**Teriph Battery LCD Writing Tablet**

**Launch Date:** 2022

**Price:** \$16.98

## Introduction

For both kids and adults, the Teriph Battery LCD Writing Tablet is a creative, eco-friendly, and portable gadget. It has a 10-inch LCD screen that simulates the texture of paper, providing a responsive and fluid writing experience for sketching, taking notes, and doodling. The tablet's pressure-sensitive technology lets users draw lines with different thicknesses depending on how hard they press. With its lightweight design, long-lasting battery life, and simple erase button, the device is highly user-friendly. This tablet is a great tool for professionals, artists, and students alike because it reduces paper waste. The Teriph LCD Writing Tablet provides countless opportunities for writing and studying while on the go, whether you're using it for artistic endeavors or educational objectives.

## Specifications

- **Screen Size:** 10-inch LCD screen
- **Battery:** 1 x CR2020 button battery (replaceable)
- **Weight:** 150g (approximately)
- **Dimensions:** 10 x 6.5 x 0.2 inches
- **Material:** High-quality ABS plastic
- **Writing Technology:** LCD Pressure-sensitive screen
- **Color:** Black frame with a colorful writing surface
- **Power Source:** Single CR2020 coin cell battery, which lasts for months depending on usage

## Package Includes

- 1 x Teriph Battery LCD Writing Tablet
- 1 x Stylus Pen

- 1 x User Manual
- 1 x CR2020 Coin Cell Battery (pre-installed)
- 1 x Packaging Box

## Features

1. The Teriph LCD Writing Tablet provides a writing surface that is responsive, smooth, and almost exactly like paper. Both kids and adults can use the 10-inch LCD screen for a variety of creative projects, such as writing, sketching, or doodling.
2. The tablet has a pressure-sensitive screen, which means that the pressure you apply with the stylus determines how thick and deep the lines are. This makes writing or art seem more realistic and genuine.
3. **Erase with One Button:** An intuitive “Erase” button is included with the Teriph LCD Writing Tablet. By pressing this button, the screen is immediately cleared, enabling endless reuse without the need for messy cleaning or erasers.
4. **Eco-friendly:** By doing away with the need for conventional paper, pens, markers, and other supplies, the Teriph LCD Writing Tablet contributes to a decrease in paper waste. It’s an eco-friendly option for taking notes, writing, and drawing.
5. **Lightweight & Portable:** This tablet is small and lightweight, weighing only 150g and having thin dimensions. Because of its lightweight design, you can take it with you wherever you go to take notes or express yourself creatively.
6. **Child-Friendly Design:** The tablet is safe for children because it is composed of sturdy, non-toxic ABS plastic. The design is ideal for young users because it has softened edges and a strong body that can handle frequent use by kids.
7. **Battery Operated:** The Teriph LCD Writing Tablet runs for months on a single charge thanks to a replaceable CR2020 coin cell battery. Because of its lengthy battery life, you can use it for longer periods between charges.

8. **Multi-Use Functionality:** This tablet is ideal for a variety of tasks, such as taking notes, drawing, creating to-do lists, brainstorming ideas, and educational assignments. With countless opportunities for learning and creativity, it's the perfect tool for both adults and children.
9. Included is a stylus pen, which glides smoothly across the screen of the tablet to enable accurate and fluid writing or drawing. For precise results, the pen is made especially to operate with a pressure-sensitive screen.
10. **Multipurpose Children's Toys:** The Teriph LCD Writing Tablet is an excellent teaching tool for young learners. It fosters creativity, enhances writing abilities, and aids in the growth of patience, focus, and imagination. The tablet is a flexible learning tool that kids can use for sketching, doodling, math problems, spelling, and more.
11. **Learning Educational Toys:** Kids may practice writing, sketching, and problem-solving techniques in an entertaining and captivating way with the Teriph LCD Writing Tablet. The pressure-sensitive LCD screen is a fantastic tool for learning important skills and enables simple, mess-free creation.
12. **Eye Protection Technology:** To prevent eye irritation, the tablet has an energy-efficient, ocular screen free of blue light and backlight. This lowers the danger of eye strain and offers a healthy substitute for conventional screens, making it safe for kids to use for extended periods.

13. **Dinosaur-Themed Drawing Tablet:** The Teriph LCD Writing Tablet is made for younger users and has a vibrant dinosaur theme that adds excitement and pleasure. The screen's vivid colors help kids find sketching more interesting and fun.

