Inside the Box

- 1 x D-TAPE Charger
- 1 x User Manual

Appearance & Interface Description

1. Wireless Magnetic Charging Sensor for Mobile and Wireless Charging Sensor for Earphones
2. Wireless Magnetic Charging Sensor for Smart Watch
3. Type-C Cable

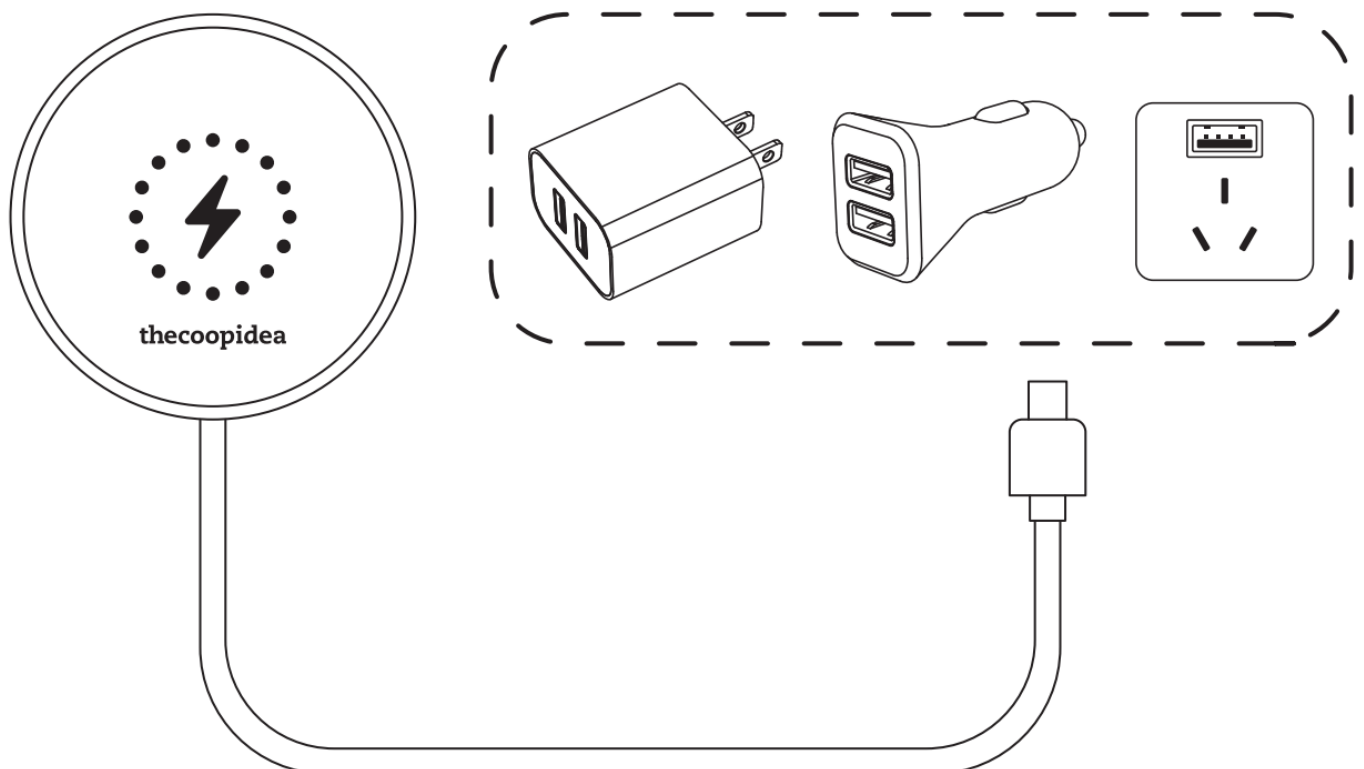

Power Connecting

Connect D-TAPE Type-C cable to a powered USB adapter.

