Tg3 Electronics D4239 keyboard User Manual

USER MANUAL

1. Place 2 pieces of AA batteries
2. Start PC and place the USB dongle in a free USB slot of the PC
3. It may take up to a few minutes for the drivers to be installed automatically
4. This product is plug-and-play compatible with Windows PCs, no additional drivers are needed.

The RJ45 plug is only for factory debugging, not for customer use.

FCC ID:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

Model: D4239 Frequency: 2.4GHz

Transmit power: < 100mW (20dBm)

Maximum operation Temperature: 40°C

Hereby, we declare that the radio equipment type model is in compliance with Radio Equipment Directive (RED) 2014/53/EU. The relevant harmonized test standards are listed:

RF: ETSI EN 300 440 V2.2.1 (2018-07)

EMC: EN 55032:2015+AC:2016, EN 55035:2017, ETSI EN 301 489-1 V2.2.3 (2019-11), ETSI EN 301 489-3 V2.1.1 (2019-03)

EMF: EN 62479:2010

LVD: EN62368-1:2014+A11:2017

This product can be used in the European market without restriction, and meet the requirements of Article 10(2) and 10(10).
