Quick Guide

- **Power Button:** Long press to power on or off (release after power on/off is complete)
- **Function Button:** Single Click: switch screen display pages by single click;
- **Double Click:** Send a temporary ping of the device's location to the network;
- **Triple Click:** Trigger an SOS alarm signal (three short, three long, three short), activate the buzzer, and flash the indicator light;
- **BOOT Button:** Switch screen display pages by single click.
- **Reset button:** Click to restart/reboot the device.
- **Product Status LED:**
 - a. After the device is turned on normally, the red light stays on steadily.
 - b. The red light flashes rapidly to indicate charging status, and remains steady when fully charged.
 - c. When the battery level is low, the red light will flash slowly.

Precautions

- Avoid placing the product in damp or high temperature areas.
- Do not disassemble, impact, crush, or throw the product into fire; do not use after submersion in water.

- If the product shows physical damage or severe swelling, do not continue to use it.
- Do not use an unsuitable power supply to power the device.