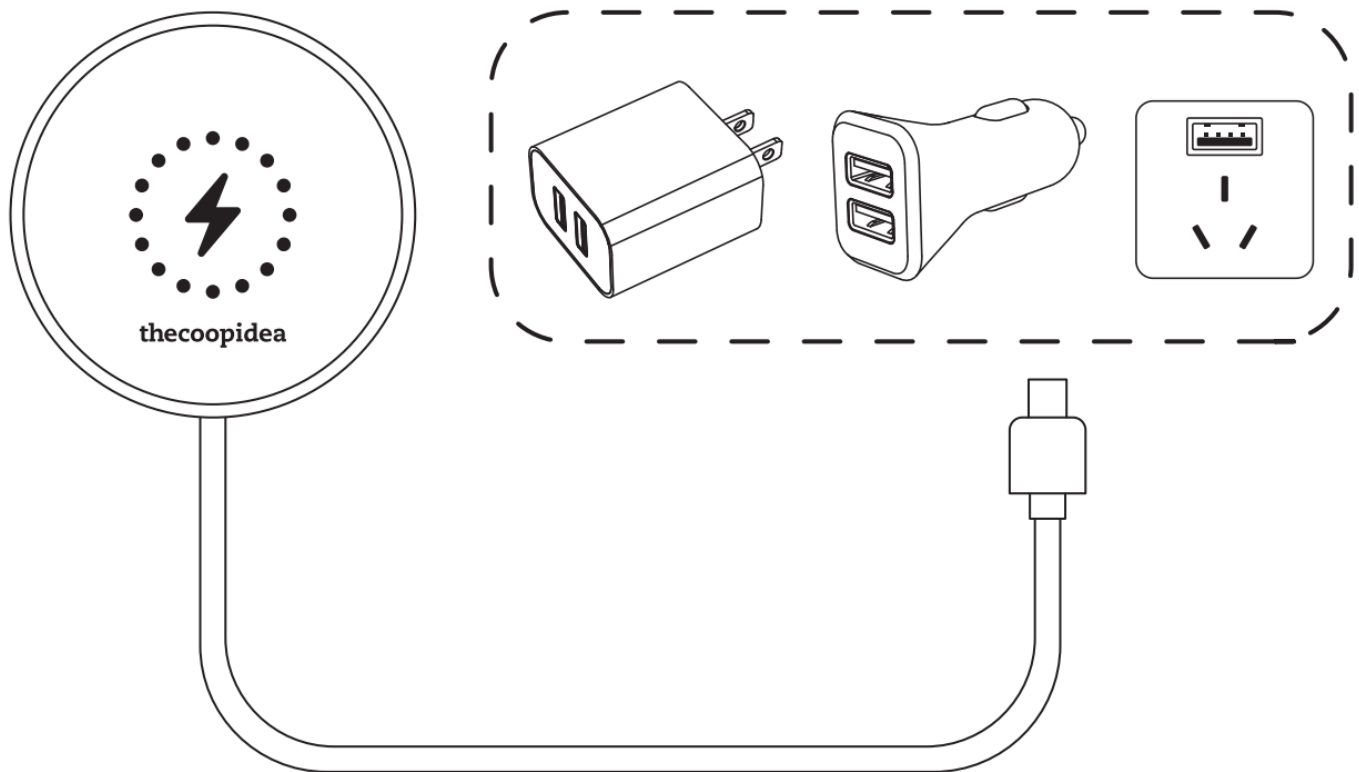

Please use a power adapter with an output power of at least 10W for optimal charging experience.

To enjoy 15W fast charging function, please make sure your power adapter meets PD 3.0 standard and your device is compatible for fast charging.

