iOS

Android

Introduction

Congratulations on your purchase of a Smart, Wireless Bluetooth connected Cooking Thermometer. You will now be able to remotely monitor the temperature of food and how much time is left for the food to be done from your smartphone.

Features

Wall Hanging Hole

1. **Temperature Range:** 14°F to 572° F (-1 °C to 300° C).
2. **Temperature Tolerance:** ±1.8°F (±1.0° C) from 32 to 212° F (0 to 100° C), otherwise ±1.5%.
3. **Remote Range:** 450ft (135M). This range is based on tests at an ambient temperature of 77°F or 25°C without any obstructions or electromagnetic interference. Your range can vary depending on the number of obstructions and electromagnetic in your environment.
4. **Power:** 2 x AAA batteries .
5. Display the temperature of 2 probes.
6. 2.4GHZ wireless Bluetooth function, connect to mobile app via Bluetooth module.
7. **Touchable Backlight:** Touch the  button to turn on/off the backlight.
8.  : Press once to turn ON/OFF the unit, press and hold for 3 seconds to select the temperature unit.
9.  **Button:** Press and hold for 3 seconds to turn off the alarm function. Press once to turn on the alarm function. This button just applies to temperature mode.
10. Low Battery Indicator.

Components

- 1 x Meat Thermometer
- 2 x Stainless Steel Probes
- 1 x BBQ Clip
- 2 x AAAA Batteries
- 1 x User Manual

1. Installing Batteries

Open the battery compartment and insert 2 x AAA batteries with correct polarity.

2. Turn On/Off Unit

Press the () button once to turn ON/OFF the unit.

3. Auto Off Feature

When the power is on, if the probe temp is lower than 104°F (40°C) for three hours, the device will turn off automatically.

Usage

Follow the simple steps below to set up your ThermoPro Bluetooth Cooking Thermometer and help you Cook Like a Pro!

- **Step 1:** Download and install the “ThermoPro BBQ” App. Scan the QR code above, or search for “ThermoPro BBQ” on the Apple Store for iOS devices or on the Google Play Store for Android devices. Download the App and install it on your smartphone.
 - iPhone and iPad Apps for iOS 9.0 and above.
 - Android app for versions 4.4 and above.
 - Android users need to allow all the requests about this App from Android system.
- **Step 2:** Enable Bluetooth on your smartphone under the smartphone Settings section. If your smartphone has Bluetooth enabled, you can skip this step.
- **Step 3:** Insert 2 x AAA batteries with correct polarity into the thermometer transmitter.
- **Step 4:** Insert the temperature probes provided into the thermometer transmitter.
- **Step 5:** Turn on the thermometer transmitter by pressing the  button once at the back of the transmitter unit. The Bluetooth icon will be flashing at the top of the transmitter display.
- **Step 6:** Turn on the thermometer transmitter by pressing the button once at the back of the transmitter unit. The Bluetooth icon  will be flashing at the top of the transmitter display.
- **Step 7:** Launch ThermoPro BBQ App and press Click Here. Wait a moment while the thermometer pairs to your smartphone. Once pairing is complete, the Bluetooth icon  on the thermometer transmitter display will stop flashing and the App will jump to the Cooking page which shows the temperatures measured by the probes.

Done! Your ThermoPro Bluetooth Cooking Thermometer is ready for use! Any questions or need more help with setup, please feel free to contact us.

Declaration of Conformity

Hereby, the manufacturer declares that this product with the basic requirements and applicable regulations of the Radio Equipment Directive 2014/53/EU, the EMC Directive 2014/30/ EU. The complete declaration of conformity can be found at:

<https://itronicsmall.com/eu-declaration-of-conformity/complies>

Disposal of the Electronic Appliance

This electronic appliance should not be disposed of with normal household waste. Dispose of the unit at an approved facility or at your local recycling center. Please observe the current rules and regulations when disposing of the appliance. Contact your local council if in doubt.

