark areas where the robot is not allowed to enter, while Invisible Walls create barriers to block off specific rooms and corners. You can set up to 10 No-Go Zones and 10 Invisible Walls on each level of your home. 40

- **Muti-Levels Mapping**

- Many homes have more than one floor. Multi-level mapping systems can automatically detect and differentiate between the various floors in your home. Simply place the robot on the floor, and it will do the rest. No extra docks or manual level identification in the app are required. It can support up to four floors.