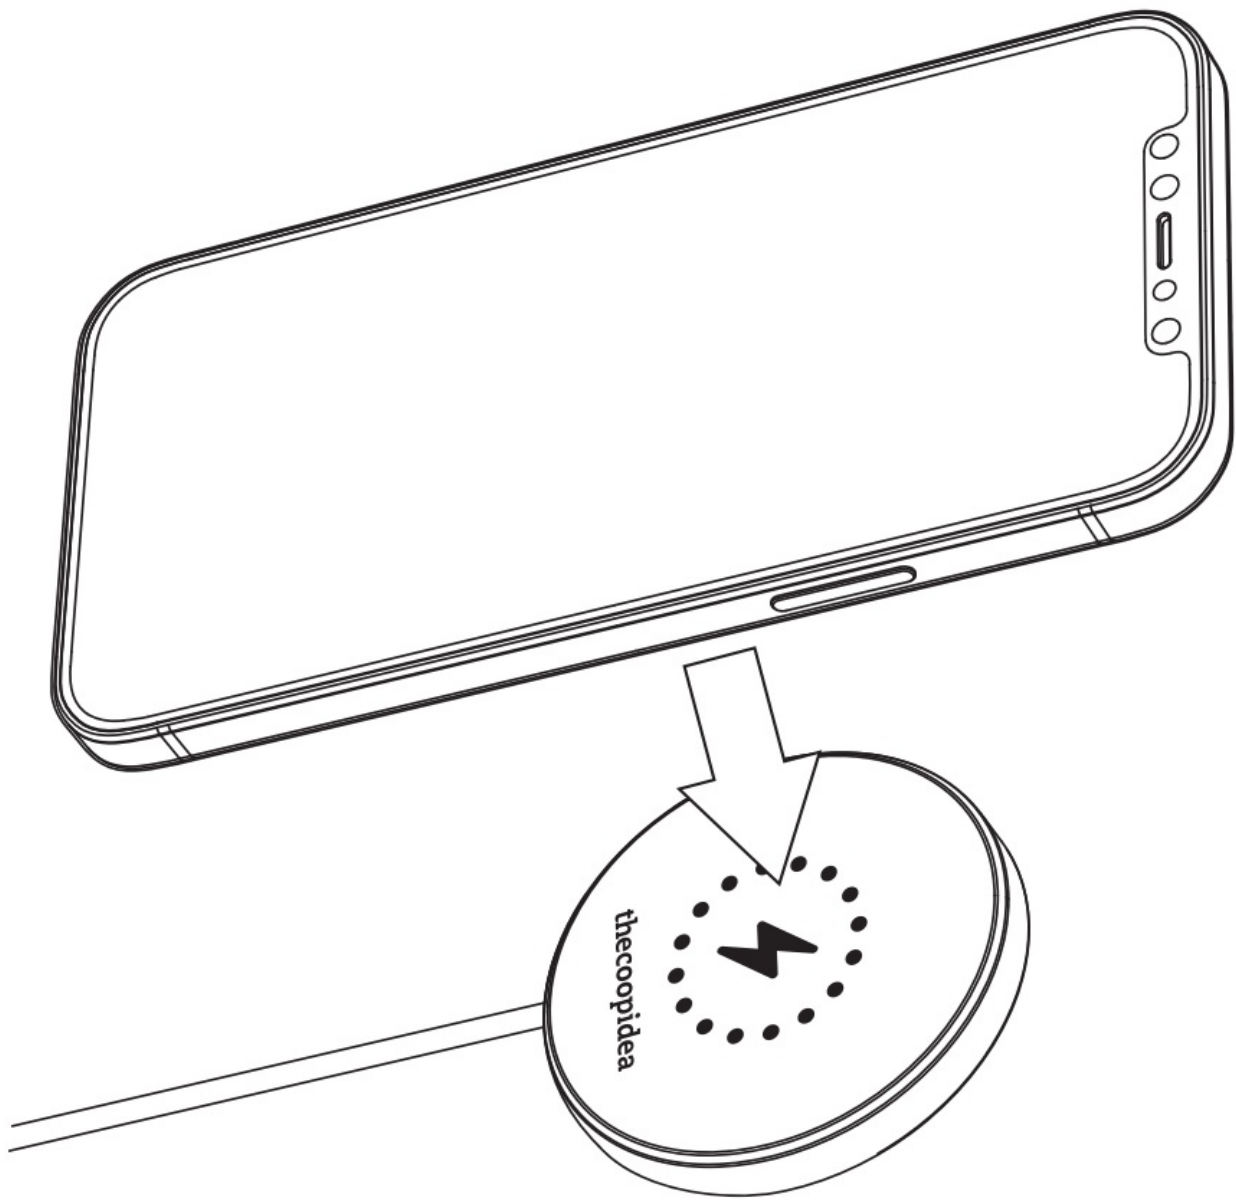

Charging Earphones

Please make sure your earphones are compatible for wireless charging. Please make sure to use a wireless charging compatible case or no case when charging wirelessly. Generic cases may not support this feature. Place your earphones on the top of D-Tape (Wireless Charging Sensor for Earphones side), the earphones will start charging automatically.

