**Wi-Fi Module for CP Series –
Monitor From IOS and Android Phone**

Wi-Fi Plug Pro

Quick Installation Guideline

Installation

1. Find the corresponding interface code on the right table, according to the model of the datalogger.
2. Based on the corresponding icon, finish the installation according to the interface code.
3. Confirm the status of the LED light (After step2.3, when 4 LED light keep on, showing the normal working status).

Datalogger Model	Interface Code	Interface Icon
Wi-Fi Plug Pro	①	

Connect one end of the communication cable to the Wi-Fi module, and connect the other RJ45 port to the COMM port of the inverter and plug it in tightly.
Place the Wi-Fi module in a safe position and make it stable.
Please do not place it directly on the inverter to avoid interference.