Limited One-Year Warranty

- ThermoPro warrants this product to be free of defects in parts, materials and workmanship for a period of one year, from date of purchase.
- Should any repairs or servicing under this warranty be required, contact Customer Service by phone or email for instructions on how to pack and ship the product to ThermoPro.
- This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

Customer Service

- **Call or Text:** 1-[877-515-7797](tel:877-515-7797) (USA & Canada only) 44-808-164-1683(UK)

FREQUENTLY ASKED QUESTIONS

What is the ThermoPro TP902 Wireless Meat Thermometer?

The ThermoPro TP902 Wireless Meat Thermometer is a digital thermometer equipped with dual probes, designed for monitoring meat temperature remotely via Bluetooth technology.

What special feature does the ThermoPro TP902 Wireless Meat Thermometer offer?

This thermometer features dual probes, allowing you to monitor the temperature of two different cuts of meat simultaneously.

What type of display does the ThermoPro TP902 Wireless Meat Thermometer have?

It features a digital display, providing clear and accurate temperature readings.

How is the ThermoPro TP902 Wireless Meat Thermometer powered?

This thermometer is powered by 2 AAA batteries, offering convenient battery-powered operation.

What are the upper and lower temperature ratings of the ThermoPro TP902 Wireless Meat Thermometer?

The thermometer has an upper temperature rating of 572 degrees Fahrenheit and a lower temperature rating of 14 degrees Fahrenheit, making it suitable for a wide range of cooking applications.

What is the response time of the ThermoPro TP902 Wireless Meat Thermometer?

The thermometer has a response time of 500 milliseconds, providing fast and accurate temperature readings.

What is the connectivity technology used in the ThermoPro TP902 Wireless Meat Thermometer?

The thermometer utilizes Bluetooth technology for wireless connectivity, allowing you to monitor cooking progress from a distance.

What is the style of the ThermoPro TP902 Wireless Meat Thermometer?

The thermometer comes with 2 probes, allowing for versatile use in monitoring multiple pieces of meat or different sections of the same cut.

What is the warranty period for the ThermoPro TP902 Wireless Meat Thermometer?

The thermometer comes with a one-year warranty, providing assurance of its quality and durability.

How can I ensure accurate temperature measurements with the ThermoPro TP902 Wireless Meat Thermometer?

To ensure accurate temperature measurements, follow the manufacturer's instructions for proper probe placement and calibration. Regularly check the batteries and replace them as needed to maintain optimal performance.

What should I do if the ThermoPro TP902 Wireless Meat Thermometer is not connecting to Bluetooth?

If the thermometer is not connecting to Bluetooth, ensure that it is within the specified range of the connected device and that Bluetooth is enabled on both devices. Try resetting the Bluetooth connection according to the user manual, and ensure that the batteries are inserted correctly and have sufficient power.

How can I troubleshoot inconsistent temperature readings on the ThermoPro TP902 Wireless Meat Thermometer?

Inconsistent temperature readings may occur if the probes are not inserted correctly or if there are fluctuations in ambient temperature. Ensure that the probes are inserted into the thickest part of the meat and that they are not touching bone or fat.

What should I do if the ThermoPro TP902 Wireless Meat Thermometer display is dim or unreadable?

If the display is dim or unreadable, check the battery levels and replace the AAA batteries if necessary. Ensure that the thermometer is in a well-lit area and adjust the contrast or brightness settings if applicable.

How can I troubleshoot physical damage to the ThermoPro TP902 Wireless Meat Thermometer probes?

If the probes have suffered physical damage such as cuts or breaks, discontinue use immediately to prevent further damage or injury.

What should I do if the ThermoPro TP902 Wireless Meat Thermometer is emitting unusual sounds or vibrations?

Unusual sounds or vibrations may indicate a malfunction or internal issue. Discontinue use immediately and contact ThermoPro customer support for further assistance.