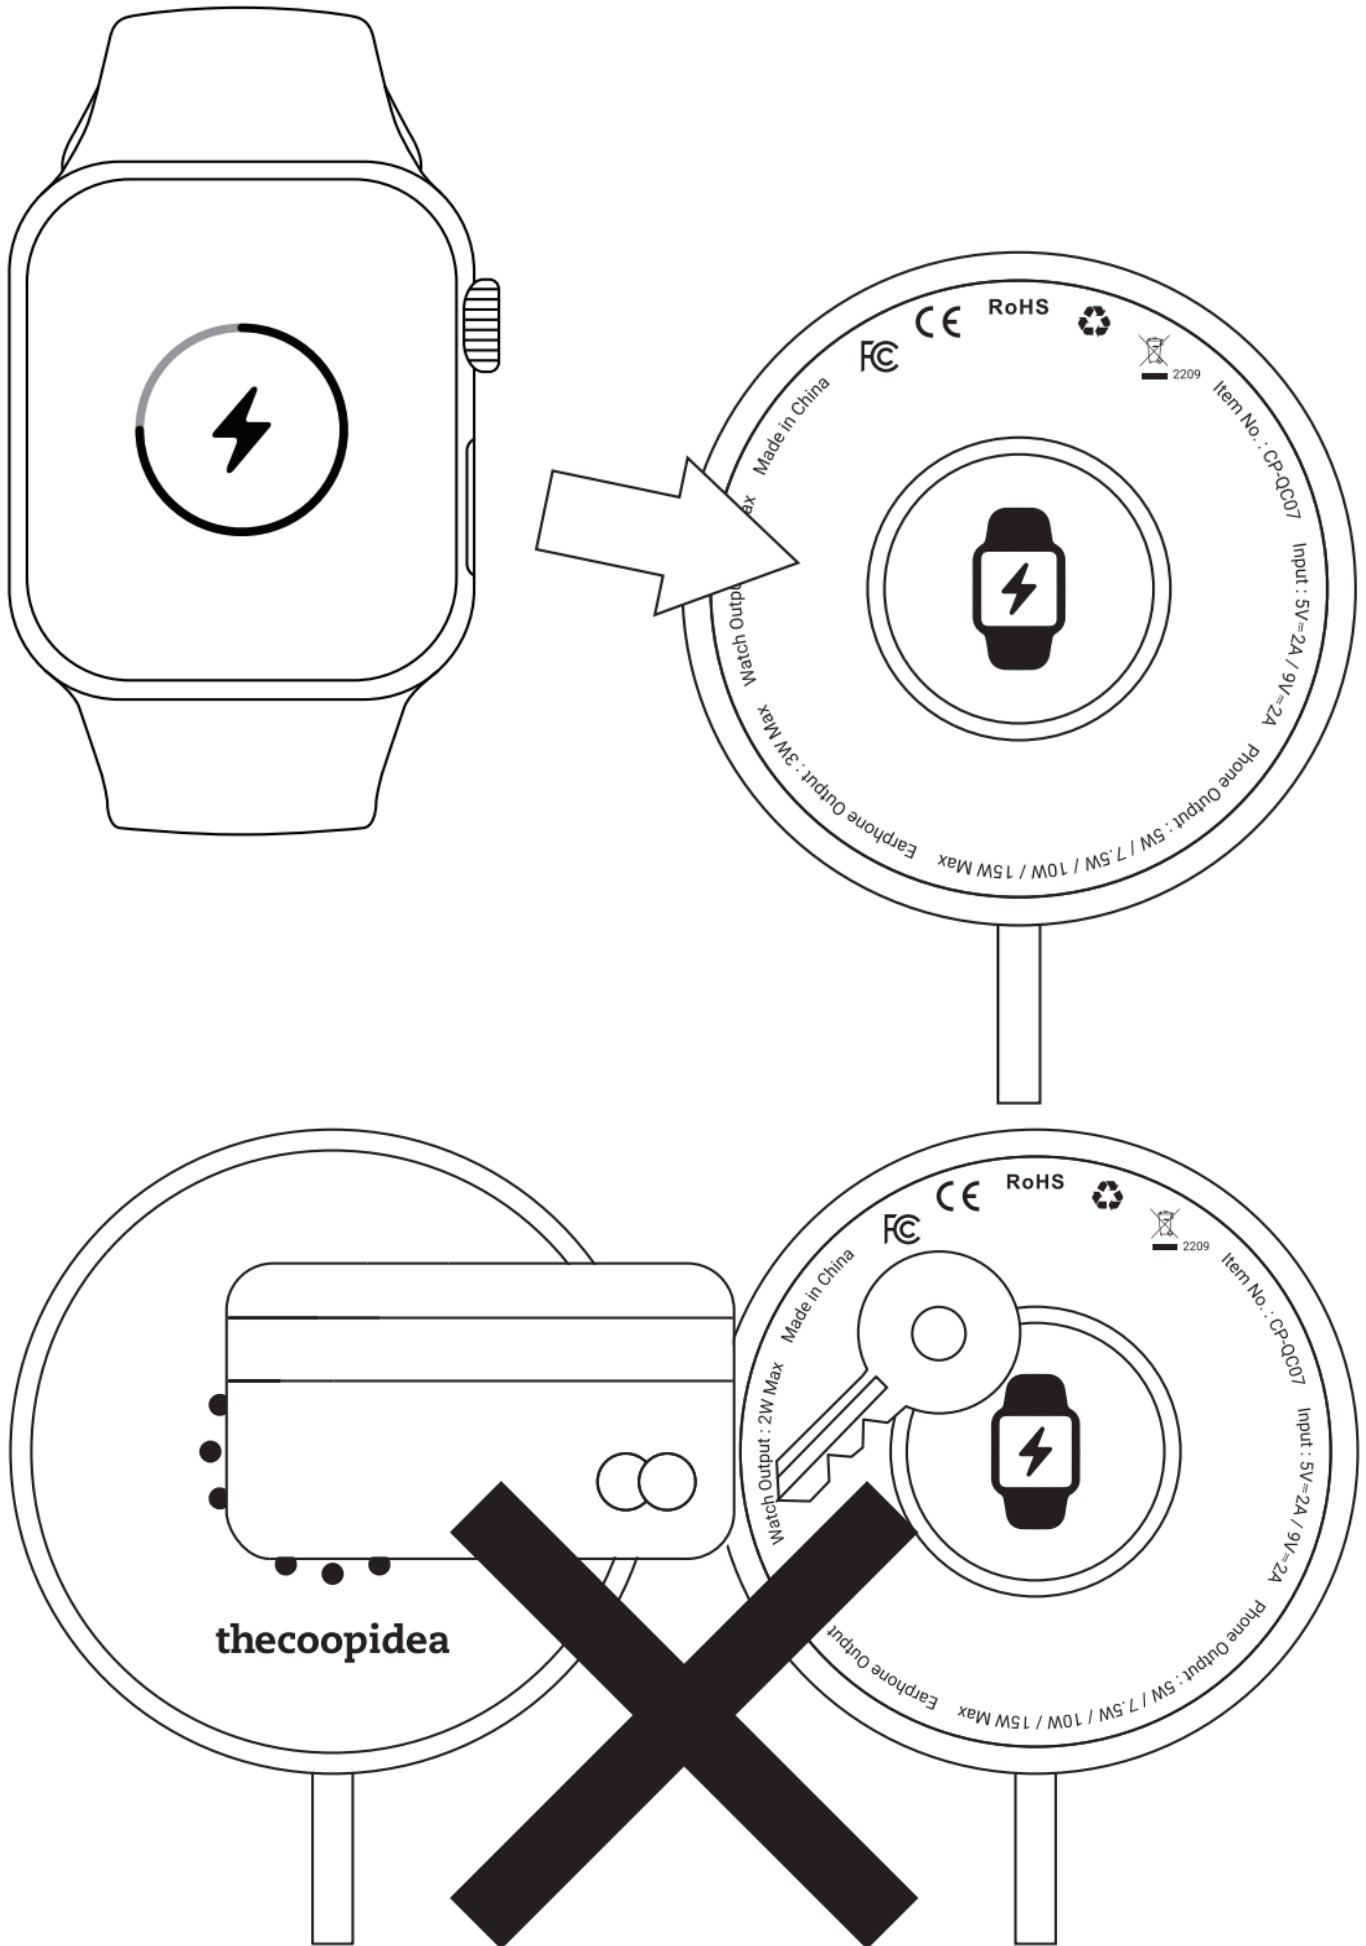

Charging Mobile Device

Please make sure your mobile device is compatible for wireless charging. Please make sure to use a wireless charging compatible case or no case when charging wirelessly. Generic cases may not support this feature. Place your mobile device on the top of D-Tape (Wireless Magnetic Charging Sensor for Mobile side), the device will start charging automatically.

Charging Smart Watch

Please make sure your smart watch is compatible for wireless charging.
Place your smart watch on the top of D-Tape (Wireless Magnetic Charging Sensor for Smart Watch side), the smart watch will start charging automatically.

Precautions

Please read all safety instructions and warnings thoroughly before using this product. Improper use of this product may result in damage to this or attached products.

- Simultaneous charging of different devices is not allowed.
- This product has input over-current and over-voltage protection function. Improper use will shut down the product or reduce the output power. Please check whether the equipment is abnormal or improper use.
