## Product Description

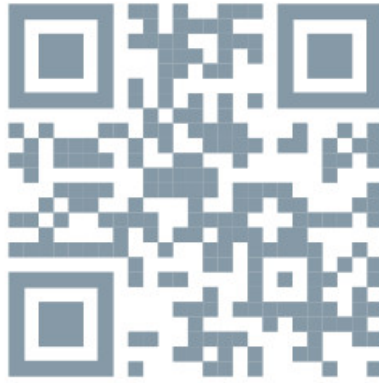

- 1.1 The red indicator light is the Wifi led
- 1.2 The blue indicator light is the Zigbee led
- 1.3 Press the Reset button for 5 seconds to reset.
- 1.4 USB-C port is inserted power supply cable

## APP Operation

### 2. Preparation for use

– Tesla Smart is available for both iOS and Android OS. Search the name „Tesla Smart“ in App Store or Google Play or scan the QR code to download the app and register or login your account.

<http://tsl.sh/app>

– Make sure that the smartphone is connected to the 2.4Ghz network and have Bluetooth & GPS location turned on.

### **Connect the device**

- Open Tesla Smart app and click “+” sign to Add new device
- Select Gateways – Tesla Smart ZigBee Hub (follow the step-by-step guide in the app).
- Plug ZigBee hub into the power supply using USB-C.
- Both the red and blue indicators turn on. Then the red indicator light start to flash and after a few seconds the blue indicator light will flash briefly.
- When the blue indicator light stops flashing, press the „reset“ button for 5 seconds
- Wait for the device to connect to the app.
- When the pairing is successful, the blue indicator light turns off and the red indicator light stays on

### **Control the device**

- Control ZigBee hub with app

## **SAFETY TIPS**

For safety and licensing reasons (CE), unauthorized change and/or modification of the device is not permitted. The device may only be operated indoors and must be protected from the effects of moisture, vibrations, solar or other methods of heat radiation, cold and mechanical loads.

The device is not a toy; do not allow children to play with it. Do not leave packaging material lying around. Plastic films/bags, pieces of polystyrene, etc. can be dangerous in the hands of a child. For power supply, only use the original power supply unit (5VDC/1A) delivered with the Device.

## **INFORMATION ABOUT DISPOSAL AND RECYCLING**

This product is marked with the symbol for separate collection. The product must be disposed of in accordance with the regulations for disposal of electrical and electronic equipment (Directive 2012/19/EU on waste electrical and electronic equipment). Disposal together with regular municipal waste is prohibited. Dispose of all electrical and electronic products in accordance with all local and European regulations at the designated collection points which hold the appropriate authorisation and certification in line with the local and legislative regulations. Correct disposal and recycling help to minimise impacts on the environment and human health. Further information regarding disposal can be obtained from the vendor, authorised service centre or local authorities.

## **EU DECLARATION OF CONFORMITY**

Hereby, Tesla Global Limited. declares that the radio equipment type TSL-GW-GT01ZG is in compliance with EU directives. The full text of the EU declaration of conformity is available at the following internet address: [tsl.sh/doc](https://tsl.sh/doc)  
Connectivity: Wi-Fi 2,4 GHz IEEE 802.11b/g/n , ZigBee IEEE 802.15.4  
Frequency band: 2.400 – 2.4835 GHz (Wi-Fi), 2.400 – 2.480 GHz ZigBee  
Max. radio-frequency power (EIRP): < 10 dBm  
Maximum radiated power(WIFI): < 20dBm

Manufacturer

Tesla Global Limited  
Far East Consortium Building,  
121 Des Voeux Road Central  
Hong Kong