14. **Design for Travel:** The Teriph LCD Writing Tablet is ideal for amusement while on the go. It is the perfect travel toy for kids ages 3 to 8 because it is lightweight, portable, and easy to carry. Without the need for paper or ink, it offers hours of creativity and enjoyment, making it ideal for keeping kids occupied on vacations.
15. **Excellent Kids' Gift Idea:** For kids ages 2 to 8, the Teriph LCD Writing Tablet is a wonderful present option. It is an excellent addition to any toy collection because it is easy to use, long-lasting, and encourages creativity. Additionally, by offering a relaxing, stimulating activity that improves focus and concentration, it can benefit kids with autism or ADHD.

## Usage

1. **Taking Notes:** Perfect for students or professionals who need to jot down quick notes or reminders.
2. **Drawing & Sketching:** Ideal for children and adults alike who want to explore their creativity, whether it's for casual doodling or more detailed drawings.
3. **Educational Tool:** Use the tablet for educational games and learning exercises. It can help children practice writing, math problems, or language skills in a fun, interactive way.
4. **To-Do Lists & Planning:** Great for organizing your day, creating lists, or brainstorming new ideas.
5. **Communication Aid:** Perfect for people with hearing impairments or anyone who needs to communicate quickly through writing.

## Care and Maintenance

1. **Screen Protection:** To keep the **Teriph LCD Writing Tablet** in good condition, avoid placing heavy objects on the screen or subjecting it to sharp impacts.
2. **Battery Care:** The tablet uses a CR2020 coin cell battery. Be sure to replace the battery once it starts running low on power. To avoid damage, remove the battery if the tablet will not be used for an extended period.
3. **Cleaning:** Use a soft cloth to wipe the tablet surface gently. Avoid using any harsh chemicals or abrasives, as

they could damage the screen or body.

4. **Storage:** Store the tablet in a cool, dry place when not in use to prolong the lifespan of the battery and screen.
5. **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight could damage the screen or cause discoloration. Keep the tablet away from extreme temperatures or humidity.

## Troubleshooting

### Screen Not Responding to Writing:

- Check if the stylus pen is working properly. Ensure there is no dirt or debris on the screen.
- Make sure the battery is not drained. If needed, replace the CR2020 coin cell battery.

### Erase Function Not Working:

- Ensure that the “Erase” button is not stuck. Press it gently to reset the screen.
- If the erase function still doesn’t work, the battery may need to be replaced.

### Battery Drains Quickly:

- If the battery is draining quickly, it might be due for replacement. The CR2020 coin cell battery should last for several months of regular use. If the tablet is not used frequently, make sure to turn it off when not in use.

### Lines Appearing When Writing:

- This is a common issue with pressure-sensitive LCD screens, and it can happen if the stylus is pressed too hard or if there’s debris on the screen. Clean the screen and try again with a lighter touch.

### Screen Display Fading:

- If the screen display appears faint or unclear, it might be time to replace the battery. The display’s clarity depends on battery power.

## FAQs

What is the screen size of the Teriph Battery LCD Writing Tablet?

The Teriph Battery LCD Writing Tablet has a 10-inch LCD screen, providing ample space for writing, drawing, and doodling.

How does the pressure sensitivity work on the Teriph LCD Writing Tablet?

The Teriph LCD Writing Tablet features pressure-sensitive technology, where the thickness of the lines depends on how hard you press with the stylus, offering a natural drawing or writing experience.

How do I erase the content on the Teriph LCD Writing Tablet?

The Teriph LCD Writing Tablet has a simple erase button that clears the screen with just one press, allowing you to start fresh instantly.

What type of battery does the Teriph LCD Writing Tablet use?

The Teriph LCD Writing Tablet is powered by a replaceable CR2020 coin cell battery, which provides months of usage without needing frequent recharges.

What can I use the Teriph LCD Writing Tablet for?

The Teriph LCD Writing Tablet can be used for a variety of purposes, including note-taking, sketching, creating to-do lists, educational activities, and brainstorming ideas.

How does the Teriph LCD Writing Tablet help children learn?

The Teriph LCD Writing Tablet helps children practice writing, drawing, and problem-solving skills in a fun and engaging way, promoting creativity, imagination, and focus.

What makes the Teriph LCD Writing Tablet safe for children?

The Teriph LCD Writing Tablet is made from non-toxic ABS plastic with rounded edges, ensuring that it's safe for kids to use. Additionally, it is free of harmful chemicals like BPA, making it an ideal choice for young users.

Can the Teriph LCD Writing Tablet be used for drawing and art projects?

Absolutely! The Teriph LCD Writing Tablet is perfect for drawing and sketching. It offers a smooth, responsive surface for artists of all ages to create artwork or practice their drawing skills.