- Keep the working environment temperature at 0 to 35°C. Keep the product away from water, fire, high temperature (>40°C) and low temperature (<-20°C), and keep it out of the reach of children.
- Please use a dry soft cloth to clean the surface of this product, do not use chemicals, soaps or detergents.
- Avoid drops, bumps, abrasions and impacts.
- If you find that the product is too hot, or is emitting an odor, or is deformed, punctured or exhibits any suspicious or abnormal behavior, discontinue use immediately.

Explanation Of Warning Symbols & Notes

	This product is compliant with the CE directive.
	This symbol indicates uninsulated material within your unit may cause an electrical shock. For safety, please do not remove product covering.
	This symbol indicates direct current.
	This symbol indicates attention to features for which you should read the enclosed literature closely to prevent operating and maintenance problems.
	Do not dispose of your product with other household waste. Please act according to local rules on the separate collection of electrical and electronic products and batteries. The correct disposal of those products helps prevent potentially negative consequences on the environment and human health.

Troubleshooting

If any malfunction is encountered, unplug D-TAPE from the mains socket and reconnect it again. Please take off your device and make sure no metal object on the back of your device. Place your device correctly on D-TAPE again.

Please do not put metal or other materials on D-TAPE, i.e. credit cards, keys, coins, batteries, that may cause

short circuit.
When D-TAPE over heats, keep your device away from it until it cools down before attempting to charge.

Warranty Terms & Conditions

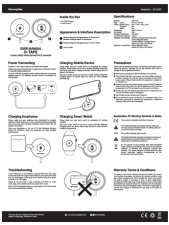

The product comes with a factory warranty for twelve (12) months from the date of purchase. Your product is in perfect condition. In the event where a replacement unit is needed, the owner must provide the original receipt of purchase in order to grant replacement, providing the defect falls under warranty terms. If your unit has been disassembled or repaired without the manufacturer’s authorization, the warranty will be immediately voided. The owner is responsible for any fee and charges of delivering the unit back to the agent or manufacturer.
