PICK THE RIGHT TIPS

i) Bass Eartips

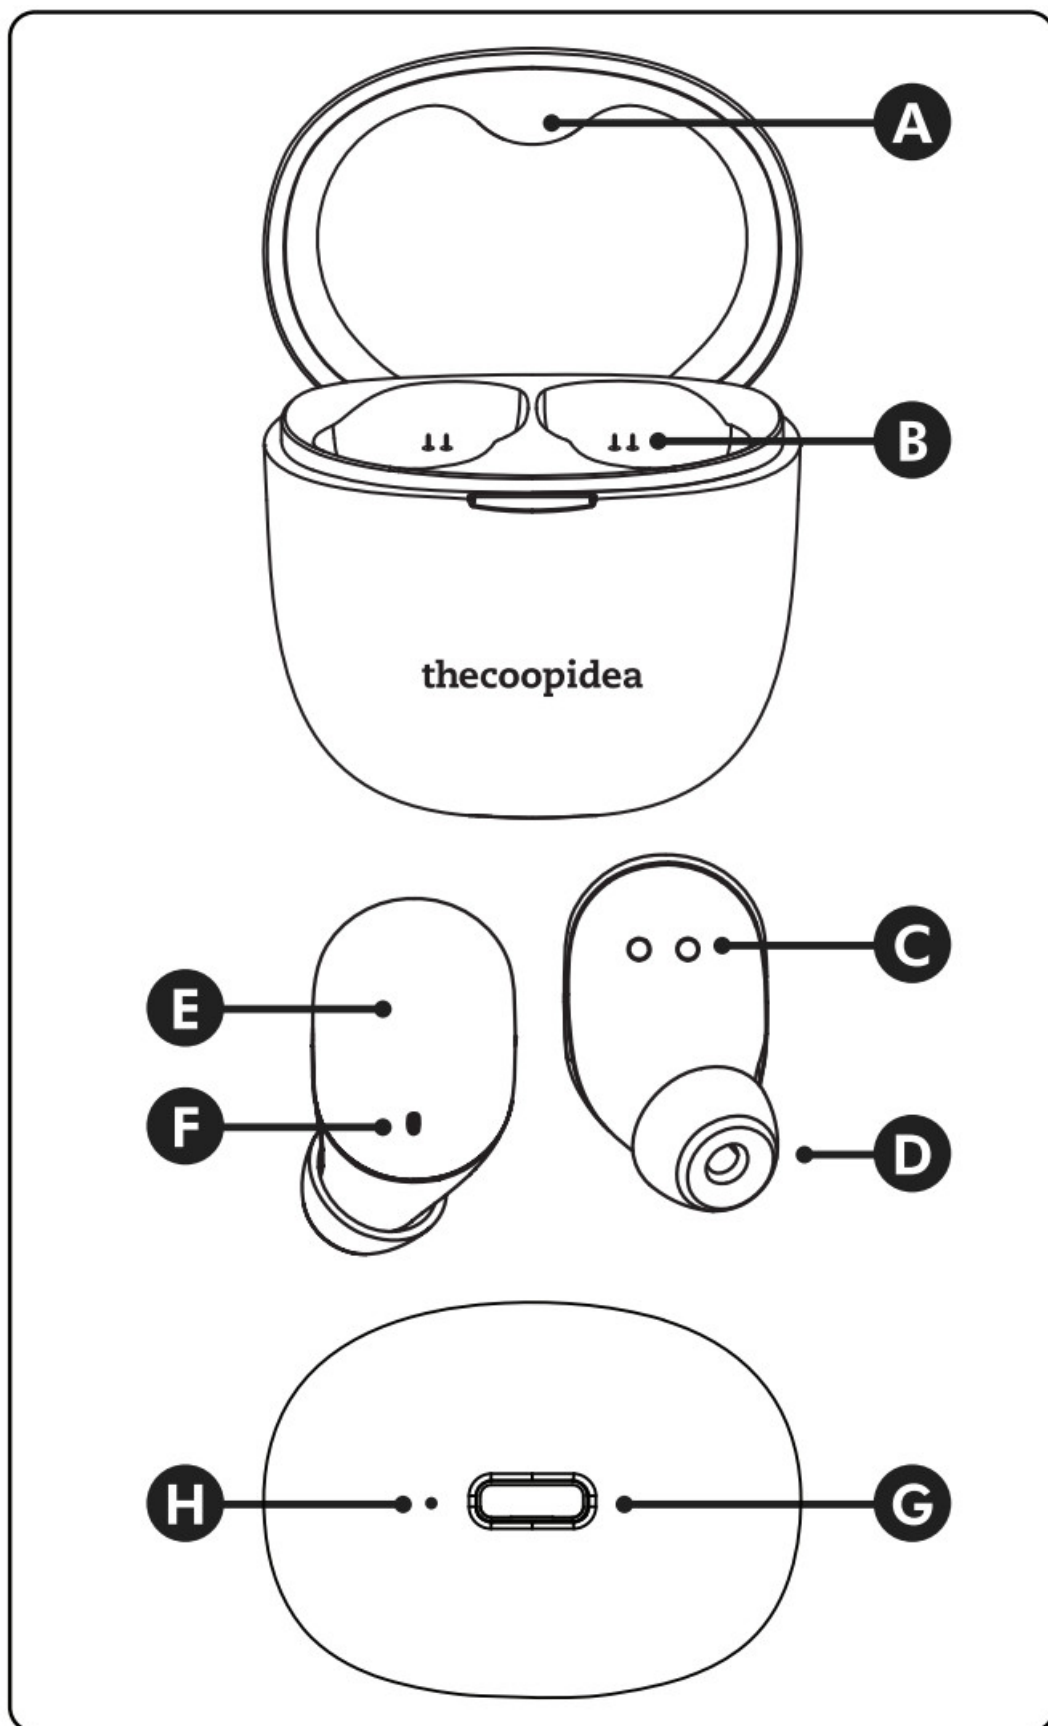

The enhanced bass frequencies penetrate deeper into the ear canal, reducing the length of the sound waves' path, for an exceptional listening experience and maximum comfort. Lessens the hissing sounds for a more moderate, heavier sound and that enhances the sound of the music.

ii) Balance Eartips

The tight fit to the shape of the ear canal gives a super airtight effect, providing powerful noise cancellation and delivering the most realistic, high-resolution music without external interference.

WARNING

Always store the earbuds in the charging case and safely protected them. Avoid storing the earbuds in hot or cold environments to prevent depletion of the battery capacity. Avoid storing the earbuds for extended periods of time without recharging them. If the earbuds or the charging case become dirty, it is recommended to clean them with a soft cloth that has been dampened with clean water. The OS version of mobile devices may affect the performance of BEANS AIR, it is recommended to update the OS of your mobile device to the latest version before use. Don't put the BEANS AIR into the Charging case while it is moist. Doing so can cause severe damage to the electronics or housing of BEANS AIR. BEANS AIR Charging case is not waterproof. Store the product in a dry area. Keep away from fire, heat, and moist and erosive materials. Remove from power source once the product is fully charged. Extended periods of over-charging will decrease battery life. It is strongly recommended to clean and dry BEANS' AIR properly when it has been exposed to water and sweat. Do not use rough chemicals such as soap or cleanser to scrub the product. Do not disassemble, damage, or expose the product to water or fire. The warranty will be voided by any misuse of the product. If the battery is expanded or emits a smell, stop using the product immediately.
