- **Color:** Multicolor
- **Collection Name:** Animal Toy Figures
- **Theme:** Animal
- **Animal Theme:** Shark
- **Outer Material:** Plastic
- **Material Type:** Plastic
- **Manufacturer Minimum Age:** 72 months (6 years and older)
- **Required Assembly:** No
- **Package Type:** FFP (Frustration-Free Packaging)

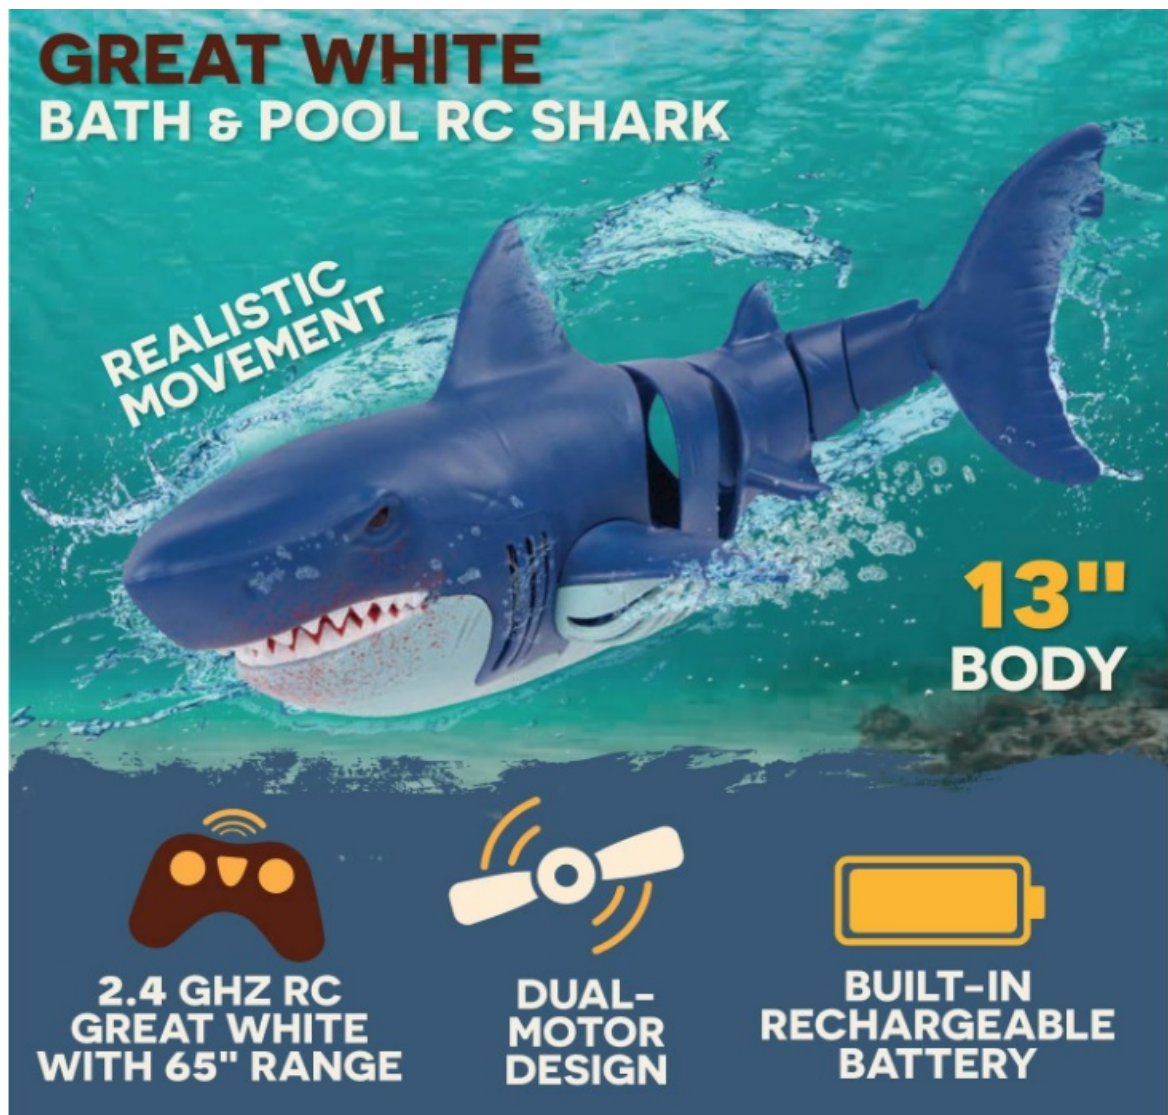

- **Model Name:** RC Shark – Great White
- **Model Number:** AN2923Z
- **Brand Name:** TERRA BY BATTAT
- **Toy Figure Type:** Miniature Figure
- **Subject Character:** Shark
- **Number of Batteries:** 2 x AAA (included)
- **Play Activity Location:** Water
- **Are Batteries Required:** Yes
- **Special Features:** Remote Control

