Controller Installation Guide

1. Connect the reservoir cable onto the controller.
2. Set the DIP switch on the back side of the controller to assign the number of the controller

3. Connect the controller cable onto the mainboard (USB 2.0 9 pin) and controller.
4. Connect the power cable to the 4pin Molex connector and controller.

5. If you want to connect two or more connectors, you can use the bridge cable to connect the controllers.