Package Includes

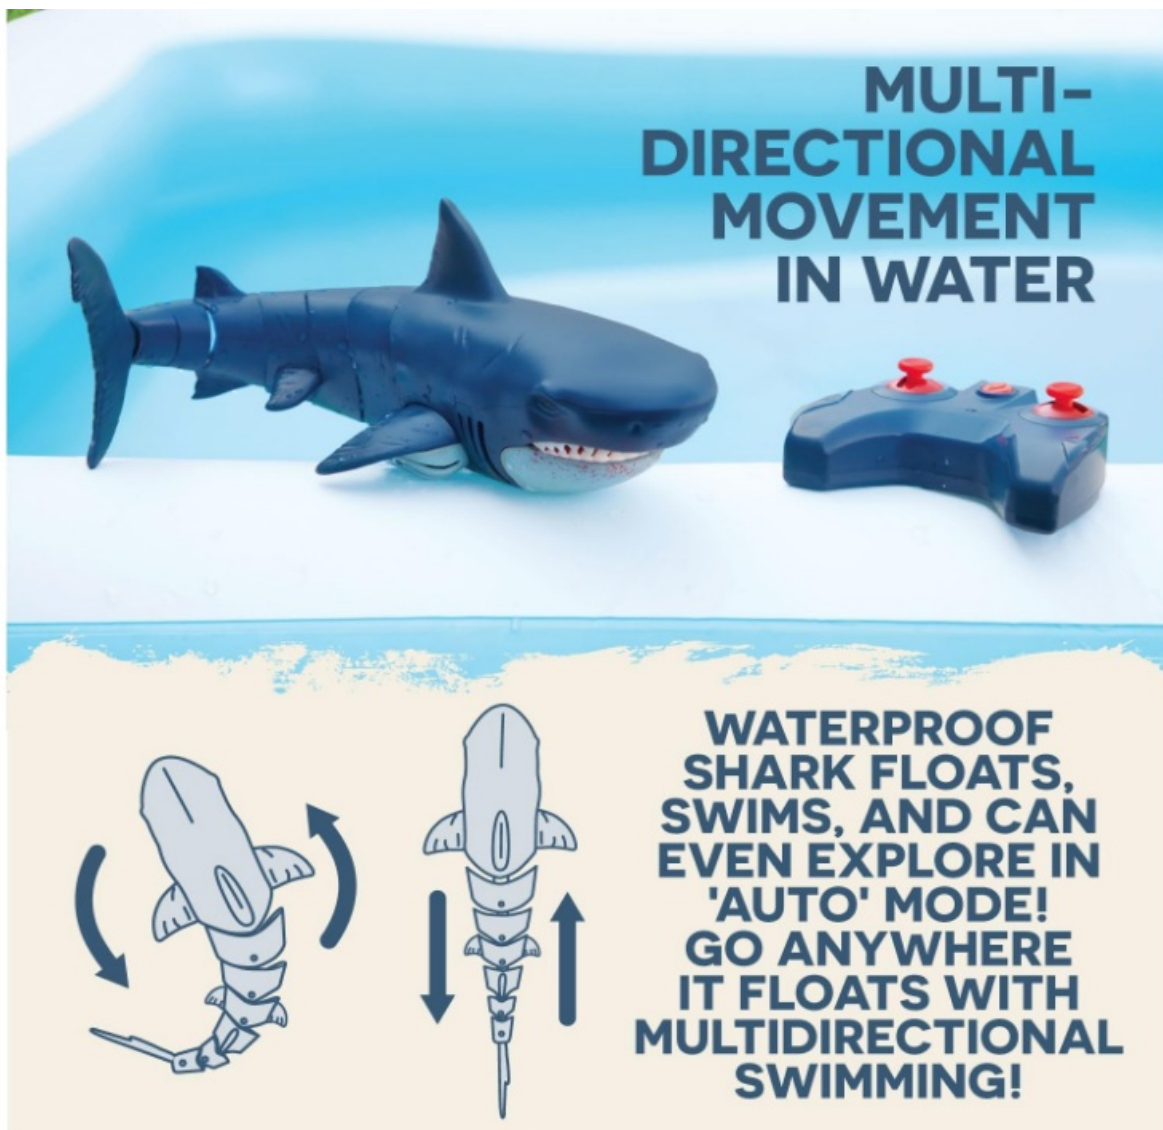

- Terra by Battat AN2923Z Remote Control Shark
- Rechargeable Battery (for the shark)
- Remote Control (requires 2 x AA batteries, not included)
- Charging Cable (for the rechargeable battery)
- Instruction Manual (with setup, operation, and safety guidelines)

Features

1. **Amphibious Design:** The Terra by Battat AN2923Z is made to be used on both land and water, so it can be used in a lot of different places. The shark can be played with by kids in lakes, pools, ponds, on land, and even at the beach. Because of how flexible it is, kids can play with it inside or outside for hours on end.
2. **Realistic Shark Movement:** This shark you can direct from a distance moves like a real shark in the water. Lifelike swimming action makes the game more fun and interesting, giving it a realistic feel that will keep kids' attention and spark their imaginations.
3. **How to Use the Remote Control:** The Terra by Battat AN2923Z comes with an easy-to-use remote control that lets kids move the shark left, right, forward, and backward. Kids can fully control the shark's movement in both water and land play with the remote's advanced features, such as sharp turns and speed adjustments.
4. **With a recharging battery,** the Terra by Battat AN2923Z is an eco-friendly choice because it cuts down on the need for single-use batteries. This feature makes it a more environmentally friendly choice and also lets you play for longer between charges.

5. **Durability:** This toy shark is made from strong, long-lasting materials so it can handle the rough play outside. The Terra by Battat AN2923Z can be used in the water, on muddy ground, or over rough areas. It is designed to last a long time and be durable.
6. **Interactive Play:** This remote-controlled shark makes water play outside more fun and creative. Kids can pretend to go on trips, and races, or do other creative things in the pool, bathtub, or on the beach. This helps them be more creative and interested in the toy.
7. The Terra by Battat AN2923Z is an electronic toy shark that has built-in technology for improved movement and realistic play. Meet the Great White. The way it's made lets it swim in any direction in water, which is fun for kids who are interested in sea creatures like the great white shark.
8. **65-Foot Remote Control Range:** The Terra by Battat AN2923Z has a remote control range of up to 65 feet, so kids can control the shark from a long way away. This makes it great for bigger places like pools or outdoor play areas.
9. **Auto Setting for Pool Prowling:** The shark has an "Auto" setting that lets it move smoothly through the water without any help. This feature is great for people who want to play with their hands off. It lets the shark explore its surroundings without your help.
10. **Design That Is Waterproof for Multiple Environments:** The Terra by Battat AN2923Z can be used in pools, baths, and even some bodies of water outside because it is waterproof. It's made to work well in water without putting the internal parts at risk of breaking.

11. **Educational Play:** Kids can play with this toy that acts like a real shark, which sparks their interest in nature and the environment. It's a fun way to teach kids about protecting wildlife and sea life at the same time.
12. **Batteries Are Included for Remote Control:** The Terra by Battat AN2923Z remote control comes with two AAA batteries, so kids can play with the shark right away without having to buy more batteries for the remote.
13. **Recommended Age:** The Terra by Battat AN2923Z is best for kids 6 years and up. Its sturdy build and easy-to-use remote make it perfect for kids who like to play in the water and with remote-controlled toys outside.
14. **Multi-Directional Control:** The shark can be moved in all directions, including forward, backward, left, and right. This makes for fun and exciting play both in and out of the water.
15. **Dual Propeller Power:** The Terra by Battat AN2923Z has two blades that work together to make it move smoothly and quickly through the water. This makes it easier for it to glide quickly and efficiently, making it move through the water like a real shark.

Usage

- **Before Play:** Charge the rechargeable battery fully before using the shark for the first time. Ensure the remote control has fresh AA batteries installed.
- **Water Play:** Place the shark in a pool or body of water, then use the remote control to guide its movements across the surface. The waterproof design ensures it won't be damaged by water.
- **Land Play:** You can also drive the shark on land, but it works best on smooth, flat surfaces for optimal performance.

- **Charging:** After playtime, recharge the battery using the provided charging cable. Avoid overcharging, and always unplug the charger once the battery is fully charged.

Care and Maintenance

1. **Cleaning:** After every play session, especially if the shark has been used in water, rinse the toy gently with fresh water to remove any dirt or debris. Dry it thoroughly with a soft cloth to prevent damage or corrosion.
2. **Battery Care:** Always ensure that the rechargeable battery is fully charged before use. Do not leave the toy plugged in for extended periods once the battery is fully charged.
3. **Storage:** Store the **Terra by Battat AN2923Z** in a dry, cool place when not in use. Avoid exposing the toy to extreme temperatures, as this may damage the battery or other components.
4. **Check for Wear:** Periodically inspect the remote control and the toy for any loose parts or wear and tear. Tighten screws and replace worn-out parts as needed.

Troubleshooting

The Shark Isn't Moving

- **Possible Cause:** The rechargeable battery may not be charged.
- **Solution:** Recharge the battery fully using the included charger and try again.

The Remote Control Isn't Working

- **Possible Cause:** The remote's batteries may be drained.
- **Solution:** Replace the AA batteries in the remote control.

The Shark Stops Working in Water

- **Possible Cause:** Water may have entered the toy's motor or body.
- **Solution:** Dry off the toy completely and check for water damage. Ensure the waterproof seals are intact before reusing the toy.

Charging Takes Too Long

- **Possible Cause:** The charging cable may not be properly connected, or the charging port may have dirt.
- **Solution:** Ensure the charging cable is connected securely. Clean the charging port gently if necessary.

Shark Is Moving in One Direction Only

- **Possible Cause:** The motor or propellers may be blocked.
- **Solution:** Inspect the propellers for debris or blockages, and remove any dirt or obstructions.

Pros and Cons

Pros	Cons
Engaging design promotes imaginative play	Limited to aquatic environments
Easy setup and user-friendly controls	Requires charging before use
An educational tool for learning about marine life	May require adult supervision for younger children
